TOWN OF HUDSON

Board of Selectmen

12 School Street Hudson, New Hampshire 03051 603/886-6024 FAX 603/598-6481

Chairman's Report 2008

What a memorable year we have had! There are so many thanks due to our residents and businesses for everything that has happened during my year as Chairman. From the new library, Benson's returning to Hudson, the ice storm and the changing of leadership at the Police Department--and many other occasions in which people need to be recognized, but here are a few:

- To the Rodgers' Family for their incredibly generous donation to the Town for a new and much needed Library. After so many years of the Library Trustees and Friends trying so hard, they finally were able to get the fantastic donation to build a new, better library. And it's great that, once again, it will be named after a significant family here in Town.
- To the American Legion and the VFW have continued to keep us in a patriotic frame of mind with their parades and ceremonies. Thank you, also, for all those who volunteered their time to make Memorial, Independence, 9/11 and Pearl Harbor Days the best they could be.
- The Benson's Project--thanks to Esther McGraw, Rhona Charbonneau and fellow Selectmen, Shawn Jasper and Roger Coutu, as well as the Benson's Committee, and everyone in Town that pitched in throughout all these years to help the Town acquire the Benson's Property for our future. All the hard work, the clearing of debris and fundraising to make this possible will never be forgotten. A very big thank you, also, to Governor John Lynch for helping Hudson's dream become a reality.
- To retired Police Chief Richard Gendron, we owe a very big round of applause for all the great things he helped accomplish throughout his career here in Hudson. What a ride it's been! He led the Hudson Police Department to National Accreditation and to becoming the premier police force in New Hampshire. Welcome to our new Chief Jason Lavoie, who has big shoes to fill!
- To the Conservation Committee for all they have done through these years with Hudson's wetlands, as well as many other projects in which they've been involved. We are lucky to have such dedicated environmentalists on board!
- The Ice Storm. We ended the year with a very big reminder that Mother Nature still has control over us mere humans! The Ice Storm of 2008, December 11-22, will be talked about for many years to come. The residents of Hudson suffered power outages ranging from moments of loss, to 12 days without power. Neighbors helped neighbors and strangers helped strangers. The Fire, Public Works, and Police Departments did a wonderful job helping our Town's people in the best

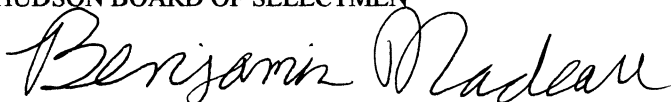

ways possible. We had businesses using generators to stay open for those residents that could not even cook a simple meal, we had the Community Center open for warmth and we had neighbors checking in on those who might have been a cause for concern--the sick, disabled and elderly. People opened their homes to others for the simple need to shower. It just proves that we have a town of caring, compassionate citizens. We need to send a thank you out also to the Red Cross, PSNH, Salvation Army and the various electric companies who took the time to come from far away places to help those of us in need. It was a very difficult, trying time for many of our citizens and we were able to pull through with the least amount of casualties as possible.

- Lastly, on a personal note, I would like to recognize some important people in my life. As my wife would say, my friend, Len Lathrop, thank you for being there whenever I needed you. Thank you to my Mom and Dad for understanding that, at times, I had to leave you stranded at work for my Selectman's duties. And the big thank you to my wife, Jennifer, and daughters, Amanda and Cassie, for bearing with me these three years, for missing out on school concerts, parent-teacher meetings and all the other times we should have been together, the missed dinners, the quiet nights we could have had, and other opportunities that were missed due to my commitments with the Selectmen. I owe you a big family vacation after the baby arrives! Thank you.

In closing, with the economy on everyone's minds, I'm happy to report that the budget being presented at the March election is level-funded and the Town of Hudson is financially sound.

Respectfully submitted,

HUDSON BOARD OF SELECTMEN

A handwritten signature in black ink, reading "Benjamin Nadeau". The signature is written in a cursive, flowing style.

Benjamin Nadeau

The year 2008 saw considerably less real-estate related activity for the Assessing Department and the Town's residents, in terms of both real estate sales transactions and construction activity. As of the statutory assessment date for 2008, April 1, real estate values had continued to decline (in general terms) from the previous quarter as well as from the prior assessment year. Since April 1, 2008 market data does indicate that the overall residential real estate market has continued to decline, however, it is a decline that is less than what has been experienced in other geographic areas of the state and the region.

The Assessing Department is now approximately 1 year out from its last revaluation, April 1, 2007. The 5 years previous to that year had seen more frequent updates accomplished by our department on the Town's assessments. This relatively more frequent adjustment of values is in conformance with State statutes and rules and had the practical and conservative effect of leveling out the amount of decrease, or increase, to property assessments in any given property tax year. This activity did enable our community to have fair and equitable property assessments, assessments that reflected the complexities of real estate markets and the diverse effects that it has on property assessments of all classes of property-industrial, commercial, residential and vacant land.

The department, for the 2nd year in a row, has sought funding to conduct another Town-wide reassessment in order to recognize the decline in the real estate market. As of the deadline for the submission for this annual report, we have been unsuccessful in obtaining approval for that funding. The next time the Town is currently mandated to conduct a reassessment, as per the State's constitution, is for as of April 1, 2012, 5 years from the last one.

In order for the Town to maintain its multi-year investments in assessment performance, the Board of Selectmen did propose a warrant article (which passed) to establish a Capital Reserve Fund to help pay for future revaluations and updates. The funding for that warrant article came in at \$5,000, so a significant amount of additional funding is necessary in order to have enough funds to conduct a responsible reassessment.

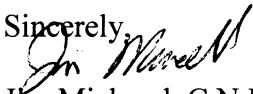

The department continues to provide quality, compassionate and timely service to the taxpayers that come into our office for help with applications for elderly exemptions, Veteran's tax credits, disability exemptions, etc., as well as to work on the myriad of processes that are part of the Assessing Department's responsibilities.

In summary, this department prides itself on providing the best service and support to its constituency, mainly the taxpayers of Hudson. As always, the public is invited to visit our office to access the assessment data available on our office PCs. In addition, we have been able to institute internet access to both the Town's assessment database and property tax maps on the web to members of the general public, as well as those who may be homebound or not easily mobile. (Go to <http://www.ci.hudson.nh.us>).

The Assessing Department welcomed a new staff member to the department, filling a vacated position, Ellen Brideau – Assessment Technician. Ms. Brideau has filled a position previously occupied by Kathy Nealon. Ms. Nealon worked for the Town for approx. 10 years and while the department does miss the institutional knowledge that Ms. Nealon had, we also welcome the addition of Ms. Brideau with her broad overall real estate assessment background. In closing, we would not be as responsive to your needs and questions without the valued assistance of Ellen Brideau, Assessment Technician, part-time Administrative Aide, Amy McMullen, as well as part-time Appraisal Technician, George Lielasus. Their skills have saved both time and money for the Town's taxpayers before, during, and after the tax bills go out.

The department has been fortunate to have the support of the Board of Selectmen, the Town Administrator, other elected officials, all Town Departments as well as the citizens of the Town of Hudson over the past year. Thank you for the opportunity to assist you during the prior year.

Sincerely,

Jim Michaud, C.N.H.A., CAE, AAS
Assistant Assessor

EXEMPTIONS

Effective with the 1996 property tax year, the laws governing the various forms of property tax relief available to landowners had been standardized. Under the new process, taxpayers have until April 15th prior to the June tax bill to file an application for exemption, credit, or tax deferral.

Blind Exemption

1. Determined legally blind by the Administrator of Blind Services of the Vocational Rehabilitation Division of the State of New Hampshire Education Department.
2. Exempt each year on assessed value for property tax purposes of his/her residential real estate to the value of \$105,000 (approved March 13, 2007 Town Ballot Vote).

Elderly Exemption

1. Have to reside in the State of New Hampshire for at least three (3) years preceding April 1st in which the exemption is claimed.
2. Have a net income from all sources of less than \$35,000 including Social Security, or if married, less than \$45,000, including Social Security.
3. Applicant's net assets shall not exceed \$150,000, excluding the value of the person's actual residence. "Net assets" means the value of all assets, tangible and intangible, minus the value of all good faith encumbrances. An asset is everything you own i.e.: car, furniture, jewelry, stocks, bonds, savings/checking accounts, tools/equipment, etc. "Residence" means the housing unit, and related structures such as an unattached garage or woodshed, which is the person's principal home, and which the person in good faith regards as his/her home to the exclusion of any other places where a person may temporarily live. "Residence" shall exclude attached dwelling units and unattached structures used or intended for commercial or other nonresidential purposes.
4. Additional requirements for an exemption under RSA 72:39-b shall be that the property is:
 - (a) Owned by the applicant; or
 - (b) Owned by the applicant jointly or in common with the resident's spouse, either of whom meets the age requirement for the exemption claimed; or
 - (c) Owned by the applicant joint or in common with a person not the applicant's spouse, if the applicant meets the applicable age requirements for the exemption claimed; or
 - (d) Owned by a resident, or the resident's spouse, either of whom meets the age requirement for the exemption claimed, and when they have been married to each other for at least five (5) years.
5. Is at least 65 years of age or older on or before April 1st. An exemption of \$105,000 for residents 65 years of age up to 75; \$125,000 from 75 years of age up to 80; and \$150,000 from 80 years of age and older is applied to the assessed value of the property. (Approved at Town Ballot Vote March 13, 2007.)

Totally and Permanently Disabled Exemption

1. Any person determined eligible under the federal Social Security Act for benefits to the totally and permanently disabled shall receive a yearly exemption in the amount of \$105,000 off of the assessed value of the residential property. Have to have resided in the State of New Hampshire for at least five (5) years preceding April 1st in which the exemption is claimed.
2. Have a net income, from all sources, of less than \$35,000 including Social Security, or if married a net income of less than \$45,000 including Social Security.
3. Applicant's net assets shall not exceed \$150,000, excluding the value of the person's actual residence. "Net assets" means the value of all assets, tangible and intangible, minus the value of all good faith encumbrances. An asset is everything you own i.e.: car, furniture, jewelry, stocks, bonds, savings/checking accounts, tools/equipment, etc. "Residence" means the housing unit, and related structures such as an unattached garage or woodshed, which is the person's principal home, and which the person in good faith regards as his/her home to the exclusion of any other places where a person may temporarily live. "Residence" shall exclude attached dwelling units and unattached structures used or intended for commercial or other nonresidential purposes. (Approved at Town Ballot Vote on March 13, 2007.)

Veteran's Credit

1. Have to be a resident of the State of New Hampshire for at least one (1) year previous to April 1st in the year which the credit is applied for.
2. Have to have served not less than ninety (90) days in the Armed Forces of the United States in a war or conflict as outlined in RSA 72:28. The credit in the amount of \$500.00 is applied to the amount of taxes owed. A Disabled Veteran's Credit of \$2,000 is also available to a Veteran if he/she is permanently disabled as a result of a service-connected injury. A copy of the DD214, a discharge paper and any other sufficient proof is required when applying for these credits. A credit of \$2,000 is also available to the surviving spouses of veterans killed in the line of duty. The Veteran's Credit was approved at a Town Ballot Vote on March 13, 2007. The Disabled Veteran's Credit and the Surviving Spouse Credit listed above was approved at a Town Ballot Vote on March 11, 2004.

Current Use

In order to encourage appreciation for the environment, conserve land and other resources, and to maintain open space, there are provisions for placing land in Current Use status where it is assessed at significantly lower values. Many requirements must be met and various restrictions do apply, including, in most cases, a 10 acre minimum requirement. If you desire to investigate further, you will want to look up RSA 79-A and/or also stop in the Assessing Department to get assistance.

For more information regarding Current Use, Tax Assessing laws in the State of NH, please visit <http://www.nh.gov/revenue>.

TOWN OF HUDSON

CABLE UTILITY COMMITTEE

12 SCHOOL STREET HUDSON, NEW HAMPSHIRE 03051 603/886-6024 FAX 603/598-6481

2008 Annual Report

During 2008 the Cable Utility Committee and HCTV made significant progress towards the expansion and availability of locally produced programming on our cable television access channels.

In August we welcomed Jake Nazarian, our new facilitator, to HCTV. Jake brings previous local access experience and renewed enthusiasm for involving the Hudson community in HCTV. During his first six months he has introduced a number of television production training classes that have been attended by community members and town government personnel. This training will lead to volunteers producing programs for our access channels.

In December the Board of Selectmen approved the committee's plan to lease space in town in order to open a local access studio and production facility. The new studio is located at 98 Old Derry Road. During 2009 we will bring this facility online as we outfit it with the necessary equipment. This new access center will provide a significant resource for the community and is a major step towards expanding local access programming.

During this year we introduced our HCTV web site and the ability to view our library of programs online via a broadband Internet connection. This capability significantly expands our program availability by opening it up to viewers who don't subscribe to Comcast cable television in Hudson. The system allows the convenience of viewing any program on your computer at any time you want. We hope to enhance this service by adding the capability of live Internet streaming of our three local access channels. Please visit our web site at www.HudsonCTV.com.

The Cable Utility Committee and HCTV encourage the Hudson community to take advantage of the powerful and free communications medium that local access television affords. Anyone interested in producing a program, receiving training, or volunteering "behind the scenes" should contact HCTV at 595-6516 or email us at HUDSONCTV@COMCAST.NET.

Sincerely,

Michael O'Keefe
Chairman, Cable Utility Committee

Hudson Cemetery Trustees 2008 Annual Report

Blodgett Cemetery -- Center Burial Ground -- Ford Cemetery -- Senter Burial Ground -- Poor Farm -- Tenny Tomb

The Trustees toured all five cemeteries we are responsible for in April, as we do every year. The cemeteries came through the winter in pretty good shape. We had some damage, mostly from frost heaves that caused stones to tip and break. We contracted with Hudson Monument to repair the damaged stones. The work was completed in July. After our tour, we found that two more stones were damaged, this time by vandals. We also had those repaired. Vandalism, however, is not a big problem in Hudson.

We had another inscription added to the back of the monument at the Poor Farm Cemetery, which was suggested by a citizen and we thought was a good idea. The back of the monument now states "Cemetery of the Unknowns," a reference to the Poor Farm Cemetery in Kimball Webster's History of Hudson dated 1912.

The cemeteries continue to be maintained by the Hudson Highway Department. We appreciate their effort to give perpetual care to every grave, many dating back to the 1700's.

During the next year, we expect to begin the task of noting what is inscribed on each of the stones, starting with the oldest. Some of the 200+ year old stones are weathered and getting hard to read. We will load that information into the data base that we had created a couple of years ago, identifying the exact location of every stone. We also plan to have a couple of trees taken down this coming spring before they fall on older stones. We also need to fix a couple of stone walls and do some poison ivy control. At the Blodgett Cemetery, we have a curb to repair.

Respectively submitted,
Bob Haefner, Chairman

TOWN OF HUDSON
COMMUNITY DEVELOPMENT DEPARTMENT
2008 ANNUAL REPORT

12 School Street • Hudson, New Hampshire 03051 • 603-886-6005 • Fax 603-594-1142

The Community Development Department (CDD) is comprised of municipal government divisions-- Planning, Zoning, Building and Engineering, which provide staff support for several elected and appointed boards and commissions, i.e., Board of Selectmen, Planning Board, Zoning Board of Adjustment, Conservation Commission, Sewer Utility Committee and Water Utility Committee. All of the aforementioned political subdivisions provide a multitude of municipal and land use services to the residents and businesspeople of Hudson.

Following a departmental reorganization, CDD is now comprised of Assistant Town Administrator Mark Pearson, Town Planner John Cashell, Interim Zoning Administrator/Code Enforcement/Inspectional Services Supervisor William Oleksak, Contract Electrical Inspector Joseph Bourque, Acting Town Engineer Gary Webster, Administrative Aides Pam Lavoie, Julie Kennedy and Betty Holt and Secretaries Susan Fiorenza and Debra Winter.

FY 2008 proved to be a year of change and challenging economic times for Hudson. This was especially true in regard to residential development, for the deepening national housing crisis came to bear on the housing market here in Hudson. Perhaps no statistic is more telling than the difference realized between the 141 dwelling units built in Hudson in FY 2005 and the 35 dwelling units built in FY 2008. The difference, in percentage terms, represents a 75% reduction in the number of dwelling units built in Hudson from the nationally recognized housing peak of 2005, to what many hope will be the worst year of the present housing downturn--2008. All indications, however, point to an equally dismal 2009 national housing market, as well as for Hudson.

On a somewhat brighter note, and in spite of the housing downturn, Hudson's commercial sector held up rather well in FY08 with only a slight change in the number of site plans reviewed by the Planning Board--18 commercial site plans reviewed, as opposed to 19 in FY05. Many small businesses continued to expand their in-town operations, with several out-of-state businesses, either moving to Hudson or expressing strong interest to move here. Such business activities provide hope, in spite of the present poor status of the national and regional economies. Hudson's location, together with its available municipal services and amenities, will continue to attract businesses to the community. Hudson has a great location from which businesses can thrive and prosper.

Perhaps a more comprehensive indicator to gauge Hudson's FY08 economic development status involves a comparison of total building permits issued for both residential and commercial development activities in FY08 versus FY05. In this regard, 1,176 building permits were issued in FY08, versus 1,618 in FY05. The 442 fewer permits issued between these two years represents a 27% shortfall. In monetary terms, this shortfall produced a 16% reduction in building permit fee revenue for Hudson, relative to the two cited fiscal years. That is, \$153,288 was received by the town in FY05, as opposed to \$128,716.26 received in FY08.

The above difference may not appear significant, but one must take into consideration that the FY08 total building permit fee revenue includes a 46% (average) building permit fee increase from the fees collected by the town in FY05. In hindsight, the town was fortunate to have the foresight in FY07 to adjust the building permit fee structure. If not, for FY08 (versus FY05 building permit fees), Hudson would have experienced a severe falloff in building permit fee revenue (i.e., 46% less), or \$69,506.64 received building permit fee revenue, versus the actual revenue of \$128,716.26. (The last page of this report lists the specific types of issued permits and their respective totals for FY08.)

Associated with issued building permits, and one of the most important duties and responsibilities assigned to CDD, involves all the inspections associated with the issued permits. For example, building permits require inspections for foundations, framing, electrical, plumbing and mechanical, together with final inspections for each phase/category of building construction. The exact number of inspections conducted in FY08 totaled 2,919. It is

noteworthy to mention that all of the inspections were carried out entirely by two very dedicated municipal employees--William Oleksak, Interim Zoning Administrator and Joseph Bourque, Contract Electrical Inspector. Please note that it is the policy of the department that all inspections be requested 24 hours in advance for scheduling purposes.

Land use applications for building, site plans and zoning can be obtained at the Community Development Department or via the Town's website at www.ci.hudson.nh.us or by email, fax and mail. Prior to construction or reconstruction of any building, including signs, a building permit is likely required. If you have any questions regarding the permitting process for any building activity, please call the department at 886-6005 or come by the office at Town Hall between 8:00 A.M. and 4:30 P.M., Monday through Friday.

In addition, the Hudson Zoning Ordinance contains provisions for wetland conservation districts and wetland buffers, the latter being defined as, "a zone of noninterference extending 50 feet from the edge of a wetland area, or area of poorly drained or very poorly drained soil, or from the top of the bank of a surface water body toward the adjacent upland environment." The foregoing wetland buffer language basically means that no site development activities can occur within 50 feet of a wetland, unless a Wetland Special Exception is issued by the Zoning Board of Adjustment. The wetland buffer regulation is rigorously enforced.

Zoning enforcement is a daily priority for the department. As a longstanding policy by elected and appointed officials, effective zoning enforcement helps to ensure that all Hudson residents enjoy a sustainable and aesthetically pleasing quality of life. If residents have any questions or concerns regarding zoning enforcement issues, please contact the department, and staff will gladly answer your questions and address your concerns.

In regard to the status of major projects undertaken in FY08 by Engineering and Planning, please refer to said divisions' respective reports, which are included elsewhere in this report. Some of the more prominent major projects cited in the Engineering and Planning Division reports include reconstruction of Derry Street between Highland Street and Ledge Road, Lowell Road sidewalk improvement project, traffic signal and road improvements at Library and Central Streets and the Ottarnic Pond Co-op sewer and water improvements.

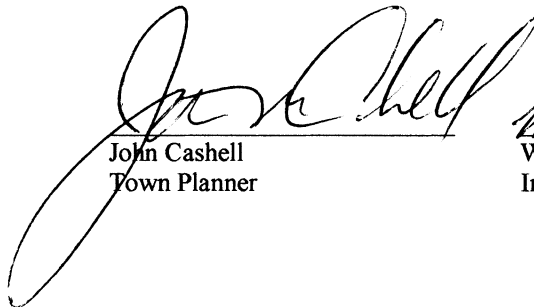

In regard to the status of the largest, single development proposal in Hudson's history--the 400 acre Green Meadows Golf Course site--during spring of 2008, officials for this site continued discussions of their development plans with town officials. However, with the downward trend in the economy, these talks slowed dramatically. It is now realized that a vibrant economy will be required to transform the existing site to one that has the potential to dramatically expand Hudson's commercial base.

FY08 was a productive year for the department and, with the support of the Town Administrator and Board of Selectmen, the land use process remained user-friendly and efficient.

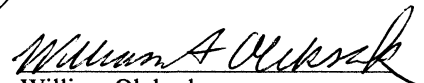

Respectfully submitted,

Mark Pearson

TOWN OF HUDSON

ENGINEERING DEPARTMENT

12 School Street • Hudson, New Hampshire 03051 603-886-6008 • Fax 603-594-1142

2008 ANNUAL REPORT

The Engineering Department manages two broad categories of activities. It provides technical support to the Town's governing bodies--the Planning Board, Sewer Utility Committee, Water Utility Committee, Conservation Commission, and the Zoning Board of Adjustment, and to review and inspect development projects.

The status of major projects and programs:

Industrial Discharge Program. As mandated by EPA, monitoring of all sanitary sewer discharge into the Town sewer distribution system continues, excluding residential waste. There are 57 entities in the program. Two new permits were issued and two facilities were closed in the past year.

Derry Road Reconstruction. A reconstruction project on Derry Road/Rte. 102 has been designed by the NHDOT, from Highland Street to McDonald's Restaurant. Construction began in the fall of '05, continued through the fall of '07, final paving was done in May of '08 and final inspection was done in June of '08.

Water Supply Wells/Environmental Monitoring. This program was established to determine a safe yield for the Hudson owned Dame/Ducharme and Weinstein wells (all located in Litchfield). This requires on-going monitoring and annual coordination with NHDES. Four readings were done in 2008.

Water Utility Capital Improvements. In 2002, a Water Distribution System Master Plan was completed, which contained a list of recommended improvements including upgrades to storage tanks, transmission mains and booster station renovations. At the 2005 Town Meeting, a warrant article was approved which funded three of the projects identified in the Master Plan. Additional improvements will be coming forward on future warrants.

Lowell Road Sidewalk. Engineering has taken over the administration of this project, an 80% federally funded sidewalk proposed to connect the existing sidewalk across from Winn Avenue to the Birch Street signals. In May 2008, the bid was awarded to Pichette Brothers Construction.

Burns Hill Road Landfill and West Road Landfill. Monitoring on both of these inactive landfills continue, in accordance with environmental requirements. Additional remediation is scheduled for the Burns Hill Road landfill.

The EPA Stormwater Program, known as NPDES-II, is a federally mandated program, coordinated by the Engineering Department. This is a comprehensive Best Management Practices program, which requires significant effort and annual documentation. We are in the fifth year of an aggressive 5-year implementation program. Once implemented, this program will be with us for the foreseeable future. We have the renewal permit for 2009.

The signalization project at the intersection of Library and Central Streets has been completed.

The Ottarnic Pond Co-Op sewer and water systems design project was a joint venture by the Town and the Co-Op. Over \$350,000 in CDBG federal grants were secured for this project. The bid went out May 2008, was awarded to DBU Construction Company of Epsom, NH, and was substantially complete by November 2008.

Summer Interns have completed three years of working with the Engineering and Highway Departments. They compiled all the outfalls in Town for the storm water program and updated the water system and drainage structures.

Street Acceptances. In 2008, the Board of Selectmen accepted Scenic Lane, Shoreline Drive and Hudson Hills Drive as Town streets.

The Engineering Department plays an integral role with site plan, subdivision, planning, and construction activities which includes, but is not limited to, plan review, inspections during construction, coordination of off-site capital improvements, administration of driveway, sewer and water permits and street acceptances.

The Engineering Department is currently managing approximately \$1,701,665.57 in performance surety and letters of credit relating to residential and commercial developments.

Action was taken on 27 driveway permits, 53 water permits and 23 sewer permits.

This has been a year of transition, with the departure of Town Engineer Tom Sommers, who has been a great asset to the town. Working with Town Administrator Steve Malizia, and with the help of Engineering Administrative Aide Betty Holt, all of the engineering projects and activities have been, and are, moving forward.

Respectfully submitted,

Gary L. Webster
Acting Town Engineer

TOWN OF HUDSON

ENGINEERING DEPARTMENT

ANNUAL TOWN REPORT

STORMWATER MANAGEMENT

12 School Street • Hudson, New Hampshire 03051 603-886-6008 • Fax 603-594-1142

The Stormwater Management Committee met twice during 2008. Committee members are Acting Town Engineer Gary Webster, Town Planner John Cashell, Road Agent Kevin Burns and Highway Supervisor Jess Forrence.

Weekly inspections have been conducted of all active construction sites in Town. If deficiencies were found regarding stormwater management controls, prompt action by the Engineering Department staff was taken to remedy the situation. The Engineering Department has made a strong effort to provide and require compliance with NPDES phase II, as mandated by the EPA.

The Stormwater Management Committee hired a consultant in 2006 to provide awareness and outreach to Fire Department personnel and to the Highway Department.

The Committee also provides a set of Stormwater Management guidelines which are distributed with every building permit and read as follows:

STORM WATER MANAGEMENT GUIDELINES

Most states are authorized to implement the NPDES program and thus have their own requirements. In New Hampshire, the NPDES requirements apply. Three basic steps comprise the construction general permitting process:

1. Create a storm water pollution prevention plan, or SWPPP. This document describes how you intend to prevent runoff during construction. Generally, a SWPPP is prepared by an engineer or landscape architect familiar with storm water management. While the permit does not require EPA or state approval of the SWPPP, it does expect that you keep the plan up to date and on site.

The ease of developing a SWPPP depends on the permitting you've already done. If you've applied for a wetlands protection permit, you have already collected much of the information needed for the SWPPP. The EPA publishes best practices for storm water management. Use these guidelines as an outline for your SWPPP.

2. File a Notice of Intent (NOI) with NHDES. This one-page form provides project information and declares that you have completed a SWPPP and have storm water management measures in place. Many state agencies offer on-line filing of the NOI, as does the EPA.
3. File a Notice of Termination (NOT). This form indicates that runoff is no longer an issue at the site and the permit can be terminated. You can submit an (NOT) when disturbed soils are stabilized, temporary control measures have been removed, storm water discharges have been eliminated, or you're no longer the site operator.

Fulfilling the Permit

Once you've applied for the permit, there are several actions you'll need to take to comply with its requirements. First, determine when you can begin construction. You can begin after you receive written approval within 7 days of your application.

Next, keep a "living" SWPPP on the construction site at all times. As conditions or procedures that affect storm water change, update your SWPPP, documenting all changes. Also include any related documents, such as your signed (NOI).

You must also conduct regular inspections of the site to be sure your SWPPP is being effectively applied. The EPA recommends performing these inspections once every 7 days or once every 14 days and within 24 hours of storm events. Keep an inspection record with your SWPPP to prove they've been completed.

Compliance with the Permit

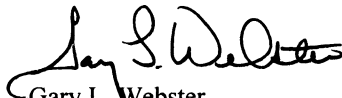

The EPA has increased its enforcement of storm water management over the past two years as part of a national enforcement initiative. The Town of Hudson will strictly enforce storm water management requirements and strongly encourages compliance.

In the summer of 2006, the Town hired two College interns who mapped 1045 drainage outfalls in the Town of Hudson. This information is required by EPA. In 2008 our interns started mapping the drainage system in town with Public Works; they found another 52 outfalls totaling 1097 drainage outfalls.

The Town of Hudson adopted new stormwater regulations in 2007 in accordance with the EPA stormwater program requirements. These are now part of the Town of Hudson, NH Development Regulations.

Obtaining this permit requires extra planning steps, so be sure to take them into account as you set a project budget. While the whole process might seem like a lot of extra work, there are several resources to help you. Visit the EPA's web site at www.epa.gov/npdes/ for links to dozens of helpful materials, or call the Hudson Engineering Department at 603-886-6008.

The Town thanks CLD for their assistance they gave to us with the Stormwater Report.
Respectfully Submitted,

Gary L. Webster
Acting Town Engineer

TOWN OF HUDSON CONSERVATION COMMISSION

12 School Street

Hudson, New Hampshire 03051

603/886-6005

Hudson Conservation Commission 2008 Annual Report

The Hudson Conservation Commission reviewed 10 Wetland Special Exception cases during the year. Each of the cases resulted in one or more site walks. This workload of less than one case per month on average is low, compared to previous years. The economy and slowing of home sales and building permits were among the drivers of fewer cases.

The Commission also worked on three violations during the fiscal year. Two of those have been closed and one continued, as of year end. The Commission continued the review of previous cases to see if the terms of the exceptions were met. That exercise is now complete.

The Open Space Committee continues its work on cataloging open space in Hudson and developing recommendations for preservation of open space. They are, as of year end, ready to start documenting and reporting the work that has been ongoing by these volunteers for a couple of years.

We spent time on reviewing and walking several properties for potential action to preserve the land as open space. Another effort expended by the Commission was supporting efforts to protect both Ottarnic Pond and Robinson Pond. Both ponds have significant problems with invasive species of plants, and the problem is critical at Ottarnic. We also had one joint meeting with the Planning Board.

Our biggest task this past fiscal year was a Prime Wetlands Study, for which we contracted with VHB. The study started during the fiscal year and is ongoing, as of year end with the final report expected in the spring of 2009. The study will look in significant detail at the larger wetlands and wetland systems in town. The study will give us an inventory of the town's significant wetland resources and allow us to decide relative values of these wetlands, based on several characteristics.

The Conservation Commission does not have a full slate of volunteers. Our members include Jim Battis, Michelle Champion, Ken Dickinson, Bob Haefner, Linda Kipnes, Sandra Rumbaugh and Suellen Quinlan and alternates, Ed Mercer and Tim Quinn. We encourage Hudson residents that care about the town to volunteer and serve on the Commission or any of several other committees that are looking for volunteers.

Respectfully submitted,
Bob Haefner, Chairman

Lower Merrimack River Local Advisory Committee 2008 Annual Report

The Lower Merrimack River Local Advisory Committee (LMRLAC) is comprised of representatives from the business, recreation, and conservation community, as well as local government. The Committee serves as stewards and watchdogs over any activities in the Lower Merrimack River Corridor. LMRLAC activities vary from reviewing and commenting on Department of Environmental Services (DES) environmental permits and local site plans for development, to assisting with trail projects and commenting on conservation activities within the Corridor. Communities in the Lower Merrimack River Corridor include Nashua, Hudson, Litchfield and Merrimack.

This year, along with other NH Local Advisory Committees, LMRLAC was honored with the President's Volunteer Award in April, and the Spirit of NH Volunteer Service Award in the State and Local Government category in November for its efforts to advise the NH DES and communities on actions and issues to protect and manage the Lower Merrimack River.

In 2008, site visits were performed and comments submitted on 11 projects occurring in Hudson, Nashua and Merrimack. Presentations were provided to LMRLAC on the status of the Nashua CSO sewer project and residential development on the river in Hudson that included trail easements. Letters of support were submitted for a city of Nashua's landscaping project at Rotary Commons Park, adjacent to Salmon Brook, and for a NRPC proposal to develop a LID Guidebook. LMRLAC submitted comments to Boot Hydro, operator of the dam in Lowell, regarding scheduled draw-downs and the impact to boaters.

LMRLAC was especially enthused about the completion of the Lower Merrimack River Corridor Management Plan. LMRLAC gave slideshow presentations on the Corridor Plan to the Planning Boards and Conservation Commissions in Hudson, Nashua, Litchfield and Merrimack. Copies of the Plan were provided to each of these groups and feedback was requested. The plan is available on the LMRLAC web page, hosted by NRPC.

LMRLAC members attended the DES Watershed Conference in November, a presentation held at NRPC on updates to the CSPA and a presentation by Aries Engineering on a hydrologic study proposed for Thorough's Landing in Nashua. LMRLAC was updated on the status of the river cleanup at the Beazer site in Nashua and requested DES keep them informed of all future actions.

LMRLAC members invite interested parties to join them at their monthly meetings held in Nashua on the fourth Thursday of the month.

Respectfully submitted,
Kathryn Nelson, Vice Chair

HUDSON EMERGENCY MANAGEMENT DIVISION
2008 ANNUAL REPORT
To the Town of Hudson
Submitted by
Fire Chief Shawn Murray

The Emergency Management Division consists of representatives from all departments within the Town that are tasked with duties and responsibilities during a disaster situation.

On December 11th and 12th 2008, the Town of Hudson, New Hampshire experienced one of the worst weather related disasters in the Town's history. While local weather forecasts predicted icy precipitation on Thursday night, what was not predicted was the amount (more than 2 inches of liquid precipitation). The geographical size of the area receiving the precipitation and the endurance of the freezing rain was underestimated.

As freezing rain quickly coated the Southern half of the state, branches and electrical equipment faltered under the weight of the ice, causing unprecedented power outages in a very short period of time. The Town of Hudson has been identified as one of the hardest hit Cities and Towns in this southern tier of New Hampshire. While the less-populated northern region of New Hampshire received sleet or snow, the densely populated Southern tier experienced several hours of persistent, heavy freezing rain. This is markedly different than the ice storm of January 1998, wherein much lighter precipitation persisted over several days, causing the most damage at higher elevations in the Northern and Central Regions of New Hampshire. Complicating this ice storm was the additional storms that resulted a few days after the ice storm.

This ice storm caused more power outages than any other storm in NH history. Storm damage was three times as bad as anything PSNH has ever faced in 82 years of service. More than 322,000 PSNH customers were without power when outages peaked on Friday evening. It is estimated that at a minimum, 7,314 Hudson residents lost power during this ice storm. On Monday, December 22, 2008, I was notified by PSNH that all of PSNHs Hudson customers had power restored. By way of comparison, the January 1998 ice storm left 55,000 PSNH customers without power at its peak. The worst storm in PSNH history prior to the December 2008 ice storm – Snowstorm Bernice in 1996 – left a total of 93,000 PSNH customers without power at its peak.

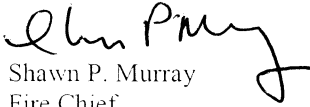

The first wire down call was received at approximately 18:01 hrs on Thursday, December 11, 2008. Over the next 12 day period the fire department responded to 378 calls for service. This included all fire and EMS requests for service. Of those calls for service, 165 were for arching wires/wires down.

During the December 2008 Ice Storm many elements of the Emergency Operations Plan were put to a full test. The December 2008 Ice Storm power outages far surpassed any previous power outage numbers seen in State history. The most significant and successful element of the plan was that of the response of our personnel and staff who worked tirelessly throughout the twelve (12) days toward recovery and power restoration to the citizens of Hudson. I am proud to be part of the public safety and service network for the Town of Hudson. To the employees who worked countless hours while knowing their own families and relatives were without power, my deep and sincere gratitude. I am confident that the all hazards approach to emergency management planning is effective and does work during disaster situations such as this ice storm.

A detailed December 2008 Ice Storm After Action Report is available by contacting Chief Murray or checking the Town of Hudson Website. During the next year we will continue to update and revise our current Emergency Management Plan. This will include incorporating the improvements recommended in the Ice Storm After Action Report.

I would like to thank Chairman Nadeau, Deputy Emergency Management Director Gendron, the Town Administrator, all Town Departments, and the members of the Emergency Management Staff and the many Town employees that have taken part in the training and events of this past year.

Respectfully Submitted,

Shawn P. Murray
Fire Chief

Local Emergency Planning Committee 2008 Annual Report

It is with great pleasure that I provide the citizens with the annual report of Hudson's Local Emergency Planning Committee (LEPC).

The LEPC, a division of the Fire Department, is comprised on several representatives of local government, industry and town residents, and is tasked with several areas of responsibility including establishing procedures for handling public requests for information, maintaining and developing the local emergency response plan, coordinating the annual reporting of the hazardous chemical inventory and keeping the public informed of its activities.

One of LEPC's primary responsibilities is to maintain the hazardous chemical inventory. Hudson has a well-established data management practice and continues to make great strides in the efficiency of maintaining this document.

With the integration of the new dispatching software at the Fire Department, we will be moving forward with the development of an electronic database for maintaining the hazardous chemical inventory. This will lead to a much more accurate and efficient management of this inventory.

LEPC is also responsible for establishing and maintaining the town's local emergency response plan. Hudson currently has a plan on file with the State of New Hampshire and continues to keep it current. This plan has been exercised and used for training throughout the year, keeping emergency response personnel current.

Should you have any questions, please feel free to contact the Hudson Fire Department at 886-6021.

Respectfully submitted,
Robert M. Buxton
Deputy Fire Chief

TOWN OF HUDSON FINANCE DEPARTMENT

12 School Street • Hudson, New Hampshire 03051 • Tel: 603-886-6000 • Fax: 603-881-3944

The Town of Hudson Finance Department's areas of responsibility are: Accounts Payable, Accounts Receivable, Payroll, Purchasing, Water Utility, Human Services, Budgeting and Financial Reporting. The primary function of this department is managing the Town's finances. We provide financial services, information and training to elected officials, fellow employees and the citizens of Hudson. I am pleased to report that Fiscal Year 2008 ended in good financial condition with healthy fund balances. The elected officials and Town staff continue to take steps to ensure that the Town will be able to maintain the current level of services that are essential to the citizens of Hudson while maintaining a prudent management of operations. For an accurate and complete accounting of the Town's finances, please see the Audit section of this report for Fiscal Year 2008 year end results.

The employees that support the Finance department are a dedicated team that works to serve the Board of Selectmen, Town employees and the citizens of Hudson. Lisa Labrie has been the Town Accountant for over 5 years. Lisa has the responsibility for maintaining the Town's ledgers, which provide a detailed accounting of all revenues and expenditures incurred by the Town. Lisa also maintains the accounting ledgers for the Sewer Utility, Water Utility and all other Special Revenue funds. Lisa is responsible for the payroll reporting for the town. Lisa is meticulous in her work and takes pride in meeting and many times beating her deadlines. Joyce Pike is the Senior Accounting Clerk who has been with the Town for over 13 years. Joyce is responsible for the processing of weekly payroll and processing the Town's Accounts Payable. Joyce is a valuable resource to the employees through her knowledge as a long term employee. Kathleen Wilson is our Human Services Specialist and has worked for the Town for over 12 years. Kathy handles the department's administrative tasks, processing cash receipts, and administering personnel benefits. Kathy also has the responsibility of the Town Welfare program and is the right person for the job. She is able to help those in need through process management and compassion. The Finance department is a great resource for employees, elected officials, boards, committees and residents.

The Town of Hudson's Water Utility billing and customer service functions are handled by Jennifer Riel and Ann Inamorati. Jennifer is the full-time Water Utility Clerk who has worked for the Town approximately two years. Jen has tackled updating policies and procedures and devoting a significant amount of time in collections. Ann has recently been hired as the part-time Water Utility Clerk. Ann is responsible for cash management and customer service. Jen and Ann are a great team and have made significant progress in reducing customer response time and work aggressively on improving our collection rate. The Water Utility bills approximately 6,000 customers per month. The Water Utility continues to grow since the Town took over the Utility in April 1998.

The Finance department plans to continue its goal of identifying areas to control costs and improve efficiencies. Another goal is to continue to document policies and procedures and strengthen internal controls. I will continue to work with the Budget Committee to strengthen the budgeting process for the Town. I also plan to further build my working relationship with the Trustees of the Trust Funds by assisting to automate and standardize reporting.

I would like to thank the Board of Selectmen for their continued support. I would also like to thank Steve Malizia, Town Administrator for his guidance and collaboration. I am grateful to the dedicated employees of the Finance department who have committed themselves to giving 110%. I appreciate the opportunity to serve my community.

Respectfully submitted,

Kathryn Carpentier
Finance Director

HUDSON FIRE DEPARTMENT
ANNUAL REPORT
To the Town of Hudson
Submitted by
Fire Chief Shawn P. Murray

Shawn P. Murray
Chief of Department

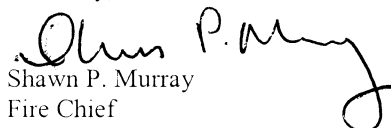

The Hudson Fire Department is pleased to present to you, the Citizens of Hudson, this Annual Report on your Fire Department's activities and progress for Fiscal Year 09. As in the past, our annual report places before you the future needs of the department in order to continue on with our goal to protect each of you and to make Hudson a safe place to live and work.

The mission of the Hudson Fire Department is to preserve life, property and the environment from man made and natural disasters while providing emergency medical services, fire and rescue operations, communications, public education and fire prevention programs. This mission statement reflects both of our emergency and non-emergency values that we commit to provide for you, the Citizens of Hudson, in order for you to have a safe community to work and live in.

The Hudson Fire Department has once again experienced a busy year responding to the requests of our citizens. This past year we experienced a declining economy, rising fuel costs, and once again an increase in the number of calls for service. Unfortunately, fire and medical emergencies are not reduced by a challenged economy. In fact we see increases due to citizens seeking alternative methods to heat their homes, increases in domestic violence, and an increase in stress related medical emergencies. Our most challenging response this year was the most recent Ice Storm in December of 2008. For over 11 days we were challenged by snow and ice which resulted in over 7,000 Hudson residents left without power. Through the professionalism and dedication of our town employees we were able to respond to the hundreds of calls for service in order to meet the demands of this historic weather disaster. The Town will be able to recover approximately 75% of our costs through the federal disaster declaration.

On behalf of the members of the Hudson Fire Department, I thank each of you for your continued support and recognition of our work as we move forward to serve you. I thank the Board of Selectmen, the Town Administrator, the various Town Departments, Committees and Boards for their direction, support and understanding of our needs and of our mission to the Town of Hudson. As I complete my fifth year as your Fire Chief, I am proud to have the opportunity to serve you within this highly professional organization of dedicated people.

Sincerely,

Shawn P. Murray
Fire Chief

FIRE ADMINISTRATION

The Fire Administration has completed a number of projects and initiatives during this past year. These projects allow us to streamline our operations and to provide better service to the public.

Once again the Hudson Fire Department was the recipient of the FEMA Assistance to Firefighters Grant Program in the amount of \$69,174 for the replacement of critical protective clothing for our Firefighters. This is the second FEMA grant we have been able to obtain. In 2004 we received a grant for the installation of diesel exhaust removal systems in all three stations and the installation of generators at the Robinson Road and Burns Hill Fire Station. Utilizing operating budget funds and the Assistance to Firefighters Grant we are able to provide all of our Firefighters with new and safer protective clothing. This protective clothing is the link that allows Firefighters to enter the smoke and heat filled environment of a structure fire to search for victims and extinguish the fire. It also provides protection to them while working at hazardous material incidents, technical rescue incidents, and motor vehicle accidents. Protective clothing has a working life of about 10 years. After that time the various protective materials begin to degrade and lose their protective qualities.

Another successful project that was completed this year included the upgrade of the radio equipment for the fire department dispatch center. Through a grant from the State of NH Homeland Security Fund we were able to secure and organize the radio equipment that provides critical radio communications and alerting for emergencies. New radio racks and wiring were installed which allowed us to move the equipment out of a closet and into a larger area thus providing better ventilation, secure power, and easier access to radio equipment for repair and maintenance. In addition to this, we were also able to install a radio antenna and voting receiver on top of the Town's new water tank in the south end of town. This installation alone has enhanced our radio capabilities. All of these upgrades are part of our long term radio project of switching from analog to digital.

SUPPORT SERVICES - FIRE PREVENTION

The Support Services - Fire Prevention Division experienced a dramatic decrease in building plan reviews and projects but have remained busy with activities in both public fire prevention education and fire inspections. Fire Prevention Officer Steve Dube and Fire Inspector Joe Triolo, under the direction of Deputy Chief Robert Buxton, continue to conduct residential and business inspections, annual public safety inspections, and plan reviews of new construction projects. The Division is currently working on a medical office project off Robinson Road, Walgreens construction, and the new library. There are currently two residential developments making their way through the planning process. In addition to these projects, they also conduct public assembly inspections, new residential inspections, public fire safety inspections and school fire prevention education activities.

Fire prevention inspections and educational programs have a direct impact in reducing the number of people killed or injured by fire. The Fire Prevention Division is available to assist any resident or business owner in answering or addressing fire safety questions or problems. The division can provide advice on where to place smoke detectors within your home or business or assist you with creating a home fire escape plan. We can also answer questions on proper home heating installation and other fire safety topics. Fire Inspector Joe Triolo continues to research the benefits of home fire sprinkler systems in residential buildings and we hope to begin introducing this lifesaving fire prevention system to the public over the next year. For information on this program or any fire prevention related information please don't hesitate to call us, it may save a life!

EMERGENCY MEDICAL SERVICES

The Fire Department continues to experience an increase in calls for medical assistance.

Our ability to provide advanced life saving medication and treatment at the scene or enroute to the hospital gives you, the citizen, quicker access to treatment of your medical emergency. Quicker access to medical intervention reduces the recovery time and mortality rates of victims of accidents or illness. Our EMTs and Paramedics, with advanced treatment skills, provide this care every day.

This year EMS Coordinator Michelle Rudolph coordinated the purchase and installation of automatic defibrillators throughout the Hudson School District. In addition, staff from the schools were instructed in the use of the devices as well as obtaining refresher CPR training. I would like to thank the Hudson School Board and Superintendent of Schools Randy Bell for their support of this lifesaving program. While cardiac arrest is rare in young children and adolescents, having automatic defibrillators in the schools provides security for your children and to the hundreds of individuals who use our school facilities throughout the year. Without the support and dedication from EMS Coordinator Rudolph and assistance from Kathy McLaughlin in the SAU office, this lifesaving project would not have been completed. Thank you to both of you for your hard work!

The Fire Department is requesting through a warrant article the replacement of the 2000 Ford Ambulance. Utilizing the Capital Reserve Ambulance Replacement Fund, which was established by the voters in the 90's, we are able to fund the replacement of our ambulances after they have been in service for nine years. With three ambulances we are replacing one every three years. Our last replacement was in 2006. The Ambulance Replacement Capital Reserve Fund lessens the tax impact of purchasing emergency vehicles by appropriating money each year as compared to appropriating money all at once. The replacement of the ambulance this year will not result in any additional tax impact to this year's budget as there are sufficient funds within the Ambulance Capital Reserve Fund for the purchase of the replacement. This program assures that the Fire Department maintains a fleet of emergency ambulances that are reliable and in the highest state of emergency readiness. This year we are requesting \$155,000 for the replacement of the ambulance.

EMS FUTURE NEEDS:

The EMS Division will see continued increased activity in the areas of emergency medical requests for service. The number of requests for emergency medical services comes from the largest at risk group for illness and injury, the older adult population. The U.S. Census Bureau reports that the older (60+) population will grow rapidly in the coming years. By the year 2010, the growth rate of the older population will be three and half times as high as that of the total population. The growth of the 75 and over segment will be accelerating. This next year we will focus our public education initiatives on safety and health programs for the older adult population.

The Fire Department continues to offset the property tax cost of emergency medical services through the revenues collected from insurance companies, Medicare, and Medicaid programs. The revenues collected from ambulance services goes back into the general fund to offset taxes. The EMS Division is available to groups and organizations to speak and deliver programs that focus on the older adult population, CPR, and other health related topics. Please contact Lt. Michelle Rudolph to arrange these presentations.

The Citizens of Hudson are fortunate to have the highest levels of Advanced Life Support medical care available to them. The compassion and care provided by our Emergency Medical Technicians and Paramedics is the best in the State of New Hampshire. The continued support of the Board of Selectmen and you, the Citizens of Hudson, makes this possible.

SUPPRESSION

The Fire Suppression Division is the primary division within the organization that provides response to both fire and medical emergencies. Employees assigned to the Suppression Division are trained and skilled in areas such as fire fighting, varying skill levels of Advanced Life Support in EMS, rescue and Hazardous Materials Levels of certification, and skills in technical rescue areas such as below grade rescue, confined spaces, rescue from heights, and water rescue. All full-time employees are required to alternate between the fire and EMS sides of operations to maintain their skills in both areas. The Suppression Division is divided into two (2) groups of employees; full-time Career Firefighters and part-time Call Force Firefighters. The full-time employees are further broken down into four (4) shifts of eight (8) employees. We are also entering our second year of staffing the Robinson Road Fire Station: Tuesday through Friday 7:30 AM to 6 PM. The Call Force is broken down into companies that are assigned to Central Fire Station and the Robinson Road Fire Station.

The Department members continue to actively participate in a number of various community activities. Examples include: the annual bell ringing for the Salvation Army, Muscular Dystrophy Association (MDA) with the annual boot drive, Special Olympics Program, the glow necklace program at Halloween, Old Home Days, Red Cross Blood

Drives, and support of other voluntary civic organizations. I am proud and honored by the unselfish acts of kindness and assistance our Firefighters give back to the community.

I want to thank the Officers and Firefighter/EMT's of the Suppression Division for their continued professionalism, care, and compassion for those in need. Your service to the community is appreciated and honorable!

SUPPRESSION FUTURE NEEDS:

The staffing of the Robinson Road Fire Station during week day hours has resulted in a notable improvement in our ability to respond faster to calls in the north end of town, as well as having the ability to have additional manpower to respond to second and third calls. We are entering our second year of this staffing and are encouraged by the improvement in response times. In the coming year we will continue to evaluate this staffing pattern and bring forth recommendations for the future. Our goal would be to next staff the fire station seven days per week during daytime hours. In future years we would then evaluate the need to staff this station around the clock.

COMMUNICATIONS

The Department's Communication Division is the first division you come in contact with when calling the fire department. Our employees of this division receive specialized training in the area of communications and handling of all emergency calls for service received by the department. The space limitations continue to be a challenge in operating a critical communications center in today's emergency services arena. The forward progress towards building a modern central fire station will assist greatly in alleviating the current conditions. Since an initial study in 1989 of facility needs for the communications center, no significant modifications or improvements to this facility have been accomplished. In the future, the fire department will be faced with exorbitant costs to bring this facility up to standards for communication centers.

CALL FIREFIGHTER FORCE

The Call Force continues to be a valued support mechanism for the fire department. The department currently has nineteen (19) Call Firefighters on our roster. The ride-along training program that requires Call Firefighters to gain proficiency and experience by riding along with the on-duty crew has been successful in that Call Firefighters can maintain proficiency in their skills. This has enhanced the skills and knowledge of our Call Force and continues to build effective working relationships. Over this past year the department added six (6) new call Firefighters to our roster. After six (6) months of Firefighter I training, we were able to bring our Call Firefighters numbers up to our current total.

I would like to thank our members of the Call Force who continue to give of their valuable time. It is through their dedication and commitment that we can depend on them as a resource during larger emergencies and incidents. I appreciate their continued support of the ride-along program and meeting the stringent requirements of being a Call Firefighter.

FACILITIES AND MAINTENANCE

A fire station is an integral part of the community. It not only provides the shelter for personnel, fire apparatus, and equipment, it also identifies the character and values the community places in protecting its citizens. Our current fire stations are aging with the Lenny Smith Central Fire Station the oldest at over 56 years old. Today's modern fire equipment, 24 hour operations, and the increasing maintenance costs and repairs to our facilities require us to start addressing the repair and replacement of our fire department infrastructure. The Fire Department will expend over \$37,000 this fiscal year to repair the flat roof at Central Fire Station and to re-point and seal the exterior of the Robinson Road Fire Station. My goal as Fire Chief is to continue the forward progress we have made towards addressing our needs.

During this past fiscal year, the fire department continued the feasibility and study of building a new central fire station. In May of 2008, the Board of Selectmen appointed a Central Fire Station Building Committee. The Board of Selectmen charged the Building Committee to develop a proposed square footage for a new station to meet the Fire Department's needs; identify a parcel of land that will support not only the proposed building, but allow for any

future expansion that may be needed. Along with that, the parcel shall also support the needs of the facility for both access and utility purposes for gas, water and sewerage. Also, to develop any detailed costs associated with the parcel if not already town owned land, such things as environmental surveys, site surveys and site plans. In addition, the committee was to develop a Request for Proposals and costs for a building schematic design which would include things such as detailed site plans, building floor plans, roof design, detailed construction costs and soft costs for the building.

The Building Committee worked throughout the summer and looked at over 11 parcels of land in an attempt to find a suitable sized area for a fire station. The committee narrowed the 11 parcels down to 3 sites located on Derry Road. After considering all 3 sites, the Building Committee has determined two sites that may support a central fire station. The Building Committee unanimously agreed that due to the uncertainty of the current economic condition, it would be prudent to recommend to the Board of Selectmen that the acquisition of land should not be pursued during the FY2010 budget cycle.

The Building Committee has requested the Board of Selectmen to forward a Warrant Article in the amount of \$25,000 in order to conduct further study and assessment into the feasibility of two sites: 43 Baker Street and 105 Derry Street. Each site has unique topographical features that require further assessment in order to determine if these sites can accommodate a central fire station. Environmental considerations include the ability to develop entrances and exits and overall site preparation costs. The rationale for this request is that the 43 Baker Street property has topographical features and entrance/exit design challenges that the Building Committee could not determine if a fire station could effectively be accommodated on that site. Further study would answer those concerns and qualify or disqualify it as a viable site. Copies of the facility study, response study, and the final report of the Building Committee are available for any citizen who would like to review the documentation. These comprehensive documents detail our commitment to work towards a new central fire station step by step and with due diligence.

The Board of Selectmen have supported the Central Fire Station study, appointed a Building Committee, and have forwarded a warrant article seeking funds to further study potential building sites. The cost of additional study of the parcel compared to the overall cost of a multi-million dollar investment in building a fire station is a fiscally responsible step and prudent investment. While it is not feasible to ask for taxpayer funding for land acquisition this fiscal year due to current economic conditions, the ability to keep moving forward to study the properties will allow us to move forward during more favorable economic conditions. I ask your continued support on this important infrastructure project.

APPARATUS

The Fire Department took delivery of a new 2008 Pierce fire engine in May of 2008. The voters approved the purchase of this fire engine back in 2007. The cost for the engine was \$367,343.00. The engine replaced a 1992 fire engine that had reached its maximum service life. We have already noted a reduction in repair and maintenance costs associated with the replacement of this engine and a 1990 with a KME fire engine in 2006.

As part of a goal to extend the life of our fire apparatus, we had replaced the engine on the 1995 HME/Smeal ladder two years ago. In addition, this year we have replaced all warning lights with LED emergency lighting. By doing this, we have significantly lowered the voltage draws on the ladder battery and charging system.

APPARATUS FUTURE NEEDS:

The completed long-term Apparatus Replacement Plan will provide the Department and Town the means to evaluate the type and number of fire apparatus that it has in the Fire Department. The plan is updated annually as apparatus is replaced and budgeted funds are approved and allocated. We continue to evaluate the purchase and use of multi-function fire apparatus that would be beneficial to the Town and could result in a reduction of overall fire apparatus.

INFORMATION TECHNOLOGY

The Department continues to work with the Town's Information Technology staff in improving the current system. The IMC Dispatch Software we purchased two years ago has assisted us with the ability to have a more reliable

dispatch software system, track inventories and equipment, and provide more in-depth financial information to assist us with the budget planning process. We continue to build upon the efficiencies of this system.

INFORMATION TECHNOLOGY FUTURE NEEDS:

The Fire Department is currently working with the IT Department in identifying our future needs in technology. The ability to share information throughout the department is critical in meeting our service objectives. The IT Department is working on a long-term plan to meet our needs. During this past year, we have assisted the IT Department with the running of fiber optic cable from the Police/Highway complex all the way to Town Hall. The increase in speed related to the transfer of information has improved significantly. We are also assisting IT with running fiber optic up Derry Road to the new library and Alvirne High School. A cooperative partnership with the Library and School District has worked to make this possible. Significant improvements in the fire department IT infrastructure has occurred. While these improvements take time, in the long run, the Town will have an effective internet and communications systems. I would like to thank Lisa Nute and the IT Staff for their continued support of these projects.

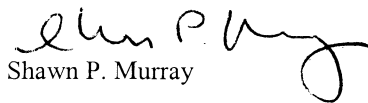

SUMMARY

The Fire Department has had a productive year in accomplishing our goals and objectives that we see as important to the services we provide to you and the community. Our work is only possible through your support of the fire department. We would like to thank you, the Citizen, for your kindness, compassion, and recognition of the work we do. Without your support, we could not accomplish our mission.

In closing, I would like to take this opportunity to also recognize Police Chief Richard Gendron who will officially retire on January 31, 2009. Chief Gendron has been a mentor, peer, and most importantly, a true leader to me. His commitment to the Town of Hudson and his commitment to working closely with the Fire Department will be a lasting legacy and a constant reminder to all of us of his compassion and dedication to serving the Hudson community. While I have worked with many public safety leaders in my career, I am most fortunate to have worked with Chief Gendron over the past eight (8) years. On behalf of the members of the Hudson Fire Department, I wish you the best in all your future endeavors and thank you for your unwavering dedication to protecting the public, your professionalism, your leadership, and personal friendship. We also keep those currently serving in the military and in past wars in our thoughts and remember those who made the ultimate sacrifice.

On behalf of all the members of the Hudson Fire Department, I would like to thank the Board of Selectmen, Town Administrator, Fire Department Liaison Ben Nadeau, all Town Departments, the families and friends of our employees and the citizens and businesses of Hudson for their continued support in making this past year a safe and successful one for all of us.

Respectfully Submitted,

Shawn P. Murray

Fire Chief

Hudson Fire Department Year in Review

Welcome New Members:

Dispatcher Amanda Boucher

Dispatcher David Morton

Firefighter/Paramedic Benjamin Crane

Call FF Donald Williams, Call FF Anthony Smith and FF Daniel Skafas.

Call FF Brian Surrette, Stephan Jarry, Peter O'Sullivan and Christopher Scurini.

Call FF Corey Morin

Events/Recognition:

June 10, 2008 Department Members and Town Boards ceremoniously welcome the new Pierce Truck into the Leonard A Smith Central Fire Station.

FF James Lappin- 2008 VFW Loyalty Award Recipient.

FF Dean Sulin – 2008 Hudson Grange Firefighter of the Year.

Dispatcher Gayle Robertson receives the Chief's Award.

Firefighter Michael Armand receives the Chief's Award.

Firefighter Neil Pike - 20 years of service to the Town.

Report of Forest Fire Warden and State Forest Ranger

Your local Forest Fire Warden, Fire Department, and the State of New Hampshire Division of Forests & Lands work collaboratively to reduce the risk and frequency of wildland fires in New Hampshire. To help us assist you, please contact your local Forest Fire Warden or Fire Department to determine if a permit is required before doing **ANY** outside burning. Under State law (RSA 227-L:17) a fire permit is required for all outside burning unless the ground is completely covered with snow. The New Hampshire Department of Environmental Services also prohibits the open burning of household waste. Citizens are encouraged to contact the local fire department or DES at 1-800-498-6868 or www.des.state.nh.us for more information. Safe open burning requires diligence and responsibility. Help us to protect New Hampshire's forest resources. For more information please contact the Division of Forests & Lands at (603) 271-2214, or online at www.nhdfl.org.

Spring fire season lasted unusually long this past year, with very high fire danger stretching into the first week of June. Once again, the rains started to fall during the summer and the fire activity was fairly light for the remainder of the year. The acreage burned was less than that of 2007. The largest forest fire during the 2008 season burned approximately 54 acres on Rattlesnake Mountain in Rumney on White Mountain National Forest property. Another 39 acre fire occurred on Mount Major in Alton during the month of April. Our statewide system of 16 fire lookout towers is credited with keeping most fires small and saving several structures this season due to their quick and accurate spotting capabilities. Many homes in New Hampshire are located in the wildland urban interface, which is the area where homes and flammable wildland fuels intermix. Several of the fires during the 2008 season threatened structures, a constant reminder that forest fires burn more than just trees. Homeowners should take measures to prevent a wildland fire from spreading to their home. Precautions include keeping your roof and gutters clear of leaves and pine needles, and maintaining adequate green space around your home free of flammable materials. Additional information and homeowner recommendations are available at www.firewise.org. Please help Smokey Bear, your local fire department and the state's Forest Rangers by being fire wise and fire safe!

2008 FIRE STATISTICS

(All fires reported as of November 24, 2008)

(figures do not include fires under the jurisdiction of the White Mountain National Forest)

COUNTY STATISTICS		
County	Acres	# of Fires
Belknap	43	82
Carroll	6	40

ONLY YOU CAN PREVENT WILDLAND FIRE

HUDSON GREEN TEAM

Annual Report 2008

Background

At the election in March 2007, Hudson voters passed the NH Climate Change resolution, which called for the Selectmen to appoint “a voluntary energy committee to recommend local steps to save energy and reduce emissions”. In June of 2007, the sponsor of the warrant article, Linda Kipnes, requested that the Selectmen establish such a committee and appoint 5 members. Original members were Linda Kipnes, Jean Serino, and Margaret Femia. Gordon Osgood and Kevin Kuhns were appointed later in the year.

During 2008, two new members were appointed to the Green Team. Robert Frohman served as an active member throughout the year, but he chose not to re-apply for membership as he had other outside obligations. David Wilcox was appointed in December of 2008, and Linda Kipnes and Margaret Femia were reappointed as regular members.

The voluntary energy committee voted to be known as the Hudson Green Team. The Green Team meets on the 4th Monday of each month in the Community Development Room at Town Hall at 7:00PM.

Green Team Mission

The Green Team has two basic goals:

Goal #1: Investigate energy usage in the buildings and services of the Town of Hudson and recommend ways to save energy and money.

Goal #2: Inform citizens and businesses in Hudson of ways they can reduce emissions and save energy and money.

Results for 2008

Research and Education

In pursuit of the mission goals, the Green Team has accomplished the following:

- investigate possible composting of yard waste in the town landfill and ways for Hudson residents to compost their household waste
- continue the publishing of “Green Tips” in the Hudson Litchfield News to provide suggestions for Hudson residents about ways to save energy
- locate funding for continuing the publishing of “Green Tips” on a regular basis
- work with high school and college students to create a set of “Green Tips” to be shown on HCTV
- provide information in the form of flyers and pamphlets describing various ways to save energy and money at Green Team displays at Town Meeting, Town Election Day, and Harvest Fest
- start designing a website which will list the Green Team members and describe our goals, as well as provide information about ways to save energy and links to other websites with further information

Members of the Green Team have attended seminars and workshops, including several regional Energy Committee workshops sponsored by NRPC, a workshop on Focus on Energy sponsored by NRPC, and a day-long workshop on “Operations and Maintenance: Best Practices”, sponsored by PSNH.

EPA Community Energy Challenge

At the end of 2007, the Board of Selectmen signed the commitment letter to participate in the EPA Community Energy Challenge. This allows the Green Team to use the EPA's Portfolio Manager software to record energy usage information for each town building. Members of the Green Team visited the town buildings to research the information needed to write up the building descriptions. We have begun to input the data for electricity, gas, and oil usage over the past two years for each of the town buildings. This will help the Green Team and the town assess our past energy usage and quantify improvements.

Energy Audit and Lighting Retrofit by PSNH

The Green Team received permission from the Board of Selectmen late in 2007 to request PSNH to perform an energy audit of all town buildings. The Green Team requested that PSNH perform the audit and coordinated the performance of the audit by Mike Skinner of Atlantic Energy Solutions, on contract with PSNH. The Green Team received the energy audit report, reviewed it, and presented the findings to the Board of Selectmen.

Most of the recommendations are for replacement of fluorescent lights and some fixtures, replacement of some exit signs, and installation of some occupancy sensors to control lights in appropriate areas.

The results of the energy audit are summarized in the following table. For each of the town buildings, the table shows the total cost of the work recommended by PSNH; the rebate allowed by PSNH and the resulting cost after the rebate; the annual savings on electricity in the building; and the number of years to payback the cost of the work. PSNH allows municipal customers to pay the costs of the work by continuing to pay the current electric bill cost until the costs of the work are paid off. Thus no one-time payment is required, and no additional costs are incurred.

Building	Job Cost	Rebate	Final Cost	Elec Savings	Payback (yrs)
Highway Garage	\$17,404.65	\$8,702.36	\$8,702.29	\$2,490.79	3.5
Animal Control Bldg	\$1,295.07	\$647.54	\$647.53	\$1,482.06	0.4
Central Fire Station	\$8,314.35	\$4,157.43	\$4,156.92	\$1,774.23	2.3
Town Hall	\$11,520.52	\$5,760.42	\$5,760.10	\$1,559.44	3.7
Police Station	\$16,096.50	\$8,048.73	\$8,047.77	\$3,078.58	2.6
Community Center	\$5,590.06	\$2,795.08	\$2,794.98	\$654.02	4.3
Rec Building	\$1,485.57	\$742.82	\$742.75	\$276.68	2.7
Fire Station #3	\$2,778.08	\$1,389.12	\$1,388.96	\$566.99	2.4
Burns Hill Station #4	\$2,483.10	\$1,241.59	\$1,241.51	\$406.13	3.1
Fire Admin Building	\$901.20	\$450.62	\$450.58	\$234.77	1.9
Hills Library	\$5,062.91	\$2,531.52	\$2,531.39	\$779.40	3.2
Police Gym	\$2,693.41	\$1,346.71	\$1,346.70	\$766.91	1.8
Total	\$75,625.42	\$37,813.94	\$37,811.48	\$14,070.00	2.7

The Board of Selectmen voted to accept the recommendations of the Energy Audit report, and the Highway Department very graciously allowed Atlantic Energy Solutions to store materials at the Highway Garage as they were delivered. The work was accomplished in three stages, involving the town buildings in different areas of the town, and all the recommended work was completed in October.

Energy Audit, National Grid

The Green Team requested that National Grid perform an energy audit on the town buildings that are heated by gas. The audit was conducted on the following buildings: Recreation Department building, Town Hall, Central Fire Station, Fire Administration building, Police Department, Police Gym, and the Highway Garage. The results of the audit were presented to the Selectmen, but no action was approved or recommended. The audit results for each building were also made available to the appropriate Department Head responsible for the building. Recommendations included programmable thermostats, replacement windows, pipe insulation, and a new boiler. The audit report also contain information about the building's heating index, results of carbon monoxide and gas leak readings, the R-factor of the attic and wall insulation, and an assessment of the efficiency of the mechanical systems.

Ongoing Projects

The Green Team voted in December to provide several programmable thermostats in Town Hall. The energy efficiency of the building will be tracked via the EPA Portfolio Manager software, so we can see what difference the programmable thermostats provide. Our new member, David Wilcox, has expertise in evaluating the type of programmable thermostat is needed in the different areas of Town Hall, and we will ask him to recommend the appropriate equipment.

The Green Team also voted to purchase two "Kill A Watt" devices; these devices measure electrical usage of appliances or power strips, or anything else that plugs into an electrical outlet. It provides a display of cumulative kilowatt usage of the device that is plugged into it. It also monitors voltage, line frequency, and power factor. Green Team members will try out the devices, and then we will make them available for a designated length of time to all Hudson residents, possibly through the library.

We also have begun planning an energy workshop, which will be open to the public and also taped to be available on HCTV. We are planning to have several different speakers on different ways to save energy in your home, and how to use various weatherizing and energy saving products.

We are also always looking for new ways to save energy, and new ways to inform and educate people about how to save energy and money. Anyone is welcome to attend our meetings at any time.

Respectfully Submitted by

Linda Kipnes
Chairman

TOWN OF HUDSON

Highway Department

2 Constitution Drive Hudson, New Hampshire 03051 603/886-6018 Fax 603/594-1143

Fiscal year 2008 was another busy and productive year for the Highway Department. The project that received the most attention and controversy was the new Solid Waste and Recycling Program. Due to rapidly rising costs, the department recommended switching to a new automated collection system, using 64-gallon totters, and increasing the town's recycling efforts. During the start up of the program, 8,100 of the totters were delivered to every household being serviced with curbside collection.

The new program began on July 1, 2007 and I am very pleased to report the results of the first year. First, we were able to level-fund the cost of the solid waste program at \$1,690,000. This was down from prices we received to continue the previous program that were in excess of \$2,000,000 annually. Next, due the efforts of many of our residents, our recycling tonnage soared as our solid waste tonnage plummeted.

During this fiscal year, we disposed of 7,000 tons of trash, compared to 12,000 tons in 2006. We also recycled 2,800 tons of material, compared to only 500 tons in 2006. By the end of the year, Hudson recycled over 28% of what we disposed of. The financial impact on our Solid Waste Contract was significant. The final annual cost, due to our recycling efforts and reduced solid waste, was \$1,376,589. This was \$313,410 less than the \$1,690,000 originally budgeted.

The next largest and most visible project was the annual Town-Wide Paving Program. This year the program was the largest ever. The Town budgeted \$400,000 for paving, and the Board of Selectmen approved my recommendation to use \$300,000 of the surplus from the Solid Waste Program to rebuild and repave roadways in town. The combined \$700,000 paid to complete the following work:

- Bush Hill Road, Wason Road, Roosevelt Avenue, and a section of Robinson Road were reclaimed, reconstructed and repaved.
- Hunter Lane, Gregory Street, Colson Road, Constitution Drive, Lorraine Street, Wayne Street, Cape Drive and Gulf Street were repaved.
- Stevens Drive and Edgewood Road were reclaimed, rebuilt, repaved and had curbing installed.
- Burnham Road and a section of Ferry Street were cold planed and repaved.

The Highway Department also replaced the existing sewer mains and laterals on Edgar Court and Andrews Avenue. The entire drainage system was replaced on Library Street, in anticipation of reconstruction in July 2008.

The winter of 2007/2008 was a long, difficult one. It put a heavy strain on the men, equipment, budget and residents. The Highway Department plowed over 25 times and Hudson received one of the highest snowfall totals in recorded history. I was extremely proud of the efforts of all of our plow drivers who worked many long hours keeping our roadways safe and passable.

This year, the Highway Department replaced five of its one-ton four-wheel-drive pickup trucks. All of the new trucks have nine-foot plows and three have specialty bodies.

The annual Christmas display on the Town Common was again very popular. This year, all of the lighting was replaced with LED lights to reduce cost and high-energy demand.

The department also installed new backup generators in the Industrial Drive and Federal Street sewerage pumping stations. This allows the pumping stations to continue to operate when regular power is interrupted, thus preventing the town's sewage from backing up and causing environmental and health concerns.

This year, the Highway Department assisted in the construction of Sousa Field, a new girl's softball field constructed at Jette Field off of County Road. We also did all of the underground construction of the new field lighting at Greeley Park on Greeley Street.

The Highway Department also assisted the Hudson School District in the reconditioning of the two baseball/softball fields at Hudson Memorial School.

Many recurring annual jobs also kept the Highway Department busy. These tasks included brush and tree removal, pavement markings, street patching, crack sealing, landscaping of parks and cemeteries, lawn care, litter removal, grading travel roads, road shoulder maintenance, roadside mowing, equipment maintenance and sign installation and replacement.

In closing, I want to thank all members of the Highway Department for their hard work and dedication, for they accomplished much this year. I would like to thank the entire Board of Selectmen, Town Administrator Steve Malizia and all other department heads for their support and assistance throughout this past year.

Respectfully submitted,

Kevin Burns
Road Agent

Hills Memorial Library 2008 Annual Report

This has been an extraordinary year for the Town of Hudson Library system with the initiation of building a new Library facility made possible by a gift from Phillip and Alvin Rodgers for the construction of a new building.

In October 2007, former Co-Chair of the Building Committee, Elaine Brody received a phone call from Mr. Phil Rodgers offering to donate four million dollars to build a new library for the Town in memory of his parents, George H. and Ella M. Rodgers.

After thirty-five years of planning, struggle and failed attempts, library expansion was at last going to become a reality. Everyone was THRILLED! Congratulations poured in from townspeople and from libraries around the state. In the following months RFQs were reviewed, proposals submitted, architects were interviewed and Adams & Smith architects were hired; construction management firms were interviewed and North Branch Construction was hired; survey, site work was completed, Elaine Brody was selected to be Project Coordinator, Clerk-of-the-Works Bernie Manor was hired, and architectural design plans for the building phase were drawn. Other highlights related to the construction process include:

- The Rodgers gift was formally accepted by the Town on October 24, 2008
- Alvirne High School Forestry students began to clear the site in April 2008
- Ground breaking ceremony was held June 8, 2008; over 100 people attended the ceremony and following reception at Hills Garrison School
- Heavy construction equipment began to prepare and dig the foundation
- Policies for managing construction finances were developed and implemented
- Auxiliary funding strategies were developed
- New Rodgers Library interim website was initiated
- Brochures and stationery for the new Library were designed and printed
- Plans were considered for the use of the Hills Memorial Building when vacated
- Warrant article was submitted to cover the sale of the Library's Ferry St. houses

While dealing with the extraordinary responsibilities related to the Library expansion, the day-to-day operation of the current Library facility and services continued as follows:

Reference Department

Highlights:

1. Daughters of the American Revolution (DAR) presentation to HML
2. Circulation/Databases
3. Busy Tax Year
4. Weeding Project
5. Northeast Document Conservation Center (NDCC) Archival Grant

1. The Matthew Thornton Chapter of the DAR presented a book entitled *A Checklist of Some Historic Sites in New Hampshire* to the Library in December. The presentation was made by DAR members, Judy Ericksen (Chapter Regent) and Caroline Atkins (Chapter Librarian). The book was compiled and published by the NH State Organization DAR.

2. In an effort to conserve shelf space and provide our patrons with online information accessible from home, work, and school, we added *Access Newspaper Archive* to our online database offerings. The database covers back issues of the *Nashua Telegraph* and the *Lowell Sun*. Additionally, we subscribed to EBSCO's *Science Online*, *Automotive Reference Center* and we received a complementary database *Career Library*. We were also allowed free in-house access to *Morningstar Mutual Funds* online as part of our annual hardcopy subscription.

Department statistics were mixed. Circulation, faxes, museum passes, Interlibrary Loan, genealogy requests and notary service saw an increase in usage. Database users were slightly down (3%) but the number of database searches was up 89%. We held 37% fewer adult programs, but the programs had better attendance. Twenty-two "information literacy" computer classes were held. There were 30 attendees and 9 end user instructions. Internet use was slightly down, but because of lack of current resources many patrons who walk in do not wait for a computer station to become available. Circulation of non-fiction books was up 16%. This latter statistic is exciting because of the overall downward trend in libraries nationwide for non-fiction materials.

3. The Library is the only location in Hudson to carry IRS, state tax forms, and their publications. We were a very popular place during tax season and had to reorder supplies several times.

4. In preparation for the move to a new facility the department undertook a "deep" weeding project. Books were withdrawn in the Main Room and offered to local libraries and the remaining materials were given to "Second Hand Prose" book sale

5. A \$600 grant offered by the Northeast Document Conservation Center (NDCC) for evaluation of archival collections was awarded to the Hills Memorial Library. The staff filled out pre-survey documents and NDCC field representative Angelina Altobellis visited HML on March 14 to survey, review, and evaluate our historical materials. We later received a thorough report with recommendations and a plan for preserving and maintaining our historical/archival materials.

Children's Department

Highlights:

1. "Reading Road Trip USA" Summer Reading Program
2. Programming increases for children and adolescents
3. Cooperative efforts with Hudson Schools for distribution of their summer reading list
4. "Early Literacy System" replaced old games computer
5. Bench donated to children's department by AHS building & trades students
6. *Volunteens*
7. Eagle Scout candidate built performance stage to use for library programming
8. Growth of services

1. "Reading Road Trip USA" was the theme for this year's **Summer's Reading Program (SRP)**. Each week of the summer reading program included: game day, story time, Wednesday performances, craft day, craft club and "Pit Stop" prize day.

Special Performers for the summer program included Alex the Jester, magician Mr. Phil and Co., Peter Boie, magician; storyteller Simon Brooks, Diane Kordas and puppets; and singer/songwriter Steve Blunt. Average attendance for these programs held on Wednesday mornings was about 125. Due to the nature/content of the performance, Alex the Jester, Diane Kordas and Peter Boie's performances were held at the Hudson Rec Center.

Over 298 children signed up to track their SRP reading minutes. The children read 125,280 minutes this summer, for an average of seven hours per child.

Each Monday during the SRP, a group of about 18 youngsters from the Hudson summer recreation program walked over to #49 Ferry St. Annex to enjoy **Story Time** and a craft with Miss Amy and Miss Betsey.

2. The children's department offers regular programming for different age groups. *Lullaby Lapsit* is designed for infants-23 months of age. *Toddler Time* is for 2 year olds, and *Story Time* is for ages 3-5.

Due to parent requests this year, we added a Story Time for older children grades K-3. "**Book Bunch**" after-school program was very popular, with attendance hovering right around 14 kids each week.

We also added "**Don't Judge a Book by its Cover Gang**" for grades 4 and 5. This program focused on introducing older children to different genres of reading, including fiction, non-fiction and poetry.

An idea we researched and eventually implemented this year for our Story Time programs was the purchase of a roll-up room divider to help keep outside activity at bay and people from wandering in/out of programming space. We are now able to keep everyone's attention more focused during programs.

Saturday crafts formerly held on the first and third Saturdays of the month were so popular we decided to offer them every Saturday. Library Assistant Megan Ellis prepares a craft based on a nearby holiday or national "event" such as Father's Day or National Pig Day. Between 15 and 30 kids make or take a craft each Saturday.

Program Totals

Programs	# of Programs	Attendance
Lullaby Lapsit	32	406
Toddler Time	32	529
Story Time	66	1123
Book Bunch	20	227
Don't Judge a Book by its Cover Gang	25	72
Home school Story Times	27	166
Family Fun Night	10	86
Craft Day	37	592
Summer Reading Program	33	1362
Special Programs/Events	13	605
Totals:	295	5168

The children's department offers **special programs** throughout the year. The annual *Little Goblin's Parade* at the end of October brought 66 goblins, superheroes and princesses to parade through the SAU offices, the Town Hall, the Fire Station and Library departments. Thank you to the staff in these departments for being so kind and generous in offering our little goblins Halloween treats.

A Visit with Santa drew 120 people this year. In addition to chatting with jolly ole St. Nick, the children received a free Polaroid picture with Santa, and coloring pages featuring FOL "Business Members. They made a foam Christmas tree craft provided by Friends of the Library, and they enjoyed holiday cookies and milk while listening to carols sung by local Girl Scouts.

This November we promoted the NH State Library's "Center for the Book" *Ladybug* picture book awards by holding three "*Ladybug Book*" *Story Times*. About 30 people attended these story times to hear the books read, make crafts and vote for their favorite title.

In December holiday programming included: *Lullaby Holiday*, *Holiday Toddlers*, *Holiday Story Times*, *Celebrate the Season* and *Holiday Surprises*. Attendance for these programs was 141.

The programming theme for February *school vacation week* was "February Beach Break". 126 people attended various programs/activities featuring Story Times, crafts and activities for ages 3-12.

"Super Sleuth" April *school vacation week program* was a great success with an ongoing mystery of "Who bear-napped (the children's room mascot) Bob the bear?" Over the course of the week 123 people participated to help solve the mystery, using clues, programs, crafts and activities.

In April, the Children's Department and the Young Adult (YA) Librarian held the third annual **Poetry Contest** for youngsters from kindergarten through twelfth grade. There were 120 entries—mostly from Middle and High School students. Sixty kids and adults attended the Poetry Party where the young poets accepted prizes and read their winning entries. Refreshments were served.

Throughout the year, the Children's department staff participates in a variety of **outreach programs** to the community. Miss Betsey and Miss Kristen were invited to be "guest celebrity readers" for *Read Across America* at H.O. Smith and Library Street Schools. Miss Betsey and Miss Kristen were also invited to be the questioners for the annual *Battle of the Books* held this year at Library Street School.

Miss Betsey and Kristen Kangaroo visited the four elementary schools to promote the *2008 summer reading program* “G’Day for Reading.”

Miss Betsey visited Sesame World kindergarten during *L week* for stories and an introduction to the library.

3. The Children’s Room staff worked with Robin Cruz-Smith at Nottingham West Elementary School to make it possible for HML to host/distribute the books for the mandatory elementary summer reading lists. The supportive effort by our children’s staff proved to be a very successful endeavor.

4. An “Early Literacy System” was purchased to replace the old games computer. The system comes with 38 different learning software packages. The snazzy colorful system hardware and the variety of learning games and activities are appealing. It has been very popular with a wide variety of age ranges including older middle school children.

5. Growth/Plans:

- Circulation in the children’s room increased by 4.3%
- Program offerings increased 42.5%
- Program attendance increased by 19.8%

We are looking forward next year to holding the Summer Reading Program and other children’s programming in a larger new facility that can accommodate more people at each program.

6. The Library wishes to thank the AHS building trades department under the supervision of John Conrad for the wonderful wooden storage bench designed and built for the parenting section in the children’s department. Parents, children and staff love it!

7. Thank you to our great *Volunteers* who performed community service on a weekly basis throughout the year and during the SRP: Akshat and Meenal Goyal, Kilee Pennell, Erica Prince and Katie Paquette.

8. We would also like to thank Eagle Scout candidate Daniel Zaharchek and Boy Scout Troop 20 for designing, constructing and raising funds to build a performance stage at the 49 Ferry St. property for entertainment and guest lecture programming in an amphitheater style during the summer months. The stage was designed to facilitate its transfer to the grounds of our new facility.

Adult Services/YA Services/Circulation Department

Highlights:

1. Adult and Young Adult (YA) Summer Reading Programs (SRP)
2. Play Reading Circle/Book Discussion Groups
3. Third annual Poetry Contest
4. Weeding project
5. Media changes
6. Growth

1. An *Adult Summer Reading Program* was offered to HML patrons. Over the 10 week summer vacation, adults received a raffle ticket for each library book they read or listened to. The goal of the program was to increase library use by adults. We held weekly drawings for restaurant coupons and gift certificates that were donated by local businesses. Books were read by 279 adult readers participating in this program. Anecdotal evidence suggests that the raffle provided an attractive incentive to our patrons for their reading materials.

The *Young Adult Summer Reading Program* (YASRP) serves middle and high school students. The theme was “Read for Rewards.” There were special activities planned every Thursday night for six weeks. Programs included magic tricks, duct tape crafts, cake decorating, and theatre games and a DJ games party. We held a raffle where teens received tickets for pages read. There were drawings in July and August for prizes donated by local businesses. 75 Young Adults participated in our YASRP and 92 Young Adults attended our special activities and events.

In conjunction with the children's department, we offered a weekly *story and craft program* at the library annex for youngsters attending the Recreation Department's summer program.

All incoming freshmen at Alvirne are required to read *Of Mice and Men* over the summer. Sophomores are required to read *Ellen Foster* and all juniors read *The Things They Carried*. Librarian Amy Friedman applied for and received a grant from the Park Street Foundation. The **grants** were sponsored by Granite State Reads and Verizon. She received \$615 to hire an English teacher from Memorial Middle School to lead "guided reading groups" for anyone wanting help with understanding these required reading books. The grant also paid for the printing of bookmarks to place in each book distributed to the high school students advertising this program and the library's teen summer reading program. This program came about through consultation with 8th grade reading teachers at the middle school and the head of the English Dept. at the high school who had concerns that some of their students who were lower level readers would not be able to comprehend this book on their own. This is a really wonderful service we provide; we hope more students will be motivated to participate when we are in the new library next year.

2. **Play Reading Circle** meets monthly, usually on the third Tuesday at 6:30 p.m. Multiple copies of play scripts are borrowed through Inter-Library Loan and participants meet in the back room of AII and read aloud plays with each person assuming a character role. A very nice article featuring the play reading circle and Amy Friedman appeared in the *Encore* section of The Telegraph July 3.

A daytime **Book Discussion group** met at 1:30 p.m. on the third Tuesday of the month. An *Evening Book Discussion group* met the fourth Tuesday at 7 p.m. The number of attendees varied from month to month depending on the book chosen, weather, other intervening events, etc.

3. In conjunction with the Children's Department for the third year in a row, we sponsored a **Poetry Contest** for Hudson students to celebrate National Young People's Poetry Week in April. There were four age categories, Pre-school-Grade 2, Grades 3-5, Grades 6-8 and Grades 9-12. We worked with the schools, contacting teachers about the contest. Several made it a class project. The Friends of the Library donated funds to provide Barnes and Noble gift certificates to the 1st-3rd place winners in each age category. An awards ceremony was held at the Hudson Recreation Center. Sixty people attended the poetry reading and it was filmed and shown on the local cable television channel.

4. In preparation for the move to a new library in the spring of 2009, Librarian Amy Friedman offered her expertise to lead a **weeding project** for both fiction and non-fiction collections. The project which began in November 2007 is a large undertaking and will take about a year to complete.

5. Video cassette (VHS) and books on tape cassette formats decreased significantly in popularity favoring the newer technologies:

- VHS circulation decreased by 36% due to preference for DVD and digital formats
- Cassette circulation (books on tape) decreased 49% due to the decline of cassette players in cars etc.

As a result of newer technology replacing older formats, we do not plan to move these collections to the new library.

6. **Growth:**

We are pleased to report the following circulation statistics for the Annex II facility:

- 9 % increase in Adult fiction circulation despite nationwide downturn in pleasure reading
- 5% increase in Young Adult Fiction circulation.
- 24% increase in DVD circulation
- 20% increase in CD circulation
- 46% increase in downloadable audio books usage

Technical Services/IT Department/Archives

A significant amount of work takes place behind the scenes in the Technical Services department (Annex I trailer) in preparation for getting materials—books, DVDs, CDs, audio books, etc.—on the shelves for patrons to check out. The staff does their best to make sure patrons get new materials as quickly as possible. Additionally, TS

staff mends materials in need of repair; add/withdraw materials from our Online Public Access Catalog (OPAC) and from the NHSL OPAC. They also verify, authenticate, and re-catalog items as necessary to make sure each Machine Readable Catalog (MARC) record in the OPAC is complete, accurate, and up-to-date.

The online catalog and online databases make it possible to offer 24/7 library service. With a personal identification number (PIN), patrons can access the card catalog from home, office or school; place holds; and renew items. Patrons can also research subjects using our magazine and newspaper databases with certainty that their search will be quick, and that the information they seek is reliable and factual.

The monthly HML newsletter is prepared for distribution using Publisher software by Librarian Jerry Rice. Beginning in March, Technology Librarian Kate Butler prepared/distributed an electronic version of the newsletter to patrons who selected to receive it via that format.

Assistant Children's Librarian Kristin Paradise generously agreed to assume the responsibility of creating the PowerPoint slides and posting HML programs/events on the HCTV channel e-bulletin board.

We began purchasing/changing over to a new type of plastic DVD case (with removable hubs) which will provide some security to this format for browsing by the public when we move to the new library. We own quite a few movies on DVDs so it is a big project for the TS staff to complete before the move.

IT Highlights:

- Entry in *Wikipedia* for Hills Memorial Library
- Weekly videotaping and photographing construction progress of George H. and Ella M. Rodgers Memorial Library (RML) and posting on interim website
- Technology Plan revised and updated
- Certificates of appreciation designed and awarded to AHS Forestry students
- Booklets and bookmarks designed for RML Information and for gifting opportunities
- Designed booklet re proposal for "Usage of HML building"
- New "Events Calendar" purchased for website to replace old, cumbersome, difficult to use TLC version
- "Archivists Toolkit" open source software which inventories archival materials and finding aids downloaded for Ann Carle to use in creating (archive dept.) web pages for new library
- New drivers installed on receipt printers at circulation stations improve printing speed
- Library subscription databases reorganized and login procedure simplified to use library card # and patron ID
- Library publicity brochures revised and new patron packets created
- ILL freeware program from Steve Butzel, Asst. Director Portsmouth PL, downloaded and adapted for HML to streamline ILL procedures
- Fairpoint Communication installed FiOS at HML; Technology manager Brian Hewey completed the installation and setup of FiOS connection internally
- HML given full responsibility (per the HCTV committee) for putting HML programs and misc. information on the HCTV e-bulletin board
- Joomla and Drupal software downloaded to a test server to determine which of the two open software content management programs to adopt for future RML website design
- RFID technology and book security system researched for possible use at new library
- Professional graphics designer Neil Leach submitted various logos for consideration to use on computer stations at new library
- Technology Manager/staff consulted with architect Richard Smith, and the Town IT department re various technology and communication issues for the new library

Archives Highlights:

- Survey of HML archival materials by Northeast Document Conservation Center (via a grant) March 14
- Cataloging and archiving of RFPs, RFQs and other original source materials, photographs, video recordings, etc. for the George H. and Ella M. Rodgers Memorial Library began

- We began implementing suggestions per Report of the *Preservation Survey* written by Angelina Altobellis

Facilities

Major work:

- Melanson repaired intermittent roof leak and replaced broken roof tiles
- P.M McKay completed work replacing the back door (handicapped entrance) and resealing/painting the front porch
- Protection One completed the initial work of replacing the fire alarm panel and smoke detectors, however, the remaining work which includes the smoke beam in the Main room and outside enunciator panel will be completed in early July
- Deadwood trimmed from the historic elm tree on library grounds
- Energy audit performed on the Main building

Friends of the Library (FOL)

The Friends of the Library group is a non-profit 501C (3) charitable organization dedicated to promoting enrichment, support and advocacy to the library community. The FOL held a variety of fundraising activities during the year: business memberships, 12 “Second Hand Prose” book sales held on the second Sunday of each month. (Additional Saturday openings are being planned for the future). Sun-catchers, tote bags, and “Read the Trees” t-shirts (designed by local artist Pete Duquette) were sold at various town events—Harvest Fest, GFWC Jr. Women’s Club Craft Fair, Kiwanis Club Indoor Craft Sale, Library Lawn Sale; in cooperation with the Building Committee “Buy-a-Brick” fundraiser for the new Library.

Every year the FOL decorates the Library for Christmas and they co-sponsor the children’s department program *Visit & Picture with Santa*. They provide prizes for the Summer Reading Program, prizes for the Poetry Contest and they award the *Leonard A. Smith Scholarship* to a graduating High School Senior. Two \$500 LAS scholarships were awarded this year at Alvirne Scholarship Night. The recipients were: Bethany Jones and Briana Terrill.

The FOL whenever possible advocate for the library and this year in addition to their regular publicity endeavors, sent a letter to the editor and placed an advertisement in the HLN (April 11 issue) in recognition of National Library Week.

In addition to all these good works, the FOL made time to recognize the HML staff during “National Library Week” with gift certificates and special crafted greeting cards. Celebrating a milestone anniversary were Bob Gagnon (30 years), Christine Sweeney and Gerry Rice (10 years), Megan Ellis and Rosemary Petaja (5 years) who received special recognition gifts. FOL also co-sponsored the HML 99th birthday celebration at the Hills Garrison School.

If any of these events or activities interest you, please call Chairwoman, Jane Bowles, pick up a brochure at the library, or access FOL information via the Library website: <http://www.hillsmllib.nh.us>

Donations

We are grateful and appreciative for the many donations we receive throughout the year.

- Director Weller applied for and received a \$600 **grant** from the Northeast Documentation Center for a survey and evaluation of the HML artifacts and archival materials.
- Librarian Amy Friedman applied for a **grant** from the Park Street Foundation (sponsored by Granite State Reads and Verizon) and we were awarded \$615 to hire a teacher for our guided reading seminars re required AHS summer reading.

Memorial donations were made in memory of Joan Long. Books were donated in memory of Sis Finnegan, and Caryn Sloan to the Library.

The FOL, Junior Women's Club, Lions Club organizations and local businesses donated money for prizes, gift certificates, etc. for the Summer Reading Programs (see "Thank You" display ad in the *HLN* September 28, 2007 issue). The Lions Club donated \$300 to purchase large print books for the collection.

In addition to the organizations and groups mentioned throughout this report, **individuals** making donations to the Library included: a \$1,000 donation from an anonymous donor in appreciation to benefit our children's department, equipment from Diane Petrain, craft items for the children's department from Robin Paquette, two decorated Halloween pumpkins from Dr. Thomas Chamberlain. Author donations include: autographed copy of *The Little Farm* by Jean Serino, and 12 books/booklets of poetry by poet Sidney Hall Jr. for our "NH Authors" collection.

Eagle Scout candidate Daniel Zaharchek raised funds and built a performance stage for his Eagle Scout project. Alvirne Buildings and Trades department constructed a wooden bench for the Children's Department.

Additionally, we are appreciative for the many used book and A/V donations given to the Library and to the FOL book sales throughout the year from community-minded citizens.

We wish also to thank everyone who donated money/change through the building fund canisters at the library.

Special thanks to: Hannaford's, DeMoulas, and Stop & Shop Grocery Stores for providing the refreshments/paper goods for the combined RML groundbreaking and HML birthday celebration, the Historical Society who provided us with a copy of the original HML dedication program, Hills Garrison School, the Hudson Fire Department (especially Steve Dube), Hudson Police Department, DPW, Recreation Center, Finance Department, Town Administration, and Community Development for all their help throughout the year.

Last but not least, we wish to acknowledge the wonderful Library Board of Trustees, Friends of the Library, and Building Committee members who donated their time and energies to make the Library an important community resource for the people of Hudson.

Financial Data

Money received from fines and payment for lost materials totaled \$9,571.32; money received from other fees totaled \$3,292.94. The Building Fund Balance is \$7,754.78, the Rodgers Memorial Library account balance is \$3,765,970.14. The Charles Zylonis Trust Fund (for Lithuanian books, etc.) balance is \$75,400.18. The Library did not receive impact fees or income from the J.N. Hills Trust Fund or the Dr. A.K. Hills Trust Fund this year.

"A library is not a luxury, but one of the necessities of life."

Henry Ward Beecher

Respectfully submitted by,

David Jelley, Chair
Hudson Library Board of Trustees

And

M. A. P. "Toni" Weller
Library Director

TOWN OF HUDSON

Information Technology Department

12 School Street • Hudson, New Hampshire 03051 • Tel: 603-886-6000 • Fax: 603-881-3944

Annual Report 2008

Introduction

May 2009 will mark the second anniversary of the Information Technology (IT) Department. Since its formation in 2007 when the management of technology for all Town departments was consolidated, the IT department – with a staff of 3 – has made great strides in improving our Town's network, infrastructure and interoperability. Our team consists of IT Specialists John Beike and Vin Guarino, and me as the IT Director.

Though John and I had kept the Police Department's technology up-to-date, Town Hall and all other Town Departments were behind by approximately 20 years. I credit Vin Guarino with advancing the Town Hall and Fire networks, software and operating systems by at least 15 years in just 15-18 short months. His expertise and hard work is appreciated.

The team also brought the Town's infrastructure up to modern day technology to prepare for HCTV video streaming, better interoperability between Town Departments, greater network speed, and future digital phone use.

Short Term Goals

As we begin our third year together, Vin, John and I are working toward goals that will further streamline technology and save taxpayer dollars:

1. To consolidate 9 servers into 2 through virtualization (Town Hall and Fire Department servers). This will save equipment replacement costs, maintenance, and reduce energy costs by 50% in our server room, as well as provide a better disaster recovery solution.
2. To upgrade our Town Hall/Fire phone system to be compatible with current Police and Highway phones and network them together.
3. To continue bringing Town Hall, Recreation and Highway users on-line with in-house email.
4. To replace antiquated equipment with energy efficient models.

Responsibilities and Workload

Vin Guarino and John Beike have been an integral part of the successes we have had in just 20 months as a team. The IT Department is responsible for supporting approximately 300

employees, Town volunteers and elected members who use Town resources. We provide 24/7 support to 2 emergency dispatch centers and Police and Fire emergency personnel. We maintain, manage and support technology within 11 Town-owned buildings, 7 remote sites, and the Emergency Operation Center. We administer 3 phone systems and a multitude of applications, with system security and data recovery being two of our most important responsibilities. This is a large workload for 3 full-time people and timely support for non-emergency service calls is a concern.

The availability of information and the security and integrity of our information systems are of the utmost importance to the IT Department. We are committed to improving services for our citizens and maximizing efficiency for our fellow employees, while reducing long-term operating costs.

Accomplishments

Major accomplishments in this second year of the IT Department's existence have included:

1. Alarm upgrades and fiber optic between Town Hall, Lenny Smith Central Fire and Admin buildings, Highway, Police, and Animal Control facilities.
2. Software upgrades on all workstations to eliminate unsupported operating systems.
3. An upgrade of all office software at Town Hall, Fire, Highway and Recreation to bring employees to the same version.
4. Assistance with the renovation and equipment upgrade of Fire Dispatch.
5. Coordination of Police Dispatch renovation and technology upgrades.
6. Assistance with Police renovation of the Records Division to accommodate additional workstations and technology.
7. Installation of an Exchange Server that brought email in-house for Fire, IT and Town Administration.
8. Reorganization of the Town web site and a user front-end for easier employee upkeep.
9. Interfaced with the Department of Motor Vehicles through the Town Clerks office for a more efficient process of registering motor vehicles.
10. Rewired Town Hall, Fire Administration and the Lenny Smith Central Fire buildings with upgraded cable.

Long Term Goals

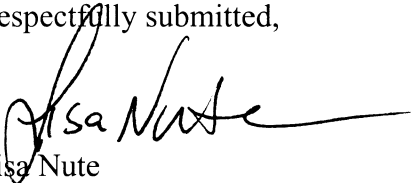

Some of our goals that would have return on investment:

1. Continue to build a more efficient network that will save money in the long run and improve service through technology.
2. Further implement virtualization by consolidating servers in the Police Department in fiscal year 2011.
3. Upgrade fire alarms and include fiber optic infrastructures for the Robinson Road and Burnshill Fire Stations (FY2011-2014).

4. Continue mutual endeavors with the School Department and Library Trustees (site of the George H. and Ella M. Rodgers Memorial Library) that will save tax payer dollars and strengthen interoperability and communication through technology.

On behalf of the IT Department, I would like to thank the Board of Selectmen, IT Liaison Shawn Jasper, Town Administrator Steve Malizia, and Department Heads for their patience as we work to catch up with technology, and for their support of our goals. I look forward to our continued successes in the spirit of cooperation.

Respectfully submitted,

A handwritten signature in black ink, appearing to read "Lisa Nute", with a long horizontal flourish extending to the right.

Lisa Nute
Information Technology Director

Annual Report of NRPC Activities for the Town of Hudson

Transportation

NRPC as the designated Metropolitan Planning Organization (MPO) for the region is responsible for developing and maintaining the region's transportation planning program. This includes soliciting, prioritizing and making recommendations on regional and local transportation projects that are funded through Federal or State sources. NRPC is responsible for developing the region's portion of the State's Transportation Improvement Program (STIP), maintaining the regional traffic model, and performing required air quality analyses. In addition, NRPC MPO funds are used to provide municipal technical assistance on transportation issues.

- ❖ **I-93 Community Technical Assistance Program (CTAP)** – The CTAP program is funded by the NH Department of Transportation and administered in the region by NRPC. It is designed to help communities prepare for future growth and land use changes that are anticipated to occur following improvements to I-93. During 2008 this program has provided several products that can be used by the Planning Board and Conservation Commission to prepare for future growth.
 1. **Lowell Rd-NH111 Connection** – During 2008 NRPC began working on a conceptual study for a potential roadway connection between Lowell Road at the intersection with Sagamore Bridge and NH111A following the proposed Circumferential Highway alignment. The product of this study will be a road concept and traffic analysis that will identify the traffic benefits of the potential road connection as well as concepts for roadway alignment, cross-section and intersection configurations. This project will extend into 2009.
 2. **Hudson Buildout Analysis** – This study analyzes the land that is available for development in Hudson and the development that could occur under existing zoning. In the second phase of this study (to be completed in 2009) an alternative zoning scenario will be developed with the town and analyzed to show the impact of different types of zoning on future growth.
 3. **Open Space Assessment** – Another CTAP product was an assessment of open space and conservation policies in Hudson conducted by the Society for the Protection of New Hampshire Forests and NRPC. This assessment was conducted to allow Hudson's Planning Board and Conservation Commission to determine if current policies were achieving town goals or if the town might consider alternative policy directions.
 4. **Aerial Imagery and Land Use Mapping** – The CTAP program has also prepared new aerial imagery and up to date land use mapping for Hudson. This data is now available for the town through NRPC.
- ❖ **Traffic Data Collection** - Conducted 24 traffic counts in Hudson in the past year. These traffic counts are available for use by the Town and NRPC can conduct special counts upon request. The count data is available to anyone through the NRPC website and more detailed data from each count is available upon request.
- ❖ **Lowell-Nashua Commuter Rail** – During the course of 2008 NRPC continued to push forward the Lowell-Nashua Commuter Rail project. Activities this year included the formation of the New Hampshire Rail Transit Authority, the operating entity for the rail project, as well as passage of a limitation on liability as well as the preparation of conceptual development and operating costs. The liability limitation will be a critical factor in controlling operating cost for the rail project.

- ❖ **Human Service Transit Coordination** – For several years the Department of Transportation and Department of Health and Human Services have been developing a process for coordinating transit services funded by the two agencies to reduce costs and increase service. The NRPC has been the leader in the state in this process and was recognized as the first regional coordinating group in October 2008. In the coming year it is anticipated that this project will lead to increased transit service throughout the NRPC region and help meet the transportation needs of many seniors and disabled adults without transportation options.
- ❖ **Road Inventory** – During 2008, NRPC staff prepared the updated the data in the town Road Inventory. This data set allows officials from the Town and NH DOT to have the most up to date information on Hudson's roads and will be used for planning road improvements in the community.
- ❖ **Transportation Emergency Preparedness Plan** – During fall 2008 NRPC began a project to identify the impacts of emergencies on the region's transportation system and identify methods to prepare for and mitigate the impact of those emergencies. Members of the town staff including police, fire and planning are participating in this effort.
- ❖ **Environmental Planning for Transportation Projects** – Also during the fall of 2008, NRPC began a project that will assess the environmental impacts of all transportation projects that are planned for the Souhegan Valley watershed and identify approaches to coordinating the mitigation process to achieve the greatest environmental benefit. Members of the town conservation commission and non-profit groups located in the community are actively participating in the development of this project.
- ❖ **Regional Traffic Model** – NRPC is updating the regional traffic model to provide morning and afternoon peak hour traffic forecasts. This will allow NRPC to provide more specific information to the town when assessing the impact of traffic from new development. This capability is available for town use whenever there is interest, without cost, and the town staff has utilized NRPC traffic expertise on several occasions during 2008 to help study critical intersections and development issues.
- ❖ **Long Range Transportation Plan** – During 2008, NRPC completely updated the region's Long Range Transportation Plan, Transportation Improvement Program and Air Quality Conformity Analysis. These documents identify transportation priorities for the region and each of the municipalities and are required to receive funding for transportation improvement projects.

Land Use and Environment

- ❖ **Lower Merrimack River Corridor Management Plan** – During 2008 NRPC completed a full update of the Lower Merrimack River Corridor Management Plan. This plan analyzes the lands surrounding the Merrimack River in Hudson, Litchfield, Merrimack and Nashua and provides recommendations for policies, programs and projects that will protect water quality and the river habitat as well as improve public enjoyment of the river. This project was completed by NRPC free of charge to the town using grant funds from the NH Department of Environmental Services.
- ❖ **Merrimack River Trails Inventory** – During 2008 NRPC completed the Merrimack River Trails Inventory in Hudson, Litchfield, Merrimack and Nashua. This study identifies the existing trails that allow access to the river and identifies issues with the use of the trails. The study also identified several significant challenges that exist to opening access to the river to the public and will help town and state officials as they consider policies related to river access.
- ❖ **NRPC Energy Program** – This year, NRPC began a multi-year project to provide support to local energy committees. The NRPC will assist these committees in conducting an inventory of the energy use of town facilities and buildings. The NRPC will then assist the town in identifying steps that can save energy at each

facility and develop a road map of the steps the energy committee should be taking to achieve energy and cost savings at town facilities and buildings. This project will extend through 2009.

- ❖ **Legislative Services** – On an annual basis, NRPC is actively engaged with members of the Legislature on issues that concern member communities. During the 2008 session NRPC was actively engaged legislative issues related to land use law, workforce housing, transportation funding, and commuter rail.
- ❖ **Workforce Housing** – During 2008 NRPC updated the Regional Housing Needs Assessment. This document is a planning tool for the Hudson Planning Board that identifies the amount of housing that will be needed in the community by 2015. The town Planning Board can use the Regional Housing Needs Assessment to determine if it is planning for an adequate supply of housing for all income groups in the community. NRPC also provided tools that the town can use in updating its housing policies including assessment tools and model ordinances.
- ❖ **Innovative Land Use Planning Guidelines** – NRPC working with the other NH regional planning commissions and NH Department of Environmental Services completed development the Innovative Land Use Planning Guidelines. This document provides background research, case studies and model ordinances for the application of innovative land use techniques in New Hampshire communities.
- ❖ **Brownfields** - NRPC continued its regional brownfield assessment process. This process is identifying brownfields throughout the region that qualify for federal and state funding programs. NRPC staff worked with local officials to identify qualifying brownfields in each of the member communities. Staff then directed NRPC's consultant in preparing Phase I and Phase II brownfields assessments for each of the sites. NRPC staff also worked with town staff members and affected property owners to provide education on the brownfield process and on potential funding sources for cleanup activities. This year NRPC completed an assessment of petroleum related brownfields and began assessing brownfields related to all other pollutants.
- ❖ **Regional Stormwater Coalition** – The Regional Stormwater Coalition has been working together under NRPC's leadership to help communities required to meet NPDES Phase II stormwater mandates by sharing information and resources. This year the stormwater coalition focused its efforts on developing educational curriculum that can will be used in the schools to train elementary and secondary school children.
- ❖ **Resources and Training** – Through the innovative iTRaC (Integrating Transportation and Community Planning) program the NRPC provided a wide array of resources to town volunteers and staff. Resource cards and information sheets were developed on road standards, wildlife habitat, steep slopes, inclusionary zoning, landscaping and streetscaping, and scenic roads and byways. Training workshops were conducted on habitat protection planning, an update on NH legal issues for land use and the environment, on shoreland protection, on Planning Board basics, and on integrating landscaping and streetscaping.
- ❖ **iTRaC E-News** – NRPC also launched the iTRaC E-News which provides bi-monthly updates on projects, training and resources available through the NRPC iTRaC program.
- ❖ **Household Hazardous Waste Program** – The Household Hazardous Waste (HHW) Program provides residents of the region with the opportunity to dispose of common household chemicals in an appropriate fashion so that pollution of the region's watersheds and groundwater can be avoided. An electronics recycler also participates in these events enabling attendees to dispose of high tech items such as old computers, phones, TV's and other appliances that include hazardous materials. Five HHW events were held this year that were attended by 137 Hudson households.

Geographic Information Systems (GIS)

The GIS staff at NRPC continues to maintain a diverse collection of spatial databases including local roads, real property parcels, zoning, land use, and environmental conditions. This data is applied extensively to provide mapping and analysis for local and/or regional projects.

- ❖ Updated NRPC Standard Map Library for Hudson. These four standard maps show the Town's Roads and Town Facilities, Environmental and Conservation Areas, Existing Land Use and an Aerial Image of the Town. Two sets of these maps have been provided to the Town.
- ❖ This year NRPC worked with the town assessor and the Registry of Deed database to update the town digital parcel map to include all changes to property data. This item is a critical component of many projects conducted in the town and is always available to the town from NRPC free of charge.
- ❖ Provided town volunteers with all the existing GIS data on CD for use on Town projects. This data has been developed and maintained by NRPC and would have cost many thousands of dollars for the Town to develop on its own.
- ❖ Completed regular maintenance tasks and performed updates to the Hudson GIS data which is maintained by NRPC, including digitizing new roads, parcels, protected lands, zoning changes, trails, social service or child care providers, land use and other baseline data.
- ❖ Mapped and analyzed trends relative to real estate transactions for the year to maintain a tool for monitoring sales trends.
- ❖ Addressed numerous mapping requests from the Town officials and the public.
- ❖ Continued to update and expand the regional annotation layers for improved clarity, accuracy and detail in mapping tasks.

Planning Board 2008 Annual Report

In accordance with New Hampshire Planning and Land Use Regulations (RSA 674:1, 5, 35, & 43), the duties and responsibilities of municipal planning boards include

- Preparing and updating a town master plan
- Recommendations for changes to the town zoning ordinance
- Preparing a Capital Improvements Program
- Updating subdivision and site plan regulations
- Review and approve/disapprove subdivision and site plans

The Hudson Planning Board meets in Town Hall three times a month, on the 1st, 2nd, and 4th Wednesdays. The first meeting of the month is typically a workshop meeting, while the other two meetings are focused on reviews of site plans and subdivisions.

Master Plan

The Hudson Master Plan was updated in 2006 and consists of a comprehensive review and analysis of Hudson's past, present and future infrastructure needs and capacities. The Master Plan is available for review at the Hills Memorial Library, the Community Development Department Office in Town Hall, and on the NRPC web site at http://www.nashuarpc.org/landuse/landuseproj_hudsonmp.htm

Capital Improvements Program

The Planning Board is authorized by New Hampshire RSA 674:5–674:7 to develop a Capital Improvements Program (CIP) to rank proposed capital projects for the Town and School District for the upcoming fiscal year. In addition to the proposed projects for the next fiscal year, each town department is requested to look ahead for the next 5 years and list expected capital projects during that time. The CIP report is provided to the Board of Selectmen and Budget Committee as input to the next year's fiscal plan.

The Capital Improvements Committee is a sub-committee of the Planning Board with representatives from the Board of Selectmen, School Board, Budget Committee, and a citizen member. This year's committee consisted of Tierney Chadwick (chair), George Hall, Richard Maddox, Ben Nadeau, Gary Rodgers, and David Shaw.

For FY2010, the top three ranked capital projects are the Windham Road Booster Station (water utility), improvements for the Pelham Road/Lowell Road intersection, and replacement of the County Road Bridge. A copy of the FY2010 Capital Improvement Program can be reviewed in the Community Development Department Office in Town Hall.

Zoning Ordinance Changes

The Planning Board continues to work to update the Zoning Ordinance. Public hearings are held to review the proposed changes. The final version of the changes must be approved by a vote of the Town during the Town elections in the spring. During FY2008, most of the focus was on updating the Table of Permitted Uses.

Subdivision/Site Plan Regulations

The Planning Board also worked on revisions to the Subdivision and Site Plan Regulations. After conducting a public hearing, changes to these regulations are voted on and approved by the Planning Board.

The Zoning Ordinance (Chapter 334), Site Plan (Chapter 275), and Subdivision (Chapter 289) regulations of the Hudson Town Code can be reviewed at this link: http://gcp.esub.net/cgi-bin/om_isapi.dll?clientID=164110&clientid=101495&infobase=HUDSON.NFO&softpage=browse_frame_pg42

Development Activity

As was the case last year, residential development activities in Hudson have slowed from previous levels because of the housing recession. Commercial site plan approvals continued at a steady pace. The major projects approved during the year were Walgreen's Pharmacy on Derry St. and St. Joseph's Medical Center on Robinson Rd.

	FY 2003	FY 2004	FY 2005	FY 2006	FY 2007	FY 2008
Approved subdivisions	10	11	18	11	6	8
New house lots	50	61	90	68	16	22
Other housing units (e.g. senior housing)		100	130			
Approved commercial site plans	15	15	18	7	16	23

The election of Planning Board officers is held annually during the second regular meeting in January. The following members were elected as officers for the year.

Chairman:	James Barnes
Vice-Chairman	Vincent Russo
Secretary	Marilyn McGrath

Other members of the Planning Board during this past year include:

George Hall	Member
Suellen Quinlan	Member
Terry Stewart	Member
Richard Maddox	Selectman Liaison
Brion Carroll	Alternate
Tierney Chadwick	Alternate
Bill Cole	Alternate (term expired Dec. 2007)
Ken Massey	Selectman Liaison Alternate

Finally, I want to thank the Town employees who assisted the Planning Board throughout the year.

John Cashell	Town Planner
Cynthia May	Associate Planner
Tom Sommers	Town Engineer
Gary Webster	Acting Town Engineer
Pam Lavoie	Administrative Aide
Betty Holt	Administrative Aide
Julie Kennedy	Administrative Aide
Sue Fiorenza	Secretary
Debra Winter	Secretary
Stephen Buckley, Esq.	
Brad Seabury, of the Hudson Minutemen	

Respectfully submitted,
James Barnes
Planning Board Chairman

POLICE DEPARTMENT 2008 Annual Report

To the citizens of Hudson, New Hampshire, I am honored to present this report detailing the work and accomplishments of the Hudson Police Department for the year 2008.

This will be my final Town Report since I will be retiring, effective January 31, 2009, after nearly 30 years of service to the Town of Hudson. It has been an honor and privilege to serve as Chief of Police for nearly 18 years while the Hudson Police Department has transformed into a well disciplined and professional organization with highly trained sworn and civilian employees. The Hudson Police Department remains one of seven New Hampshire law enforcement agencies to be nationally accredited and certainly well respected throughout the law enforcement community.

Our mission remains “to provide professional police service in *Partnership with the Community* through mutual respect and cooperation.” Accomplishing that mission requires the department to be responsive to difficulties and problems faced on a daily basis. This Town Report demonstrates the Hudson Police Department’s commitment to embrace and overcome these challenges.

Statistics:

The Police Department continues to employ traditional enforcement methods, along with concepts of community policing, to keep crime down in Hudson. The Police department employs 47 sworn officers, 14 non-sworn full time members and eight non-sworn part time members to deliver quality law enforcement service to the community. From January to December 2008, the Police Department handled 39,164 calls for service.

Activity	2007	2008	Change
Total Arrests	1355	1265	-7%
Juvenile Arrests	254	213	-16%
DWI Arrests	296	269	-9%
Drug Arrests	157	119	-24%
Assaults	253	310	+23%
Sexual Assaults	14	17	+21%
Robbery	7	3	-57%
Arson	7	9	+29%
Burglary	74	76	+3%
Criminal Mischief	271	261	-4%
Domestic Disturbances	398	422	+6%
Theft	365	358	-2%
MV Theft	25	30	+20%
MV Collisions	568	653	+15%
Citations	3943	2947	-25%
Warnings	9981	10149	+2%

Re- National Accreditation:

During the week of November 16, 2008, the Hudson Police Department underwent an extensive on-site assessment conducted by the Commission on Accreditation for Law Enforcement Agencies (CALEA). The assessment included a review of nearly 394 *Applicable Standards* and evaluated the agency’s ability to meet those standards through proof of compliance. The assessment team also conducted equipment inspection, employee interviews and a public hearing. I am pleased to report that only three files out of 394 were returned for minor changes and explanations, which is phenomenal. During the public hearing, 41 people came to speak in favor of the agency and the department also received 24 public phone calls, all praising the department for the continued professional service to the community. Most notably, New Hampshire Governor John Lynch contacted the team of assessors to express his contentment with the agency and to praise our efforts in protecting children against sexual predators and for our assistance with the recent Child Protection Act, which passed in 2008. Overall, the on site assessment was successful and the department was informed by the CALEA assessment team the Hudson Police Department possess strong leadership from the top down and throughout the agency, both sworn and non-sworn personnel.

These past three years, Sgt Kevin DiNapoli and Jamie Allain, with the guidance of Retired Captain William Pease, have been assigned the duties and responsibilities to manage the accreditation process and I can affirm they have done an outstanding job. Once again, the Police Department proved it met law enforcement practices in areas such as selection of officers, training, patrol and criminal investigative procedures, victim assistance and detention of prisoners. Major law enforcement associations, leading education and training institutions, governmental agencies, as well as law enforcement executives internationally, acknowledge CALEA's Standards for Law Enforcement Agencies and its accreditation program as benchmarks for today's law enforcement agencies.

I would also like to express sincere gratitude to the Board of Selectmen, especially Police Liaison Ken Massey, for the continued support toward maintaining national accreditation status. The citizens of Hudson should be just as proud as we all are in achieving this honor.

A final report will be completed by the team of assessors and their findings will be forwarded to the Commission, which will re-examine all aspects of the Hudson Police Department's policies, procedures, management, operations and support services. A formal hearing will be held on March 18-21, 2009 in Raleigh, North Carolina at which time the department will be reviewed and awarded re-accreditation.

Records Renovation:

This year, the Police Department completed a major renovation project by increasing the area in the Records Division. With the removal of walls and closets to increase the work space, we were able to increase the number of work stations from three to six to meet the needs of the agency. I would like to thank Captain Don Breault, Captain Jason Lavoie, IT Director Lisa Nute, IT Specialist John Beike and Maintenance Technician Dan Clarke for their efforts for making this project a reality.

Community Survey:

The Hudson Police Department Citizen Survey is a survey of randomly selected Hudson residents on each street. A web-based survey was added this year to reach as many residents as possible and to make the survey user friendly. This survey has been designed to assess the experience and attitudes of the citizens of Hudson as they relate to police concerns, including such issues as satisfaction with the Hudson Police Department, victimization and fear of crime, traffic safety, quality of life, community involvement and general crime concerns.

The data collections period for the web survey commenced the end of September and ended the last week of October 2008. A total of 400 postcards were sent to a resident on each street in Hudson. The postcards directed residents to a website where they could complete the survey. Of the 400 mailed surveys that were sent out, 70 citizens responded. What was very pleasing to learn was 97.7% of the citizens surveyed indicated the police department does a good to excellent job in providing police services. In addition to law enforcement services, citizens and businesses were asked where the Hudson Police Department should continue to focus their resources. Here are the results of this question:

	1 (definitely should NOT)	2	3 (neutral)	4	5 (definitely should)	Total
Internet crimes:	2(2.9%)	1(1.45%)	16(23.19%)	19(27.54%)	31(44.93%)	69
Identifying and keeping track of Sexual Offenders:	1(1.43%)	2(2.86%)	4(5.71%)	16(22.86%)	47(67.14%)	70
Identifying illegal drug dealers:	1(1.43%)	0(0%)	5(7.14%)	14(20%)	50(71.43%)	70
Motor vehicle enforcement:	2(2.86%)	2(2.86%)	15(21.43%)	32(45.71%)	19(27.14%)	70
School Resource Officers in school:	0(0%)	1(1.43%)	23(32.86%)	29(41.43%)	17(24.29%)	70
Citizen Police Academies:	1(1.43%)	5(7.14%)	33(47.14%)	19(27.14%)	12(17.14%)	70

Drug/alcohol awareness programs for parents:	1(1.43%)	3(4.29%)	31(44.29%)	24(34.29%)	11(15.71%)	70
AARP classes:	1(1.43%)	9(12.86%)	37(52.86%)	16(22.86%)	7(10%)	70
Vehicle lock-outs:	4(5.71%)	8(11.43%)	44(62.86%)	8(11.43%)	6(8.57%)	70
Provide house check services:	4(5.71%)	3(4.29%)	29(41.43%)	27(38.57%)	7(10%)	70
Neighborhood patrols:	1(1.43%)	1(1.43%)	4(5.71%)	41(58.57%)	23(32.86%)	70
Responding to medical emergencies:	4(5.71%)	2(2.86%)	1(1.43%)	16(22.86%)	47(67.14%)	70
Total Responded to this question:					70	98.59%
Total who skipped this question:					1	1.41%
Total:						100%

For more detail results of the survey, please visit our web site at www.hudsonpd.com

Hail and Farewell:

I would like to welcome to the Hudson Police Department our new employees:

Officer Derek Lloyd
Officer Kevin Ducie
Police Dispatcher Erica Coleman

Officer Derek Lloyd was hired on September 29, 2008. He moved to Hudson in 1999 and graduated from Alvirne High School in 2004. Officer Lloyd furthered his education at the University of New Hampshire where he earned a Bachelor of Arts Degree in Political Science.

Officer Kevin Ducie was also hired on September 29, 2008. Officer Ducie recently moved to New Hampshire from Sandwich, Massachusetts. Officer Ducie earned a Bachelor of Science in Criminal Justice from Western New England College in Springfield, Massachusetts.

Officers Lloyd and Ducie are scheduled to attend the 148th New Hampshire Police Academy January 05, 2009. Upon completion, they will be assigned to the Patrol Division.

Dispatcher Erica Coleman was hired as a full-time dispatcher on October 2008 after serving two years as part-time dispatcher. She graduated from Alvirne High School in 2003 and is continuing her education at the Middlesex Community College with a major in Liberal Arts.

After over 20 years of dedicated service to the Town of Hudson, Master Patrol Officer Paul Balukonis, affectionately known as "Officer Paul" retired from service, effective September 26, 2008. Officer Balukonis was one of the first New Hampshire police officers to become DARE certified. He also served as mentor for other officers in the DARE program throughout the State. Later on in his career, Officer Balukonis was selected to become the department's first School Resource Officer and served in that capacity at all levels within the Hudson School System. There is no doubt "Officer Paul" has had a positive impact on many young lives and served as an outstanding role model for our youth. He will be sorely missed by many. From all of us to Officer Balukonis, may you look back at your years with the Hudson Police Department and feel a sense of accomplishment and pride—just as we do. Good Luck!

This year, we bid farewell to Dispatcher Karen LaRoche, who resigned from the Police Department to accept a position with the FAA as an Air Traffic Controller. Dispatcher LaRoche received her degree in Air Traffic Management and was quickly hired by the FAA. She was also recently recognized by the Police Department for her commitment in serving in the United States Army and for her tour of duty in Iraq during Operation Freedom.

Goals and Objectives for 2009:

- Continue to ensure our officers receive the best training in modern day police practices.
- Host community-based programs to reduce crime and to foster our partnership with the community.
- Through education, motor vehicle enforcement and police presence, reduce the number of motor vehicle collisions on the three main arteries in Hudson.
- Continue to identify and arrest sexual predators and to provide educational programs to parents and children through our schools.
- Focus resources where we can on identifying and arresting drug dealers in our town.
- Continue coordination and collection of CALEA proofs of standard compliance in preparation for re-accreditation in 2009.
- Continue to utilize the Police Department's Directed Patrol System, with emphasis on neighborhood presence to reduce the opportunity for criminal activity.

As always, we are most appreciative of the support of our community partners--the citizens of Hudson, CHIPS, the business community, neighborhood associations, and Citizen Police Academy graduates.

The accomplishments set forth in this report could not have been met without the extraordinary contributions of the police officers and civilian staff at the Hudson Police Department. I am very proud of the dedicated and compassionate work that they perform in such a professional manner. I will always look at the men and women of the Hudson Police Department with respect for what they do each and every day to make the town a better place to live. I would like to thank the Town of Hudson, the Board of Selectmen and Town Administrator Steve Malizia for the opportunities afforded to me, both professionally and personally, during my tenure. I would also like to thank my fellow department leaders in Hudson, especially Fire Chief Shawn Murray, Road Agent Kevin Burns, and Lisa Nute who have established strong relationships with the Hudson Police Department, and without whom we would be unable to carry out our important work.

I will always remain appreciative to so many people who have influenced my police career--Retired Chief Dave Walchak and Assistant Safety Commissioner Earl Sweeney, who provided me with the insight and sound advice I needed as a young police chief and Retired Lt. Col William Cole for his continued support, advice and pearls of wisdom he has provided me over the past 18 years.

Special thanks and appreciation to Dorothy Carey who, for 21 years, has been my "safety net" and kept me in check, but most of all, she has been a loyal employee and trusted friend. To Jason Lavoie, I wish you the very best in your appointment as Chief. I am confident that with your experience and knowledge, along with your clear understanding of the concepts of Community Policing, the citizens of Hudson are in good hands.

In closing, I hope my years with the Hudson Police Department have had a positive impact on the quality of life in Hudson. While I look forward to enjoying my retirement, I leave with mixed feelings knowing that I have had the honor of working with the most dedicated and professional men and women of the Hudson Police Department.

As I leave "active" duty, I will always cherish my career with the Hudson Police Department and a lifetime of camaraderie that few experience, and know that the law enforcement profession is the greatest fraternity the world has ever known. It is said once the badge goes on, it never comes off, whether you can see it, or not. In my heart, I know this is true.

Respectfully Submitted
Richard E. Gendron

TOWN OF HUDSON

RECREATION DEPARTMENT

2 Oakwood Street

Hudson, New Hampshire 03051

603/880-1600

It is my pleasure to present the 2008 Annual Town Report of the Hudson Recreation Department. This department continues to support, plan and coordinate many activities for the constructive use of leisure time for Hudson residents of all ages.

ADMINISTRATION

Susan Kaempf continues to provide outstanding administrative support to this department. Her management of the Recreation Department website is excellent, always providing the residents of Hudson with updated information. Due to Susan's diligence, we were the first town department with the capability to directly post and update announcements on the Hudson Community Television. This capability ensures information is disseminated in a timely manner. In addition to her daily duties, Susan manages our monthly Movie Nights and assists throughout the year with numerous activities.

In his twenty-ninth year of dedicated service to the town Reginald Provencher continues to maintain the Recreation Center properties and assists with field maintenance.

The Recreation Committee continues to meet the first Thursday of each month, 6:30pm at the Recreation Center. This committee provides outstanding insight and guidance to this department. This committee has been working with a local youth group into the possibility of using the Robinson Pond Recreation Area for future youth sports fields. This committee is also in the beginning stages of evaluating the possible use of town owned property at Eayrs Pond for a small south end of town recreation area. Additionally, members can be seen volunteering and assisting at recreation sponsored activities.

Background checks are conducted on all employees and volunteers. These checks will help to protect the children that participate in our programs. All checks are completed through the New Hampshire State Police.

Through the National Alliance for Youth Sports, I attended the International Youth Sports Congress and gained recertification as a Youth Sports Administrator. With this certification, valuable training is provided to all volunteer youth sports coaches which will be very instrumental in raising the professionalism in the field of youth sports.

The Recreation Department had the opportunity to help further educate all town youth coaches. With the support and contribution from Hudson/Litchfield Bears Football, Hudson Girl's Softball League, Hudson Youth Baseball, and Hudson United Soccer Club, guest speaker Bob Bigelow lectured our coaches. Bob conducted a basketball clinic followed by a very informative speech on adult involvement in youth sports. Bob Bigelow is a former National Basketball Association player and one of the foremost lecturers in the country regarding the needs of children in youth sports and using common-sense approaches to meet those needs. This talk was very educational, challenging, motivational and humorous. Coaches left with a better understanding of what children really want and need from their sports activities.

FACILITIES AND MAINTENANCE

All field and park maintenance and daily upkeep continues to be professionally maintained by the outstanding support of the Highway Department.

Sousa Field was officially opened for play in August 2008 with Board of Selectman Chairman Ben Nadeau and Local Developer Manny Sousa throwing out the first pitch at the field dedication. Local Developer Mr Manny Sousa completed all phases of construction of the field to include excavation work, fencing and hydro-seeding at no cost to the taxpayers. Our Highway Department put the final touches on by reseeding, installing a beautiful entry display and field signs.

The Skate Park continues to be a nicely landscaped area that our Highway Department takes great pride in maintaining.

Robinson Pond Recreation Area continues to have constant use throughout the summer. The pond was closed several times for a short period during the summer months due to high visibility of blue/green algae in the swimming area.

The Community Center continues to be a major asset to the success of the Recreation Department. This department can now meet the needs and provide safe, quality services to the many residents of the town. All civic activities that had used the building in the past continue to meet at the facility. A new floor was installed when the previous floor did not meet expectations, the contractor honored their warranty and installed a higher quality product at no cost to the town.

CURRENT PROGRAMS

Tot Playgroup meets every Thursday morning at the Recreation Center and during summer months at Merrifield Park. Under the direction of volunteer Trish Quarles, the program is for parents and their toddlers under the age of five years old. Weekly topics are discussed and activities are planned in this very informal and relaxing setting.

Our 60 and Over Coffee Club is a new program that meets every Tuesday from 9am – 11am. Complimentary coffee, donuts and juice are provided to all attendees in a relaxed setting.

Movie Nights are held the first Friday of each month at 7:00pm at the Community Center. Attendance for this program continues to grow with recent attendance rising to as many as 200 participants. This program is for children six years and up. Children under six years may attend if accompanied by a parent. Families are welcome to come and relax and watch the movie. Popcorn and drinks are served to all at no charge.

Teen Dances continue to be extremely popular. During the year, four separate dances were held at the Community Center. The dances were very successful with attendance rising to as many as 400 children per dance. Dances were offered to students in 5th and 6th grade, a small fee was charged at the door.

Community Activities gives the Recreation Department the flexibility and opportunity to give the residents activities of choice. These totally self-supporting activities are extremely popular and positive. Adult Comedy Nights have proved to be very popular with an average of 250 people attending each show. Cabin Fever Day was a success for the third consecutive year. This popular indoor event geared to younger families has a carnival atmosphere with bounce houses, numerous games, clowns and hourly entertainment acts provided. This event is held at the Community Center the first Saturday of February school vacation week. Mother/Son Reptile Night was held for the first time with outstanding response. Moms and sons showed amazement as each animal was presented. Pizza, cookies and drinks were served. All couples received a photo to remember the special event. Walk NH was another new event that was offered through the state to promote walking as a positive fitness activity. Complimentary water bottles were provided to all participants.

Winter Basketball continues to have the highest overall participation with 650 boys and girls in grades 3-8 participating. Weeknights throughout the season Memorial School and all of the elementary schools and the Community Center are filled with athletes practicing skills and teamwork. Games are played on weekends throughout the winter at Memorial, Nottingham West and Hills-Garrison Schools. Following the regular season grades 5 - 8 participated in a double elimination playoff. Individual trophies were awarded to all players on the championship and runner-up teams. All championship games were recorded and televised by Hudson Community

Television. Grades 3 and 4 participated in a jamboree with all participants receiving medals. For the ninth consecutive season, this program was run by myself, with assistance from Cef Torres. The season went off without any problems due to the high level of assistance I received by all of the volunteer coaches. In addition to our regular season, we hosted the 31st Annual Hudson Invitational Basketball Tournament where a total of 52 teams from neighboring towns participated over the three day Martin Luther King weekend. The format of the tournament is Round Robin, giving all the teams a minimum of three games each. Additionally, as part of our basketball program, complimentary tickets were offered to all players to a women's Boston College game. Approximately, 100 players attended the enjoyed the game.

As part of our Winter Basketball Program, our Instructional Program was offered to second grade children and was held at the Community Center each Saturday morning for ten weeks. This program had over 100 participants. Under the outstanding direction of Ed Peterson and his volunteer high school student coaches, they devoted their valuable time to teach basketball skills in a fun filled environment.

Our High School League was played every Saturday, January through March at the Community Center. This co-ed league had 40 participants.

Over-35 Basketball League, which had nine teams, was played on Sunday afternoons January through March with games being played at the Community Center.

In addition to our leagues, through coordination and cooperation from the school administration, Open Basketball and Volleyball for adults was offered. Over-35 Basketball was held on Friday evenings at Nottingham West Elementary School and volleyball was held on Monday evenings at Memorial School in the multi purpose room. Open Basketball for 18 –34 is played Sunday evenings at the Community Center. All open sessions were very popular and well attended.

Men's and Women's Softball is very popular with eight teams in the Men's League and four teams in the Women's League. Games are played at Jette Field, Monday through Thursday evenings, May through August. These leagues were directed by two separate directors. Cindy Holton directed the women's league and I directed the Men's League.

The Babe Ruth Baseball Program continues to run smoothly under the direction of third year Director Tom DeAngelis. Attendance has remained steady with a total of 120 boys from ages 13-15 participating. The boys competed in the 13 Year Old Prep League, 14/15 year old program. In addition a Senior Babe Ruth team for 16-18 year olds was formed for the first time in a few years.

The Summer Supervised Play Program is still a popular program. A total of 575 children participated, with approximately 260 children attending daily. In addition to the entire summer registration fee, a ten-day passbook continues to be offered for the occasional visitors. 130 participants took advantage of this option. This program is truly fortunate to have the use of the Community Center. The facility allowed for increased programming on days with inclement weather and much needed additional space for our routine daily operations. The program was excellently directed by second year Director Kim Malley. Continued daily check-in and check-out of all attendees permits us to be more accountable for the children that were dropped off and picked up each day. A major change was made in supervision during field trips. With changes in society and protection of children, the counselors were grouped in twos this year. Thus, there were two adults to 16 – 22 children. The staff of 17 full time counselors and 4 part time counselors-in-training provided outstanding supervision and showed great enthusiasm in providing many enjoyable activities for the children. Prior to opening day the staff attended training sessions and completed first aid/CPR training that was instructed by members of the Hudson Fire Department. New bean bag chairs were purchased for the enjoyment of the many participants. Each week the children participated in planned daily activities such as arts and crafts, board games, ping pong, pool, basketball, four square and numerous contests. For an additional fee, Wednesday pizza/subs/cookouts, weekly roller-skating and field trips were offered. Supervision during lunch hour continued to be a positive part of the daily program. Another positive aspect was the Teen Adventure Program. The purpose of the Adventure Program was to meet the interests of the teens attending the program; separate activities and field trips were planned. In addition, a separate teen area was reintroduced. The purpose of this was to give the teens ages 12 – 14 some independent space. Robinson Pond Day continues to be

every Friday, weather permitting. Participants were dropped off and picked up at Robinson Pond. A certified lifeguard is on duty during our weekly visits to the pond.

Instructional Tennis continues to be extremely popular. This totally self-funded program was taught in basic and advanced skills to children and adults. Due to the popularity of the morning sessions, lessons were offered exclusively in the mornings. Both courts were used at Dr. H.O. Smith School with two instructors, Allison Shupe and Lisa Terwilliger, each conducting lessons to two separate groups. Both instructors showed outstanding enthusiasm, patience and instruction in the sport of tennis. This program is offered in conjunction with the Supervised Play Program.

Under the direction of first year Director Steve Porter, even though the Assistant Soccer Director position was not filled, the program ran extremely smooth. This is another popular program with 470 participants ranging from five years old through eight grades. Games were played every Saturday from August through October. Numerous positive comments were received from coaches and parents about the management of the league. They had many new ideas that greatly improved the league. Outstanding comprehensive handouts were provided to the coaches for reference during the season. Freedom Field continues to be used for the five year old through second grade program. Following the regular season, playoffs were held in the 5th – 8th grade division with trophies presented to the championship and runner-up teams. A jamboree is held for the 3rd and 4th grade division with all participants receiving a medal. In addition, all participants in the kindergarten through 2nd grade division receive a participation award.

DEPARTMENT NEEDS

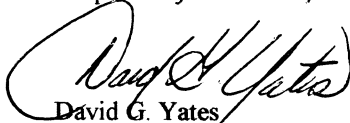

As in previous reports, two areas of concern as the town continues to grow are facilities and manpower. The use of the Community Center for recreation activities continues to be a step in the right direction and a major asset to our programs. Although improvements continue to be made to current facilities, it is clearly evident more than ever that the town must add more facilities as the population continues to grow. A continuing problem is the lack of field space.

Additionally, manpower is still an issue. A full time Program Director is needed. Currently this department has a full-time Recreation Director and several individual Program Directors which are hired season by season. By consolidating all the seasonal Program Directors into one full time Program Director this will streamline duties and add continuity and accountability to this position and allow for our expanding programs.

SUMMARY

I would like to thank the Board of Selectman and Recreation Department Liaison Roger Coutu for their continued support and guidance. I appreciate the outstanding help Kevin Burns and the Highway Department crew has given this department throughout the year. Their expertise in the maintenance of our parks and playing fields is outstanding in giving the residents a safe and clean environment for leisure activities. Thank you to Wayne Madeiros for his constant maintenance and improvements to the Community Center and assistance with numerous Recreation Department projects throughout the year. Thank you to all other town departments that have assisted and supported me throughout the year and the Recreation Committee for their continued assistance and volunteerism as we all work together to enhance the quality of life and morale for the residents of Hudson. The biggest thank you goes to the numerous volunteers that give their valuable time and assistance throughout the year. The Recreation Department could not succeed without their generous effort.

TOWN OF HUDSON

Board of Selectmen

Recycling Committee

12 School Street Hudson, New Hampshire 03051 603/886-6024 FAX 603/598-6481

Recycling Committee 2008 Annual Report

The Recycling Committee is a volunteer program sponsored by the Board of Selectman. Committee members are appointed by the Board for a term of three years. The current members of the committee are Leo Bernard, Chairman; Ted Luszey, Vice-Chairman; Connie Owen, Frank Rosier and Richard Sevigny. The committee's charge is to promote the practice of recycling within the town and to educate the community to the benefits of recycling in terms of cost and environmental impacts.

The committee meets the last Monday of every month at 6:00 p.m. at Town Hall. Meeting minutes are posted on the town's web site at <http://www.ci.hudson.nh.us>. The monthly meetings are open to the public and all are welcome to attend and provide input to the committee.

During this past year, the committee has seen many changes and has accomplished much. The committee, which was brought together in early FY08, developed/established the following goals:

- Advertise for new membership and grow the committee.
- Create a schedule of regularly scheduled meetings, including meeting space.
- Create a set of materials the committee can use to display at public functions for the purpose of educating the community.
- Select a number of public forums to attend and display marketing materials and "give-a-ways."
- Collect and monitor solid waste-to-recycle ratio and set goals reflecting where the committee would like the town to be.
- Provide feedback to Board of Selectmen in a timely manner.
- Publish a year end report to the Board of Selectmen, capturing FY08 work and FY09 objectives.

With these goals established, the Committee is pleased to report the following accomplishments for FY08:

- Richard Sevigny was welcomed to the committee, as the newest member.
- The meeting schedule was developed with monthly meetings which are open to the public, and the minutes are posted on the town's web site.
- Goals were established – a first for this Committee. Monthly action items were assigned and tracked.
- The committee selected a number of events to attend in order to promote and educate residents on recycling, including Old Home Days, town and school deliberative sessions, March elections and April town cleanup.
- To support these functions the committee created a "marketing table." Items which were created in support of this effort were a coloring book to give away to children and a blackboard displaying the recycle message. A number of items were collected by committee members to either display or to give away to enforce the recycle message. These items include recycling guides provided by Corcoran Environmental Services, a miniature recycling truck for table display and recycling stickers.

FY08 was a very productive year for the committee. Although it got off to a rough start, the team pulled together and quickly moved in the direction the Board of Selectmen set. Overall, it appears recycling is having a positive effect on the budget, with a savings of more than \$300,000 in FY08 alone. Realistically, the team understands that some, if not all, of these savings may be attributed to the new solid waste contract, which limits the amount of waste households can dump on a weekly basis. The main goal for the Recycling Committee in the upcoming year will be to continue to focus efforts to reduce the amount of solid waste and increase the recycling component.

The following are the committee's goals and objectives:

- Continue to promote recycling in Hudson.
- Actively consider other ways to promote the recycling message effectively and efficiently.
- Along with the Road Agent, Corcoran Environmental Systems and Pinard Waste Systems, promote single stream recycling.
- Evaluate the performance of the town's recycling efforts with monthly statistics provided by Pinard and Corcoran and review current contract, as time moves forward to time to renegotiate.
- Emphasize the importance of recycling for a better environment.
- Recruit and enroll new active members to fill open slots on the committee.
- Maintain collaborative working relationships with the Board of Selectmen and the Road Agent.
- Develop an appropriate operating budget for committee activities.
- Obtain and publish monthly statistics on recycling and trash volumes, with associated dollar figures.
- Report to the residents on a regular basis, via HLN and the HCTV web site, the progress/challenges of the recycling system.
- Continue to reinforce the benefits recycling through educational and promotional programs, including Drama Kids, seasonal promotional items on the HCTV website, appearances at appropriate town events, coordinate school-based programs, improve display items, distribute coloring books, development of new educational materials, etc.
- Pursue incentives for cooperating residents -- reusable bags, gift certificates, etc.
- Report to the Board of Selectmen annually or, hopefully, semi-annually.
- Accountability for goal achievement within the committee--sharing responsibility/accountability.
- Clarification of issues, such as Styrofoam, etc., to keep town brochure current and accurate.

The committee thanks the public for their successful efforts in recycling and the cooperation they've shown in helping to make this new program work.

Respectfully submitted,

Leo Bernard

Leo Bernard, Chairman

TOWN OF HUDSON

Sewer Utility Department

12 School Street, Hudson, New Hampshire 03051

603-886-6029

SEWER UTILITY REPORT 2008

This year found the Sewer Utility again running smoothly. The number of users remains at about 5,000. The systematic update of the existing system continued with projects on Andrews Avenue and Edger Court. The work was ably done entirely by our Highway Department. As usual, they coordinate sewer replacements with planned street rebuilding.

The system's use of about 1.5 million gallons per day is approaching our allocated capacity of 2.0 million gallons per day at the Nashua Wastewater Treatment Plant. It does not appear as if any increase in the Nashua plant is on the horizon. This means that increased capacity will come from reducing "inflow and infiltration" into the system. Inflow is water entering the system by other than authorized means. Infiltration is groundwater that seeps into the system via leaks in the sewer pipes. Infiltration has been reduced over the years with the systematic update of sewer lines.

The possibility of a large industrial user of water and sewer coming to town prompted an ongoing study of industrial use of allocated capacity. Several industrial users are now using much less of their allocated capacity which could be reallocated to new users.

An interesting partnership between the Water Utility, the Sewer Utility and the Ottarnic Pond Cooperative resulted in the connection of the Ottarnic Pond Cooperative to the sewer system. The Water Utility and the Sewer Utility loaned money to the Cooperative which was augmented by a CDBG grant. The loans will be paid back through betterment fees. This project prevents failing septic systems within the co-op from polluting Ottarnic Pond.

The town engineer, Tom Sommers resigned this year. As the Sewer Utility Coordinator, his wealth of experience is sorely missed. Acting Town Engineer Gary Webster now fills the role of Sewer Utility Coordinator. The Ottarnic Pond project fell into Gary's hands and kept him busy through the summer and fall. The Sewer Utility is grateful for Gary's effort.

The Sewer Utility is also grateful for the efforts of Donna Staffier-Sommers as the Sewer Utility's Administrative Aide and to Jess Forrence and his crew in keeping the Utility running smoothly.

Respectfully submitted,

William B. Abbott
Chairman
Sewer Utility Committee

SUPERVISORS OF THE CHECKLIST 2008 ANNUAL REPORT

The Board of Supervisors of the Checklist consists of three elected non-partisan members. Each serves a 6-year term. A chairperson, secretary, and member make up the Board. Duties of the Supervisors include receiving and approving new voter applications, making changes to the list, preparing the checklist for voting, and all the clerical activities associated with the position. Also, a majority of Supervisors must be present at the polling place.

The Supervisors are governed by the NH election laws, as administered by the Secretary of State. The Supervisors are asked to attend numerous informational sessions on State Election Law and training classes which teach the protocol for using the state-wide data system including Certification in NH Election Law. Some of us have taken advantage of this specific training.

In 2002, "The Help America to Vote Act" (HAVA) was passed by Congress and Election Net was created as a computerized data base, statewide, which contains a valid list of voters, along with their voting history. Election Net went on line statewide in 2006. This required Supervisors to acquire computer skills to manage the voting records in their towns.

The past year was a busy time for Election Officials. We had 4 Elections; two of which were hotly contested and brought in a large volume of new voters.

We look forward to 2010 when we will complete the required 10 year purge to remove voters who have been inactive in voting during this period and have not responded to requests of their whereabouts.

Below are some figures as to additions to the Town of Hudson checklist up to Dec 31, 2008:

January 8 Presidential Primary	New Voters-	954	Same Day Registration
Annual Town Election	New Voters -	24	Same Day Registration
N.H. State Primary	New Voters-	30	Same Day Registration
Presidential Election	New Voters-	1,249	Same Day Registration
Town Clerk	New Voters -	1,175	Random
<hr/>			
Total New Voters 3,293			

As of December 31, 2008, the official checklist contains 16,085 registered voters in the Town of Hudson.

Respectfully submitted,

Joyce Cloutier, Chairperson - 1986 to present

Sandra L. LeVasseur, Secretary- 1974 to 1986, 2006 to present

Julieta Stone, Member – 2007- present

TOWN OF HUDSON

Town Clerk/Tax Collector's Office

12 SCHOOL STREET HUDSON, NH 03051 (603) 886-6003

I am pleased to present the Annual Report for Fiscal Year 2008 for the Town Clerk/Tax Collector's Office. This department is responsible for the collection of property taxes, motor vehicle registrations, vital (birth/marriage/death) records administration, dog licensing, voter registration, as well as conducting town and state elections as governed by the laws of the State of NH.

In Fiscal Year 2008 we welcomed a change to our motor vehicle program with the implementation of the state-mandated Municipal Automated Agent Program (MAAP). This program allowed us to improve our motor vehicle services to the residents by giving us a direct connection to the State DMV. MAAP now allows us to register heavier vehicles (up to 26,000 lbs, residents previously had to go to the state DMV offices), provide many different types of plates (including vanity plates and farm plates), as well as the ability to obtain duplicate registrations. This state program is still in the early stages of implementation and as each phase of the program is released by the State, our services will continue to increase.

Another change that was made during Fiscal Year 2008 was the addition of regular evening hours. The trial hours of the first and last Thursdays of the month first established in the Fall of 2007 was initially well received. However, we found residents still had difficulty arriving in time after the evening commute. In June, we changed our evening hours to include every Thursday evening until 7:00pm, with much greater success.

In April, the Town Clerk/Tax Collector's Office bid farewell to our long-time Deputy Barbara Locke, the last planned retirement of the original staff. We wish her well as she enjoys her retirement in the State of Georgia. Donna Melanson was appointed as the new Deputy Town Clerk/Tax Collector. Her vast knowledge of the motor vehicle requirements for the State of New Hampshire has been a true asset to this department during the transition of this office. Barbara's retirement left an open clerk's position, for which we received 35 applicants. We are very pleased to welcome Diane Morrisette to our office. Her municipal experience with the Town of Pelham, along with her outgoing personality, is a welcome addition to our friendly staff of Chris, Pam and Donna.

Our goals for the new fiscal year are to improve customer service and to continue to research online credit card payment programs for motor vehicle renewals, dog licensing and property taxes. This form of online payment is fairly new for New Hampshire municipalities and more research is needed to find a vendor that adequately meets the needs of our residents while protecting the private information contained in these files.

I would like to thank the Board of Selectmen, Town Administrator and the various Town Departments for their continued support. I would also like to thank the dedicated employees of this department and the residents of Hudson for your continued patience and understanding during the many changes our office has endured.

Respectfully submitted,

Patricia Barry
Town Clerk/Tax Collector

A True Copy Attest: Patricia Barry
Patricia Barry, Town Clerk

TOWN OF HUDSON ANNUAL TOWN MEETING Deliberative Session February 2, 2008

1. CALL TO ORDER BY THE MODERATOR.

Town Moderator Paul Inderbitzen called this Deliberative Session to order at 9:04 a.m., February 2, 2008, at the Hudson Community Center, with approximately 120 persons in attendance at that time.

2. POSTING OF THE COLORS

The Hudson Police Department's Color Guard posted the colors.

3. NATIONAL ANTHEM

Police Sgt. Charles Dyac sang the National Anthem.

4. PLEDGE OF ALLEGIANCE

Board of Selectmen Chairman Shawn Jasper led the assembly in pledging allegiance to the flag of the United States of America.

5. INVOCATION

The Reverend David Howe led the assembly in an opening prayer.

6. REMARKS BY THE MODERATOR

Moderator Inderbitzen reviewed the procedures by which he would run the meeting, stating that he would have each article presented by a selectman, or by a member of the Budget Committee in the case of the budget, or by a petitioner in the case of a petitioned article, with brief remarks, after which he would open the article to the floor for questions, comments, or amendments—noting that he would start with Article 6, as the first five pertained to the election of officers or to zoning and could not be changed on the floor. He clarified that the body could change the wording, or change the intent a bit, but could not change the subject matter, noting that motions to amend would require a second. He said he would close the article after any such discussion was concluded, as the articles must appear on the ballot and there would be no need for the body to vote on each article. He noted that members of the body subsequently could move to reconsider an article, unless a motion was made, seconded, and passed to restrict reconsideration. He then explained that votes would be made by citizens holding up the red voting cards, meaning that there was no need to restrict visitors to a specific section of the meeting rooms and there would be no need to have a motion to allow non-residents to be seated on the floor, as had been done in the past.

7. INTRODUCTION OF THE BOARD OF SELECTMEN

Moderator Inderbitzen asked Board of Selectman Chairman Shawn Jasper to introduce the members of the Hudson Board of Selectmen, including Richard J. Maddox, Kenneth J. Massey, Benjamin J. Nadeau, and

Douglas Robinson, as well as Town Administrator Steve Malizia and Finance Director Kathy Carpentier, also seated at the head table.

8. INTRODUCTION OF BUDGET COMMITTEE MEMBERS

Moderator Inderbitzen asked Hudson Budget Committee Chairman Howard Dilworth, Jr. to introduce members of that committee, including Steven Nute, Arlene Creeden, Sandra Rumbaugh, Richard Nolan (School Board Representative), Diana Kroner, Joyce Goodwin, Charlotte Schweiss, Robert Haefner (Clerk), and Thaddeus Luszey (Vice-Chairman)—adding that the Budget Committee also had other members not seated at the table, including Shawn Jasper (Selectmen's Representative) Ben Nadeau (Selectmen's Alternate Representative), and Gary Rodgers (School Board Representative Alternate).

9. RECOGNITION OF HUDSON'S LEGISLATIVE DELEGATION

Moderator Inderbitzen recognized members of Hudson's Legislative Delegation who were present, including Sen. Robert E. Clegg, Jr. and Representatives James Knowles, Mary Ann Knowles, Lynne Ober, Russell Ober, Lars Christiansen, Andrew Renzullo, and Jordan Ulery.

10. INTRODUCTION OF STAFF/OTHERS/SEATING OF NON-RESIDENTS

Moderator Inderbitzen introduced other members of the Town staff present, including Patti Barry (Town Clerk), Richard Gendron (Chief of Police), Shawn Murray (Fire Chief), Donald Breault (Police Captain), David Yates (Recreation Director), Jim Michaud (Assistant Assessor), Lisa Nute (Information Technology Director), Kevin Burns (Road Agent), Sean T. Sullivan (Director of Community Development), John Cashell (Town Planner), and Town Attorney Stephen Buckley.

11. DELIBERATIVE SESSION OF TOWN MEETING

Moderator Inderbitzen requested Board of Selectmen Chairman Shawn Jasper to return the warrant to the Town Clerk, noting that Article 1 pertained to election of Town Officers and Articles 2 through 5 were zoning amendments, which would not be dealt with at this meeting but would be decided by the voters at that Town Election on March 11th.

Article 6 — Senior Center Addition to the Community Center

Shall the Town of Hudson raise and appropriate the sum of \$964,902 for the design and construction of a Senior Center addition to the west side and adjacent to the Hudson Community Center, and authorize the issuance of not more than \$964,902 of bonds or notes in accordance with the provisions of the Municipal Finance Act (RSA Chapter 33) and authorize the Board of Selectmen to issue and sell such bonds or notes and to determine the rate of interest thereon and, further, raise and appropriate the sum of \$27,404.44 for the purpose of paying the 2008-2009 bond issuance cost and interest on said general obligation bonds or notes; and furthermore, to raise and appropriate the sum of \$9,700 for the operating cost of the addition for 2008-2009? (This appropriation is in addition to Article 10, the Operating Budget.) (3/5 ballot is required.) The projected operating cost for the first year after construction would be an estimated \$53,000.

(Not Recommended by the Board of Selectmen.)

(Not recommended by the Budget Committee.)

Moderator Inderbitzen noted that this was a petitioned bond article, and he recognized Mr. Andrew Renzullo, 2 Heritage Circle, who identified himself as the former chairman of the Hudson Senior Council on Aging. Mr. Renzullo discussed the background of the article, expounding on the charge that had been given by the Selectmen in March 2006 to a seven-member Older Persons Advisory Council, consisting of four citizens plus representatives from the Board of Selectmen, the Budget Committee, and the Recreation Committee, resulting in the subsequent creation of a building committee to work with an architect to create a plan and a proposal,

with a selectman and the Town Engineer serving on that committee. He noted that the Selectmen in November 2007 had refused to file an article to build the building, so this petitioned article had been submitted by citizens in December 2007. He reviewed the scope, noting that the scope given to the committee had included such items as that the building should be able to accommodate 150 people, be in compliance with the American Disabilities Act (ADA), and provide plans reflecting a total cost of \$964,902. He then noted that there were significant setoffs that could reduce this cost, including avoidance of a \$75,000 charge for winter construction by not building in the wintertime, a \$90,000 contingency estimate, and a pledge of \$200,000 toward the project by the seniors group, with all furnishings and landscaping to be supplied by donations by the seniors and the Council on Aging.

Mr. James Stafford-Rogers, 87 Burns Hill Road, identified himself as the current chairman of the Council on Aging and a member of the building committee for this project. He said the proposal complied with all the requirements of the scope of service with which the committee had been charged, noting that the scope had stated that the Senior Center and the building committee should choose the preferred option of the three plans developed by the architect. He reviewed details of the proposed building, noting that the addition would be attached to the Community Center through a portico. He said the reason for selecting this plan was that a direct attachment would require \$1,400,000 to renovate the existing building to make it ADA compliant, including complete replacement of the existing kitchen and bathroom facilities, as well as reducing future considerations for the existing building. He discussed the 41,000-ft² space requirements of the seniors group, as determined by Fire Department requirements, noting that the building dock of the existing building was pulling away from the building, and he then outlined the various activities of the seniors group to illustrate why additional space was needed. He contended that the loss of parking spaces was a non-issue, as there was space on the PSNH easement for up to 150 parking spaces, with additional parking spaces available across the street from the Community Center. Saying that the more realistic price of \$599,000 because of the setbacks might be lowered even more when contractors bid on the job, he stated that the fiscal impact would be an increase of 4¢ to 5¢ per \$1,000 for ten years, or 7¢ to 8¢ per \$1,000 for five years, saying this would add \$15 per year to an average homeowner with a home valued at \$300,000 for the 10-year plan, or \$25 per year for the 5-year plan.

Moderator Inderbitzen opened the discussion to the floor.

Mr. John Drabinowicz, 8 Deerfield Avenue, spoke in favor, contending that a promise had been made to the seniors for the past 20 years and urging the Board of Selectmen to change its recommendation to be in favor of the article.

Selectman Shawn Jasper, 83 Old Derry Road, said no promise had been made to the seniors last year and that the selectmen had never been given an opportunity to study the other options. He said the charge to the building committee had been to determine the feasibility of adding to the existing building, and he claimed the answer should have been that it was not feasible. He noted that something that kept coming up in discussion was that the money taken from the capital reserve fund to purchase this building had belonged to the senior organization, which was a private group—saying that was not true, as the money had been aside by the Town, using Town tax funds, for the purpose of creating a senior center, and the money was used for the purpose for which the townspeople thought appropriate at that time. He said the Board of Selectmen of that time had told the seniors group that it could use this building three days a week, but a later Board of Selectmen had taken those three days away for the nine weeks of summer needed for recreation activities—noting that 50 seniors used the facility on a regular basis during the year but that 300 to 400 children needed it during the nine weeks of summer. He credited part of the problem to a lack of clear understanding of agreement, questioning what the expectations would be for the \$200,000 being pledged by the private seniors organization, and saying the contractual obligation needed to be worked out before moving forward. Addressing the parking issue, he noted that the youth recreation activities were using the sand lot now, questioning what the impact would be if that area were paved. He concluded by saying the details had to be worked out before proceeding, adding that the Board of Selectmen had required the library to go through the full planning process and that it would be nonsensical to exempt a building being constructed for the benefit and use of a private organization and a specific segment of the population.

Mr. John Cesana, 20 Beechwood Road, spoke in favor, saying the seniors needed to have a place to go.

Selectman Kenneth Massey, 20 Fairway Drive, said he had not planned to speak, as he had been on the losing side of the vote not to put the article on the warrant, but he felt a need to clarify some things mentioned this

morning. He said this building had been purchased from the Lions' Club for about \$300,000, with the money in the capital reserve fund for a seniors center at that time amounting to approximately \$80,000, noting that he had been a member of the Board of Trustees of the Trust Fund at that time. He stated that there had been a written agreement between the Board of Selectmen and the Trustees of the Trust Fund, with the Trustees asking the Selectmen to vote on a specific set of stipulations, with one of those stipulations being that a dispassionate observer would recognize the building as a seniors center. He then noted that the seniors had been told from the beginning that this would be a public building and would be used by other groups when the seniors were not using it—adding that the seniors would not be the owners of the proposed building and would not be the ones who determined how and when it would be used when there was no senior activity happening, which would be the responsibility of the Board of Selectmen. He said it was intended that the building should go before the Planning Board, but the Revised State Statutes exempted municipalities from the zoning process. He then concluded by stating that it had always been his understanding that the building committee would bring back a plan to the Board of Selectmen by November 2007 in order to meet the Budget Committee schedule, with the understanding that the selectmen could say yes or no.

Mr. James Battis, 6 Potter Road, asked if the chairmen of the Board of Selectmen and the Budget Committee would let the citizens know what the vote was for the recommendations. Selectman Jasper said the Board of Selectmen had voted two in favor, three opposed. Mr. Dilworth said the Budget Committee had voted two in favor, seven opposed.

Ms. Lynne Ober, 3 Heritage Circle, stated that the minutes for the Selectmen's meeting stated that the vote had been two in favor, two against, and one abstaining. Selectman Jasper replied that the vote she was citing had been the vote to put the item on the warrant, but the later vote had been 2–3 for recommending the article.

Mr. James Stafford-Rogers, 87 Burns Hill Road, said the Board of Selectmen's vote for the scope of work for the building committee had been unanimous, and that the scope had stipulated that there would be two or three concept plans for the extension, with the selection of the plan to be through the building committee, with a member of the Board of Selectmen included on that building committee. He declared that the Board of Selectmen knew the contents of the minutes for every meeting of the building committee, adding that there had been nothing about feasibility, with the building committee to select one plan of three.

Mr. Howard Dilworth, Jr., 15 Sycamore Street, stated that the Budget Committee had voted 2–7 after evaluating what was presented to the Budget Committee, noting that no one had come before the Budget Committee to present the petitioned article, so the decision was made with no proposal being presented. He said the Selectmen's Office had provided copies of the plans, which had shown a totally standalone building off to the side of the current building, rather than an addition, as voted on last March. He further noted that nothing had been said in the preceding presentation about maintenance costs, operating costs, or the payment of activities to the Water Utility, the Sewer Utility, or the impact fees on the roads.

Selectman Douglas Robinson, 16 Cardinal Drive, noted that he also had been on the losing side of the vote to recommend the article. He then reviewed minutes of applicable Board of Selectmen meeting, stating that Selectman Massey had suggested at the May 22nd meeting that he meet with the seniors and come back with a detailed list of the needs and how the addition would fit on the Community Center, with the consensus being in favor. On June 25th, he continued, a motion had been made and passed unanimously that Selectman Massey continue with that process to obtain an RFP, with the stipulation that the addition would accommodate 100 people rather than 200 people. On July 24th, he continued, a motion to advertise for proposals to determine the feasibility and costs to construct an addition to the Community Center for a seniors activity center had carried unanimously. On August 28th, he continued, the Board had unanimously passed a motion to award the contract for authorized services to determine the feasibility and estimated costs to build a senior center addition to the designated architect and to authorize the chairman of the Board of Selectmen to sign a contract. On November 13, he continued, things broke down with questioning about the commercial kitchen, resulting in a 2–3 vote—adding that it was his understanding that Selectman Maddox had voted against it because of the location, Selectman Jasper had voted against it because of parking concerns, and Selectman Nadeau had voted against it because he thought it was too much money.

Ms. Cheryl Stafford Rogers, 87 Burns Hill Road, spoke in favor, saying it was time for the seniors to be able to start work for a home of their own.

Mr. Jordan Ulery, 37 Webster Street, spoke in favor, saying process was important but exceptions should be made when something good came along. He noted that the selectmen had been discussing this for years, voting both for it and against it, but that what the issue came down to was whether the town wanted to spend nearly a million dollars to build an addition to this building that could be dedicated to the seniors. He noted that the estimated impact was \$15 a year on the taxes, with the actual cost possibly being much less than that. He then suggested that the citizens should be allowed to make the decision as to how much money they were willing to spend, and he suggested that the Board of Selectmen and the Budget Committee should change their recommendations to be in favor.

Ms. Lucille Boucher, 5 Jackson Drive, said the seniors were a club, saying most seniors organizations started out as clubs and then joined their towns. She said the seniors were donating \$200,000 because they wanted to be part of the town, adding that they eventually wanted to be a department, like other senior centers. She stated that most of the activities in this building had been senior activities, run by volunteers, not things provided by the Town, and she expressed a hope that everyone would vote for this article. She then added that she had a letter written by former Town Administrator Paul Sharon saying the seniors group could use the hall two days a week.

Mr. Lars Christiansen, 1 Stonewood Lane, compared the proposed construction with a proposal for work to be done at the Library Street School and its parking shortage, saying the engineers on the two projects ought to work together. He said he wanted to see a senior center but wanted it done as economically as possible.

Mr. Robert Clegg, 39 Trigate Road, spoke in favor of the warrant article, saying the seniors should be given a chance to go before the voters, and he urged the Board of Selectmen and the Budget Committee to change their votes, or even to let it go forward with no recommendation. Moderator Inderbitzen pointed out that the article would go on the ballot, by law.

Ms. Alida Weergang, 2 Old Derry Road, spoke in favor.

Selectman Richard Maddox, 323 Fox Run Road, said he would apologize for not following through on some of the details provided by the study committee, but he had looked at it as a proposal for a new kitchen and offices when there were already a kitchen and offices in the existing building. He expressed a belief that the people present were getting into emotions and not into the details, saying there were a lot of items still needing to be worked out. He said he believed a place was needed for the seniors but that it would be a mistake to put a million-dollar building for the seniors on the other side of the wall and not deal with this existing building, and that it made no sense to try to have the recreation activities go on in this building while the other was occupied by seniors. He said more thought needed to be put in, with details worked out.

Ms. Rhona Charbonneau, 2 Old Derry Road, spoke in favor of a senior center, commenting on the needs of the seniors, and noting that the seniors had to work from tables and did not even have room for a pool table. She noted that the Meals On Wheels program might eventually expand to four days a week, and she asked that the people of Hudson be allowed to decide, not just five people, and it was time to do something for the seniors.

Mr. Thaddeus Luszey, 178 Derry Road, moved the question. Moderator Inderbitzen said he would delay accepting that motion until the two people standing in line at the microphone had been recognized.

Selectman Shawn Jasper, 83 Old Derry Road, said the people would decide, but the Board of Selectmen and the Budget Committee owed to the people of the town their best judgment as to whether or not this was a good thing to do. He stated that the town attorney had just confirmed to him that there was not an automatic exemption from zoning for municipal projects, adding that the Selectmen had told the Library group to go through the full process, and he questioned why this project should be any different. He then suggested that it had been implied that the Town would be second in line, after the seniors, for use of the Town building; he said this should be determined. He pointed out that Selectmen Robinson had kept saying "feasibility," "addition," and "cost" in quoting from the minutes, and he contended that the intent had been to have an addition and to bring this existing building into compliance at the same time. What ended up, he said, was not an addition, saying he had made it very clear at the meetings that it should fit in a certain area and confines, adding that the Selectmen had made it clear what they were looking for and the warrant article had given parameters as to how far they could go, and a separate standalone building that had nothing to do with this building was not ever part of that. He then concluded by stating that the cost to run the building had been estimated by the architect to be \$53,000 a year.

Mr. James Stafford-Rogers, 87 Burns Hill Road, said the process with the architect had resulted in three plans, from which the committee had selected the one being proposed. Another one, he said, had been for an addition as described by Selectman Jasper, running along the west wall for 100 feet, while another had run for 40 feet. He said the selected plan connected through a 12-foot portico, allowing this existing building not to be made into a \$1,300,000 or \$1,400,000 boondoggle. He said the committee had put 20 information packages together, including a financial package telling on how much it would cost to paint the building, how much the air-conditioning would cost, how much the heater on the roof would cost, and even how much the tile on the floor would cost—adding that this was not a standalone building. He said all those information packages went forth to the Selectmen and the Budget Committee, including every aspect of that building. He said the word “feasibility” had not appeared anywhere in the process, adding that what was given to the architects had said “construction,” “an addition,” and “renovation.”

Moderator Inderbitzen said he would now accept Mr. Luszey’s motion to call off debate. Mr. James Battis, 6 Potter Road, seconded the motion. A gentleman on the floor called for a point of order, saying he wished to speak, first. Moderator Inderbitzen demurred, saying he had previously stated he would accept Mr. Luszey’s motion after the two people waiting to speak had spoken—pointing out, however, that the body could vote against the motion if they wished the debate to continue. Moderator Inderbitzen then called for a vote on the motion, asking first for all those in favor to hold up their voter cards and then asking all those against to hold up their cards, after which he declared that the majority of those voting had voted in the negative, so debate could continue.

Ms. Joyce Cloutier, 6 Clifton Street, asked what would make this private senior group part of the Town, so that it would not be a private group anymore. Moderator Inderbitzen asked for a response from the Board of Selectmen. Selectman Jasper said the Board of Selectmen could create a Senior Committee, or an organization of some such name, and appoint members to that, much as was done with the Recreation Committee, and that committee would then report to the Selectmen, with the Board of Selectmen ultimately being the controlling authority for issues such as this.

Mr. Lee Lavoie, 58 Windham Road, urged that this situation not be made into a battle between the seniors and the recreation center. He expressed a belief that this was the best time to build something for the seniors, noting that there were no other new bonds out right now. He said that probably 50 parking spots were used up across the street at elections by candidates representatives, suggesting that a way be found that they did not have to use that space, so that voters could park there, and he urged everyone to vote for a senior center.

Ms. Lorice Sullivan, 12 B Street, spoke in favor, saying she concurred with all the previous speakers. She then stated that the seniors thought this was an ideal central location.

No one else coming forward, Moderator Inderbitzen closed off the discussion on Article 6, saying he would take a short recess at this time.

Mr. Andrew Renzullo, 2 Heritage Circle, moved to restrict reconsideration. Mr. John Drabinowicz, 8 Deerfield Avenue, seconded the motion. Moderator Inderbitzen called for a vote on the motion, asking first for all those in favor to hold up their voter cards and then asking all those against to hold up their cards, after which he declared that the majority of those voting had voted in the affirmative and Article 6 was restricted.

Moderator Inderbitzen then declared a 15 minute recess at 10:50 a.m., calling the meeting back to order at 11:08 a.m.

Article 7 — Multi-Year Contract for Hudson Police, Fire and Town Supervisors Association

Shall the Town of Hudson approve the cost items included in the collective bargaining agreement reached between the Town of Hudson Board of Selectmen and the Hudson Police, Fire and Town Supervisors Association, which calls for the following increase in salaries and benefits:

<i>Year</i>	<i>Estimated Amount</i>
7/1/08 - 6/30/09	\$77,217
7/1/09 - 6/30/10	\$76,074

<i>Year</i>	<i>Estimated Amount</i>
7/1/10 - 6/30/11	\$69,752

and further to raise and appropriate the sum of \$77,217 for the 2008-2009 Fiscal Year, said sum representing the additional costs attributable to the increase in salaries and benefits over those paid in the prior Fiscal Year? (This appropriation is in addition to Article 10, the Operating Budget.)

(Recommended by the Board of Selectmen.)

(Recommended by the Budget Committee.)

Selectman Douglas Robinson presented Article 7, reporting that the Selectmen's vote to recommend had been 4-1.

No questions, comments, or amendments being brought forward, Moderator Inderbitzen declared the discussion to have ceased on Article 7, saying he would move on to Article 8.

Article 8 — Wage and Benefit Increase for Non-union Personnel

Shall the Town of Hudson raise and appropriate the sum of \$24,379 which represents a 3.0% increase in wages and benefits for the following non-union positions: Town Administrator, Police Chief, Fire Chief, Community Development Director, Road Agent, IT Director, Finance Director, Recreation Director, and Executive Assistant? (This appropriation is in addition to Article 10, the Operating Budget.)

(Recommended by the Board of Selectmen.)

(Recommended by the Budget Committee.)

Selectman Jasper presented Article 8, stating that this article covered the nine non-union personnel working at Town Hall and was consistent with the increases given to the union personnel.

Mr. James Battis, 6 Potter Road, noted that the previous warrant article had not mentioned a percentage of increase, and he asked if the increases in that article had also been comparable to the 3% increase. Selectman Jasper said the annual percentages in that article were 3% but that there were some step increases for some personnel who had not reached the top of their steps, whereas there were no steps in this present article.

No questions, comments, or amendments being brought forward, Moderator Inderbitzen said he would close the discussion on Article 8 and move on to Article 9.

Article 9 — Wage and Benefit Increase for Full Time Library Employees

Shall the Town of Hudson raise and appropriate the sum of \$11,512 which represents a 3.0% increase in wages and benefits for the full-time employees of the Hills Memorial Library? (This appropriation is in addition to Article 10, the Operating Budget.)

(Recommended by the Board of Selectmen.)

(Recommended by the Budget Committee.)

Selectman Jasper presented Article 9, stating that this article provided the same 3% increase and was consistent with all other raises for full-time personnel.

No questions, comments, or amendments being brought forward, Moderator Inderbitzen said he would close the discussion on Article 9 and move on to Article 10.

Article 10 — Operating Budget

Shall the Town of Hudson raise and appropriate, as an operating budget, not including appropriations by special warrant articles and other appropriations voted separately, the amount set forth on the budget posted with the Warrant or as amended by vote of the first session, for the purposes set forth therein, totaling \$26,505,455? Should this article be defeated, the default budget shall be \$27,187,616 which is the same as last year, with certain adjustments required by previous action of the Town of Hudson or by law; or the governing body may hold one special meeting, in accordance with RSA 40:13, X and XVI, to take up the issue of a revised operating budget only.

(Recommended by the Board of Selectmen.)

(Recommended by the Budget Committee.)

Budget Committee Chairman Howard Dilworth, Jr., presented Article 10, discussing the process by which the budget had been developed, including review of items at successive Budget Committee meetings, the following wrap-up discussion, and the public hearing on the budget. He noted that the operating budget was comprised of four main sections: the General Fund, the Sewer Fund, the Water Fund, and the fund to operate Hills Memorial Library. He then discussed details of each of those sections, commenting on what they covered and the cost of each. He identified the cost of the General Fund activities for the next year as being \$20,064,430—noting that the Solid Waste Disposal contract was projected to have a reduction in cost of \$215,000 over the previous fiscal year, with another reduction being the elimination of taxes from the Water Utility to the General Fund and the elimination of hydrant rental fees from the General Fund to the Water Utility, both of which cross-charges were \$400,000, which was the primary reason why the Default Budget was higher than the Operating Budget for the coming year. He declared that the proposed budget was essentially a maintenance budget. He noted that there was a non-property tax revenue offset of \$16,141,032, including revenue from the water and sewer utilities and also \$1,200,000 from surplus to help reduce taxes. He stated that projected tax rate for the Town budget was \$4.66 per \$1,000 of assessed valuation, a 22% increase over the current fiscal year.

Selectman Jasper spoke in support of the article, reporting that the assessor had done a comparison with all towns and cities in New Hampshire of more than 20,000 population. He reported that Hudson currently had the eighth largest population of the thirteen such communities, with only Salem having a lower tax rate, but Salem still paying more; he said Hudson was the lowest town in the state with respect to the tax assessed on a single-family residence, saying only Manchester or Rochester paid less, and noting that Londonderry residents paid \$1,530 more, while Derry residents paid \$1,740 more.

No further comments, questions, or amendments being brought forward, Moderator Inderbitzen said he would close the discussion on Article 10, and move on to Article 11.

Article 11 — Hiring of Two Police Officers

Shall the Town of Hudson raise and appropriate the sum of \$135,418 which represents the cost of wages and benefits to hire two additional full-time police officers? These officers will be assigned to the Patrol Division and work directly in the neighborhoods and business community. (This appropriation is in addition to Article 10, the Operating Budget.)

(Recommended by the Board of Selectmen.)

(Recommended by the Budget Committee.)

Selectman Massey presented the article, discussing the reasons for adding two officers—noting that DWI cases were up 20% on the third shift and domestic disturbances were up 38% on the third shift, while theft was up 19% on the third shift, with all of these increases being significantly more for the third shift than for the overall day covering all shifts. He outlined a particular day of police work to illustrate how the available manpower on the police force had been tied up during the third shift on that day, with the result that there was only one officer on the street for three and a half hours during the 8-hour shift, with another two hours and thirty minutes during which there had been no officers on the street. He explained that the rationale was that by adding two officers on the third shift the town would be able to have the same police coverage that was available on the first and second shifts, with four or five officers available.

Ms. Lorice Sullivan, 12 B Street, spoke in favor.

No other comments, questions, or amendments being brought forward, Moderator Inderbitzen said he would close the discussion on Article 11, and move on to Article 12.

Article 12 — Design/Reconstruction/Repair of Pelham Road Dam over Second Brook

Shall the Town of Hudson raise and appropriate the sum of \$350,000 for the design and reconstruction/repair of the Pelham Road dam over Second Brook? (This appropriation is in addition to Article 10, the Operating Budget.)

(Recommended by the Board of Selectmen.)

(Recommended by the Budget Committee.)

Selectman Massey presented the article, saying this was a critical article. He referenced the flooding that had occurred in 2006, stating that this crossing had experienced particular problems and had been prevented from washing out only by Herculean efforts on the part of Highway Department workers. He reported that an engineering study had been done by the Town's consulting engineers, with the result that NH-DES personnel subsequently made a determination that this was actually a dam, which brought in a different set of criteria, that the repairs would cost \$350,000. He concluded by speaking of the importance of this road.

No questions, comments, or amendments being brought forward, Moderator Inderbitzen said he would close the discussion on Article 12, and move on to Article 13.

Article 13 — Sale of Town-owned Property

Shall the Town of Hudson raise and appropriate the sum of up to \$450,000 for moving expenses, fit-up, equipment and furnishing costs of the new town library and to authorize the Board of Selectmen to raise the full amount of up to \$450,000 solely from the sale of two town-owned parcels of real estate, identified as 47 Ferry Street (Tax Map 182-093) and 49 Ferry Street (Tax Map 182-092)? Said sale of real estate to be upon such reasonably commercial terms and conditions as shall be determined by the Board of Selectmen. Any excess funds produced by the sale of said real estate shall be paid into the town's general fund. In the event the proceeds from the sale of this real estate are less than \$450,000, the amount appropriated under this article shall be reduced to that lesser amount. This is a non-lapsing appropriation per RSA 32:7 (VI) and will not lapse until the purposes of this article are completed or June 30, 2014, whichever is soonest. (This appropriation is in addition to Article 10, the Operating Budget.)

*(Recommended by the Board of Selectmen.)
(Recommended by the Budget Committee.)*

Selectman Jasper presented the article, speaking of the need to move things into the new library and to furnish that facility, stating that this complied with the original intent in purchasing the properties being sold.

Mr. John Knowles, 51 Quail Run Drive, chairman of the Library Trustees, spoke of the Library Trustees' appreciation of the support by the Board of Selectmen and the Budget Committee, saying this article freed up the money invested in those two houses for use for the new library.

No questions, comments, or amendments being brought forward, Moderator Inderbitzen said he would close the discussion on Article 13, and move on to Article 14.

Article 14 — Fire Apparatus Refurbish and Repair Capital Reserve Fund

Shall the Town of Hudson establish a Capital Reserve Fund under the provisions of RSA 35:1 to be known as the "Fire Apparatus Refurbishment and Repair Capital Reserve Fund" for the purpose of refurbishing and repairing of fire apparatus and to raise and appropriate the sum of \$20,000 to be placed in this fund and to further appoint the Board of Selectmen as agents to expend from this fund, in accordance with RSA 35:15 II? (This appropriation is in addition to Article 10, the Operating Budget.)

*(Recommended by the Board of Selectmen.)
(Recommended by the Budget Committee.)*

Selectman Jasper presented the article, explaining the purpose of the proposed capital reserve fund to refurbish and repair the expensive Fire Department vehicles, stating that the real intent was to build up a fund to keep these vehicles on the road rather than having to replace them.

No questions, comments, or amendments being brought forward, Moderator Inderbitzen said he would close the discussion on Article 14, and move on to Article 15.

Article 15 — Capital Reserve Fund for Future Property Revaluations

Shall the Town of Hudson establish a Capital Reserve Fund under the provisions of RSA 35:1 for the purpose of funding future property revaluations to be known as the "Property Revaluation Capital Reserve Fund" and to raise and appropriate the sum of \$5,000 to be placed in said fund and to designate the Board of Selectmen as agents to expend? (This appropriation is in addition to Article 10, the Operating Budget.)

(Recommended by the Board of Selectmen.)
(Recommended by the Budget Committee.)

Selectman Robinson presented the article, noting that periodic revaluation was required.

No questions, comments, or amendments being brought forward, Moderator Inderbitzen said he would close the discussion on Article 15, and move on to Article 16.

Article 16 — Land Use Change Tax Fund

Shall the Town of Hudson raise and appropriate \$196,789 from the un-appropriated balance of the Land Use Change Tax Fund at the end of Fiscal Year 2007 and to place said amount into the Conservation Land Capital Reserve Fund for Purchase of Open Space for Conservation Purposes, said fund having been established under Article 30 of the March 2000 Warrant for the purpose of acquiring land, development rights or conservation easements? (This appropriation is in addition to Article 10, the Operating Budget.)

(Recommended by the Board of Selectmen.)
(Recommended by the Budget Committee.)

Selectman Massey presented the article reporting that there was \$196,789 in the land-use change tax fund as of June 30, 2007, and the Conservation Commission had asked the Board of Selectmen to consider placing that money in a capital reserve fund to be used for the purchase of open space for conservation purposes, and both of the Board of Selectmen and the Budget Committee had voted to recommend in favor. He pointed out that money could be expended from the capital reserve fund only by a vote by the voters at some future Town Meeting.

No questions, comments, or amendments being brought forward, Moderator Inderbitzen said he would close the discussion on Article 16, and move on to Article 17.

Article 17 — Vote Tallies On Warrant Articles

Shall the Town of Hudson, pursuant to NH RSA 32:5(V-a) and NH RSA 40:13 (V-a), require that all votes by the Board of Selectmen and by the Budget Committee concerning items appearing in the budget or concerning any warrant article, be recorded votes and the numerical tally of any such vote be printed in the Town Warrant next to the affected warrant article?

(Recommended by the Board of Selectmen.)

Selectman Jasper presented the article, noting that the enabling law for this practice had been passed by the State Legislature during the past year.

Mr. James Battis, 6 Potter Road, spoke in favor.

Mr. John Knowles, 51 Quail Run Drive, noted that the text required “all votes”—saying this meant to him that every vote to reduce any aspect of the budget during the voting process should be there. Moderator Inderbitzen said his interpretation would be that this referred just to the final vote (to recommend or not to recommend) by the Board of Selectmen and the Budget Committee. Selectman Jasper pointed out that the numerical vote on all the earlier changes was recorded in the minutes of the two organizations.

No further questions, comments, or amendments being brought forward, Moderator Inderbitzen said he would close the discussion on Article 17, and move on to Article 18.

Article 18 — Resolution to Discuss State Tax Options

Shall the Town of Hudson vote to approve the following resolution to be forwarded to our State Representatives, our State Senator and our Governor? Resolved: We the citizens of Hudson, NH believe in a New Hampshire that is just and fair. The property tax has become unjust and unfair. State leaders who take a pledge for no new taxes perpetuate higher and higher property taxes. We call on our State Representatives, our State Senator and our Governor to reject the “Pledge,” and have an open discussion covering all options, and adopt a revenue system that lowers property taxes.

(Not recommended by the Board of Selectmen.)

Mr. James Battis, 6 Potter Road, a petitioner of the article, stated that he had been requested by the Granite State Fair Tax Coalition to circulate the petition and place it on the town warrant. He spoke in favor, citing statistics and the changing nature of New Hampshire living and resulting problems with the property tax system, contending that the property tax was no longer fair and arguing for a need to study New Hampshire's tax situation to find a more equitable process.

Fire Chief Shawn Murray called for a point of order, asking if the speaker were getting into personal opinion and away from the warrant article. Moderator Inderbitzen ruled that it was appropriate for Mr. Battis, as the original petitioner, to give the reasons behind it.

Mr. Battis stated that no new tax was being proposed, stating that over 100 towns in New Hampshire would have this same article on their warrant today.

Mr. William Albenzi, 174 B Derry Road, expressed a belief that putting this forward was opening up the idea of an income tax as an option; he then moved to clarify that by moving to amend the text by inserting the phrase "including an income tax" after the phrase "*an open discussion covering all options.*" Ms. Alice McFadden, 3 Heritage Circle, seconded the motion.

Mr. Battis called for a point of order, asking the Town Attorney if this amendment would change the intent of the article. Moderator Inderbitzen ruled that it did not, but merely named one of the options; Town Attorney Stephen Buckley expressed agreement.

Mr. Andrew Renzullo, 2 Heritage Circle, said he would support the amendment because it clarified the intent of the warrant article, as the pledge was about *not* initiating an income tax.

Mr. Battis said the intent of the article was not to specify an income tax, adding that he would be happy to amend the article by specifying every other tax he could think of.

Mr. Thaddeus Luszey, 178 Derry Road, asked if the previous speaker's proposal to amend the article to include all other taxes should not be done at this time, before voting. Moderator Inderbitzen said this current motion was just adding these words and additional things could be added afterward.

Mr. Gordon Osgood, 93 B Greeley Street, said the amendment seemed myopic, stating that there were "zillions" of different kinds of taxes, and an income tax was only one example, so all the others should be listed.

Ms. Lorice Sullivan, 12 B Street, asked why the Selectmen had not recommended this article, whether a vote was taken, and if so what was the vote. Moderator Inderbitzen said the question at this time was on the amendment.

No further comment or question about the amendment being brought forward, Moderator Inderbitzen called for a vote on the motion to amend, asking first for all those in favor to hold up their voter cards and then asking all those against to hold up their cards, after which he declared that the majority of those voting had voted in the affirmative and Article 18 was amended by adding the words "including an income tax" after the word "options."

Ms. Sullivan repeated her question. Selectman Jasper said the Board of Selectmen had not recommended the article because this was not something that the Town of Hudson really had jurisdiction over and the Board did not believe that these non-binding types of articles had any place on the Town Warrant and did not want to encourage this sort of thing. Moderator Inderbitzen reported that the Selectmen's vote not to recommend had been unanimous (0-5).

Selectman Massey said the state statutes only allowed the Board to say "Yea" or "Nay," adding that he had wanted to be able to say "No opinion."

Mr. Jordan Ulery, 37 Webster Street, noted that he served on the Ways and Means Committee as a state legislator. He said that "fair tax" was a non sequitur, that there was no such thing—adding that the property tax was the only one that everyone paid, in one way or another, so it was equitable and proportionate, and it was required by the constitution of the State of New Hampshire. Whenever a sales tax or an income tax had been passed in other states to replace a property tax, he added, the property tax had never decreased, anywhere. He concluded by applauding the Selectmen for having voted not to recommend.

Mr. John Drabinowicz, 8 Deerfield Avenue, said there was a problem in trying to replace the property tax, as the new taxes were always higher and the control was no longer local, because the taxes would be decided on in Concord.

Mr. Howard Dilworth, Jr., 15 Sycamore Street, noted that the petition had begun as a movement by a church group in the north country, which had placed a similar article on town warrants last year. He noted that there were four openings on the Budget Committee, but no one had signed up for those openings; if people thought the taxes were unfair and unjust, he declared, they belonged on that board, saying it was a wonderful opportunity to learn how the Town operated and where the tax money went. He commented on how similar approaches had failed in other states, noting that he was a member of the organization that tried to strong-arm state representatives and candidates to sign the pledge.

Mr. Battis said the previous speaker's argument was nonsensical, because the Budget Committee had to do with the property tax, which he felt to be unfair, and the question was whether the structure was fair or not. He expressed surprise at the vehemence of the speakers on this article, saying it was not about the income tax but was about all taxes and the possible readjustment of the ratio of where those taxes were taken from, and the important point was to let the voters decide rather than the politicians.

Selectman Jasper spoke in opposition to the article, noting that he served as a State legislator and had served three terms on the Ways and Means Committee. He said the flaw in this article was the assumption that the legislators did not debate the taxes, adding that each and every tax was discussed and modified in the legislature, with nothing off the table. He noted that he did not sign the pledge, as he did not believe he could commit to making up his mind on an issue until he had heard all the facts and read the bill—adding that he would never vote for an income tax, but he did not need to sign a pledge. He stated that New Hampshire had the lowest per capita tax basis of any state in the union except Alaska. He said that the wonderful thing about property taxes was that the community's citizens got to decide what the recommendations to spend would be and then got to decide at Town Meeting how much they were going to spend, adding that there was nothing in the text of the article that allowed the voters to debate.

Mr. John Cesana, 20 Beechwood Road, noted that his more expensive former home in Rhode Island paid a little less than half the property tax he was paying here in Hudson, but that there were many other taxes applied, including income tax, Fire Department tax, room tax, sales tax, etc., with the citizens not having control over those taxes, whereas New Hampshire residents had control over their property taxes. He concluded by speaking in favor of local control.

Mr. Thaddeus Luszey, 178 Derry Road, moved the question. Moderator Inderbitzen said there were three people standing in line to speak and that he would take the motion to cut off debate after the three people standing in line at the microphone had been recognized.

Mr. Andrew Renzullo, 2 Heritage Circle, said he believed in telling people where he stood on an issue—adding that he would take the pledge and would pledge no new taxes; he then expressed a belief that this article was a cover for those who did not want to tell voters where they stood, saying this was all about the income tax.

Mr. John Drabinowicz, 8 Deerfield Avenue, expressed concern about the four empty seats on the Budget Committee, noting that the Budget Committee had great deal to do with raising or adjusting the taxes in the town, and saying that the Budget Committee was very hard work but its members did a great job. He then spoke in favor of local control.

Mr. Battis moved to amend the article by adding the following verbiage after "including an" and prior to "income tax": "timber tax, interest and dividend tax, business inventory tax, sales tax, vehicle property tax, and any other taxes, and an." Ms. Linda Kipnes, 23 Nathaniel Drive, seconded the motion.

Speaking on his motion, Mr. Battis said it was his intention that the tax structure in the state be open to question and be reviewed by the state legislators.

Selectman Jasper spoke in opposition, pointing out that the state already had a timber tax, a business tax, and an interest and dividend tax—noting that the business tax had replaced the "stock in trade" tax, which was an inventory tax.

Mr. Jordan Ulery, 37 Webster Street, noted that there was also an interest and dividend tax for senior citizens, which the state already had.

Ms. Alida Weergang, 2 Old Derry Road, asked if this article did not instead belong in Concord, questioning why it was on the Town Warrant. Moderator Inderbitzen said it was non-binding resolution to tell the representatives in Concord the feelings of the citizens of Hudson.

Ms. Linda Kipnes, 23 Nathaniel Drive, said the point was to have the legislature consider every possible tax, including the taxes the state already had—adding that the legislators might determine that the current tax structure was the perfect one for this state.

No further comment or question about the amendment being brought forward, Moderator Inderbitzen called for a vote on the motion to amend, asking first for all those in favor to hold up their voter cards and then asking all those against to hold up their cards, after which he declared that the majority of those voting had voted in the negative and the amendment had failed.

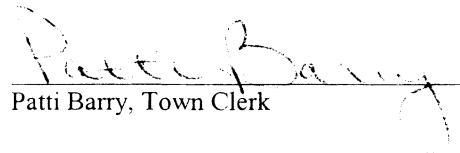

Mr. Richard Nolan, 39 Glen Drive, moved the question. Mr. Leo Bernard, 3 Bungalow Avenue, seconded the motion. Moderator Inderbitzen called for a vote on the motion to cut off debate, asking first for all those in favor to hold up their voter cards and then asking all those against to hold up their cards, after which he declared that the majority of those voting had voted in the affirmative and Article 18 was closed.

Moderator Inderbitzen noted that the School District Warrant would be decided at that body's Deliberative Session on the following Saturday, in this same meeting place, starting at 9:00 a.m. and that the citizens would then vote on all the warrant articles at the Town Meeting on March 11th, in this same hall.

Ms. Joyce Goodwin, 4 Marshmellow Path, moved to adjourn. Mr. Robert Haefner, 1 St. John Street, seconded the motion.

Moderator Inderbitzen called for a verbal vote on the motion to adjourn. After hearing the votes, both for and against, he declared that the AYES had it, and he then declared this session adjourned at 12:38 p.m.

February 7, 2008

Patti Barry, Town Clerk

**2008 Town Meeting Warrant
as amended at the Town Deliberative Session on February 02, 2008
and Result of the March 11, 2008 Vote**

To the inhabitants of the Town of Hudson, in the County of Hillsborough, State of New Hampshire, qualified to vote in Town affairs.

You are hereby notified to meet at Hudson Community Center, 12 Lions Avenue, commencing at 9:00 a.m. on Saturday, February 02, 2008 for the transaction of all business, other than voting by official ballot. This first session of the Annual Town Meeting shall consist of explanation, discussion and debate of each warrant article. Warrant articles may be amended at the first session, subject to the restrictions set forth in NH RSA 40:13, IV.

You are hereby further notified that the second session of the Annual Meeting shall be held at Hudson Community Center, 12 Lions Avenue, between the hours of 7:00 a.m. and 8:00 p.m. on Tuesday, March 11, 2008, to elect Town officers and to vote by official ballot on all articles set forth in this Warrant, as may be amended by act of the first session meeting.

ZONING AMENDMENTS

Article 2 Are you in favor of the adoption of Amendment No. 1 as proposed by the Planning Board for the Town Zoning Ordinance as follows?

Amend Article VII, Dimensional Requirements, §334-27, Table of Minimum Dimensional Requirements by deleting the existing Table of Minimum Dimensional Requirements and adopting a new Table of Minimum Dimensional Requirements. This amendment specifies dimensional requirements according to existing Zoning Districts and clarifies the minimum lot size requirements for multi-family uses. (Approved by the Planning Board)

Yes	1566	No	773
------------	------	-----------	-----

Article 3 Are you in favor of the adoption of Amendment No. 2 as proposed by the Planning Board for the Town Zoning Ordinance as follows?

Amend Article V, Permitted Uses, §334-22, Table of Permitted Accessory Uses by deleting the existing Table of Permitted Accessory Uses and adopting a revised Table of Permitted Accessory Uses. This amendment makes “non-profit recreational facilities including membership clubs” prohibited accessory uses in the R-1 and R-2 districts, and permits them when developed as part of a residential subdivision or site plan in the G and G-1 districts. “Health, fitness or athletic club” uses shall be prohibited accessory uses in the R-1 and R-2 districts. The following accessory uses are deleted: “Business, vocational and post secondary schools” and “Wholesale trade and distribution”. (Approved by the Planning Board)

Yes	1450	No	874
------------	------	-----------	-----

Article 4 Are you in favor of the adoption of Amendment No. 3 as proposed by the Planning Board for the Town Zoning Ordinance as follows?

Amend the Official Zoning Map of the Town of Hudson by re-zoning from General-One (G-1) to Residential-One (R-1), the following residentially developed roadways and their abutting parcels, which are located (generally) to the north and west of Robinson Road: Beechwood Road, Stoney Lane, Stonewood Lane, Heritage Circle, Jeremy Lane, Boulder Drive, Terra Lane, Chagnon Drive, Henry Drive, Rear Henry Drive, Maureen Lane and the following individual parcels fronting on Robinson Road and Sandalwood Road: 124-130 and 144-154 Robinson Road and 3 Sandalwood Road. All of the aforementioned parcels are shown as having the following parcel identification numbers on the Town Assessor’s Maps: 124-003-000 thru 124-033-000, 124-035-000 thru 124-080-000, 133-010-001, 133-028-000, 116-001-000 thru 116-090-000, 117-040-000, 117-041-000, 111-028-000 thru 111-044-000 and 111-055-000 thru 111-067-000. (Approved by the Planning Board)

Yes	1532	No	846
------------	------	-----------	-----

PETITIONED ZONING AMENDMENTS

Article 5 Are you in favor of the adoption of Amendment No. 4 as proposed by Petition for Rezoning as follows?

Amend the Official Zoning Map of the Town of Hudson by rezoning from Residential-One (r-1) to Residential-Two (r-2) the parcel having an address of 51 Burns Hill Road, Map 211/Lot 40. Said parcel abuts a R-2 zoning district, and is generally located across the street and to the immediate south of the Glen Drive and Burns Hill Road intersection. (2/3 ballot vote required) (Approved by the Planning Board).

Yes 1397 No 950
Article failed, needed 1564 votes

PETITIONED BOND ARTICLE

Article 6 Senior Center Addition to the Community Center

Shall the Town of Hudson raise and appropriate the sum of \$964,902 for the design and construction of a Senior Center addition to the west side and adjacent to the Hudson Community Center, and authorize the issuance of not more than \$964,902 of bonds or notes in accordance with the provisions of the Municipal Finance Act (RSA Chapter 33) and authorize the Board of Selectmen to issue and sell such bonds or notes and to determine the rate of interest thereon and, further, raise and appropriate the sum of \$27,404.44 for the purpose of paying the 2008-2009 bond issuance cost and interest on said general obligation bonds or notes; and furthermore, to raise and appropriate the sum of \$9,700 for the operating cost of the addition for 2008-2009? (This appropriation is in addition to Article 10, the Operating Budget.) (3/5 ballot is required) The projected operating cost for the first year after construction would be an estimated \$53,000. (Not Recommended by the Board of Selectmen.) (Not Recommended by the Budget Committee)

Yes 1385 No 1175
Article failed, needed 1536 votes

SELECTMEN'S ARTICLES

Article 7 Multi-Year Contract for Hudson Police, Fire and Town Supervisors Association

Shall the Town of Hudson approve the cost items included in the collective bargaining agreement reached between the Town of Hudson Board of Selectmen and the Hudson Police, Fire and Town Supervisors Association, which calls for the following increase in salaries and benefits.

Year	Estimated Amount
7/1/08 – 6/30/09	\$77,217
7/1/09 – 6/30/10	\$76,074
7/1/10 – 6/30/11	\$69,752

And further to raise and appropriate the sum of \$77,217 for the 2008-2009 Fiscal Year, said sum representing the additional costs attributable to the increase in salaries and benefits over those paid in the prior Fiscal Year? (This appropriation is in addition to Article #10, the Operating Budget.) (Recommended by the Board of Selectmen.) (Recommended by the Budget Committee.)

Yes 1574 No 943

Article 8 Wage and Benefit Increase for Non-Union Personnel

Shall the Town of Hudson raise and appropriate the sum of \$24,379 which represents a 3.0% increase in wages and benefits for the following non-union positions: Town Administrator, Police Chief, Fire Chief, Community Development Director, Road Agent, IT Director, Finance Director, Recreation Director, and Executive Assistant? (This appropriation is in addition to Article #10, the Operating Budget.) (Recommended by the Board of Selectmen.) (Recommended by the Budget Committee.)

Yes 1519 No 983

Article 9 Wage and Benefit Increase for Full Time Library Employees

Shall the Town of Hudson raise and appropriate the sum of \$11,512 which represents a 3.0% increase in wages and benefits for the full-time employees of the Hills Memorial Library? (This appropriation is in addition to Article #10, the Operating Budget.) (Recommended by the Board of Selectmen.) (Recommended by the Budget Committee.)

Yes 1658 No 842

Article 10 Operating Budget

Shall the Town of Hudson raise and appropriate, as an operating budget, not including appropriations by special warrant articles and other appropriations voted separately, the amount set forth on the budget posted with the Warrant or as amended by vote of the first session, for the purposes set forth therein, totaling \$26,505,455? Should this article be defeated, the default budget shall be \$27,187,616 which is the same as last year, with certain adjustments required by previous action of the Town of Hudson or by law; or the governing body may hold one special meeting, in accordance with RSA 40:13, X and XVI, to take up the issue of a revised operating budget only. (Recommended by the Board of Selectmen.) (Recommended by the Budget Committee.)

Yes 1828 No 639

Article 11 Hiring of Two Police Officers

Shall the Town of Hudson raise and appropriate the sum of \$135,418, which represents the cost of wages and benefits to hire two additional full-time police officers? These officers will be assigned to the Patrol Division and work directly in the neighborhoods and business community. (This appropriation is in addition to Article 10, the Operating Budget.) (Recommended by the Board of Selectmen.) (Recommended by the Budget Committee.)

Yes 1379 No 1169

Article 12 Design/Reconstruction/Repair of Pelham Road Dam over Second Brook

Shall the Town of Hudson raise and appropriate the sum of \$350,000 for the design and reconstruction/repair of the Pelham Road dam over Second Brook? (This appropriation is in addition to Article 10, the Operating Budget.) (Recommended by the Board of Selectmen.) (Recommended by the Budget Committee.)

Yes 1650 No 817

Article 13 Sale of Town-owned Property

Shall the Town of Hudson raise and appropriate the sum of up to \$450,000 for moving expenses, fitup, equipment and furnishing costs of the new town library and to authorize the Board of Selectmen to raise the full amount of up to \$450,000 solely from the sale of two town-owned parcels of real estate, identified as 47 Ferry Street (Tax Map 182-093) and 49 Ferry Street (Tax Map 182-092)? Said sale of real estate to be upon such reasonably commercial terms and conditions as shall be determined by the Board of Selectmen. Any excess funds produced by the sale of said real estate shall be paid into the town's general fund. In the event the proceeds from the sale of this real estate are less than \$450,000, the amount appropriated under this article shall be reduced to that lesser amount. This is a non-lapsing appropriation per RSA 32:7 (VI) and will not lapse until the purposes of this article are completed or June 30, 2014, whichever is soonest. (This appropriation is in addition to Article 10, the Operating Budget.) (Recommended by the Board of Selectmen.) (Recommended by the Budget Committee.)

Yes 1856 No 673

Article 14 Fire Apparatus Refurbish and Repair Capital Reserve Fund

Shall the Town of Hudson establish a Capital Reserve Fund under the provision of RSA 35:1 to be known as the "Fire Apparatus Refurbishment and Repair Capital Reserve Fund" for the purpose of refurbishing and repairing of fire apparatus and to raise and appropriate the sum of \$20,000 to be placed in this fund and to further appoint the Board of Selectmen as agents to expend from this fund in accordance with RSA 35:15 II? (This appropriation is in addition to Article 10, the Operating Budget.) (Recommended by the Board of Selectmen.) (Recommended by the Budget Committee.)

Yes 1845 No 664

Article 15 Capital Reserve Fund for Future Property Revaluations

Shall the Town of Hudson establish a Capital Reserve Fund under the provisions of RSA 35:1 for the purpose of funding future property revaluations to be known as the "Property Revaluation Capital Reserve Fund" and to raise and appropriate the sum of \$5,000 to be placed in said fund and to designate the Board of Selectmen as agents to expend? (This appropriation is in addition to Article 10, the Operating Budget.) (Recommended by the Board of Selectmen.) (Recommended by the Budget Committee.)

Yes 1247 No 1170

Article 16 Land Use Change Tax Fund

Shall the Town of Hudson raise and appropriate \$196,789 from the un-appropriated balance of the Land Use Change Tax Fund at the end of Fiscal Year 2007 and to place said amount into the Conservation Land Capital Reserve Fund for Purchase of Open Space for Conservation Purposes, said fund having been established under Article 30 of the March 2000 Warrant for the purpose of acquiring land, development rights or conservation easements? (This appropriation is in addition to Article 10, the Operating Budget.) (Recommended by the Board of Selectmen.) (Recommended by the Budget Committee.)

Yes 1539 No 886

Article 17 Vote Tallies on Warrant Articles

Shall the Town of Hudson, pursuant to NH RSA 32:5 (V-a) and NH RSA 40:13 (V-a), require that all votes by the Board of Selectmen and by the Budget Committee concerning items appearing in the budget or concerning any warrant article, be recorded votes and the numerical tally of any such vote be printed in the Town Warrant next to the affected warrant article? (Recommended by the Board of Selectmen.)

Yes 1967 No 429

PETITIONED WARRANT ARTICLE

Article 18 Resolution to Discuss State Tax Options

Shall the Town of Hudson vote to approve the following resolution to be forwarded to our State Representatives, our State Senator and our Governor? Resolved: We the citizens of Hudson, NH believe in a New Hampshire that is just and fair. The property tax has become unjust and unfair. State leaders who take a pledge for no new taxes perpetuate higher and higher property taxes. We call on our

State Representatives, our State Senator and our Governor to reject the “Pledge”, and have an open discussion covering all options, including an income tax, and adopt a revenue system that lowers property taxes. (Not recommended by the Board of Selectmen.)

Trustees of the Trust Funds' Annual Report for Fiscal Year 2008

General:

The Trustees of the Trust Funds are elected by the voters at the March election and serve terms of three years each. The actions of the Trustees are governed by State Statutes that are enforced by the Charitable Trusts Unit of the New Hampshire Attorney General. The responsibility of the Trustees is to manage the funds that the voters and citizens have placed, willed or donated to the Town of Hudson to be used for certain reasons or wishes. The three volunteers invest these moneys in various instruments for the benefit of the fund and supervise the expenditures of the funds to be sure they are being used as the voters or donated prescribed the funds to be used. The funds managed by this group are of two natures, Non-expendable where the principal must be maintained and only interest earned may be spent and Expendable where both the original principal and all earned revenue may be spent. The major portions of the funds that this group invests are from warrant articles at the March ballot, but the Trustees also handle funds from the School District, the Library and Cemetery Perpetual Care. It is important to understand that the disbursement of monies from any Fund managed by the Trustees is dependent upon the terms of the Fund when it was created.

Investment Activities:

The Trustees invest in certificates of deposits generally with government banking divisions of financial institutions chartered to do business in New Hampshire, the New Hampshire Public Deposit Investment Pool and Managed Assets division of licensed financial institutions chartered in the state. All investment decisions are based on the "prudent man" strategy and consistent with the Investment Policy of the Trustees. The Investment Policy is mandated by State statute and is updated annually.

At the close of the Fiscal Year on June 30, 2008 the total held in trust was \$10,463,821.89 as reported on the filing with the New Hampshire Charitable Trusts Unit and reviewed by the independent auditors Plodzick & Sanderson during their review of the financial statements for the Town of Hudson.

Included with this report is the MS-9 as submitted to the State of New Hampshire Office of the Attorney General, Charitable Trust Division and the Department of Revenue Administration, Municipal Services Division. For more information on this report please contact one of the Trustees.

The Trustees meet on the fourth Thursday of the month at Town Hall. The public is invited to attend.

Respectfully submitted.

The Trustees of the Trust Funds

TOWN OF HUDSON

WATER UTILITY COMMITTEE REPORT 2008

12 School Street

Hudson, New Hampshire 03051

603/886-6005

The Board of Selectmen created the Water Utility Committee on September 13, 2004 with the adoption of Ordinance 04-03. The Board amended the membership requirements with Ordinance 04-05 on November 23, 2004. The five members of the Committee are appointed by the Board of Selectmen to three year terms. Four of the members must reside in a dwelling served by the Hudson Water Utility System.

The Committee is responsible for overseeing the preparations of bylaws, policies and procedures related to the operation of the Utility and making recommendations to the Board of Selectmen regarding the budget, operations, administrations and capital improvements of the Utility.

During the past year the South Hudson Water Tank was put into operation, this along with the construction of a new water main in the south end of town has increased the fire protection and domestic water service to those living in the area. The staff has been working to reduce the overdue fees owed to the Utility by its customers. Between April and October 2008, overdue money in excess of \$85,700 was collected. The committees has started reviewing proposed additions to the water system by developers and making recommendation to the Board of Selectmen regarding these proposed main extensions. The committee has also heard appeals for customers for abatements in their water bills for various reasons. After a meeting with the customer, a recommendation is sent to the Board of Selectmen for final action.

Selectman Ken Massey is the Board of Selectmen's liaison with the Committee. Staff support for the Committee is provided by Gary Webster, Civil Engineer and Tom Sommers, Town Engineer until his retirement, Betty Holt, Engineering Department Administration Aide and Jennifer Riel, Water Utility Clerk. The Committee would like to thank all of these individuals for their assistance.

Committee members for 2007 include:

	EXPIRATION		EXPIRATION
Leo Bernard, Chairman	Dec. 31, 2009	David Shaw, Member	Dec. 31, 2010
Jeff Rider, Vice-Chairman Non-water user	Dec. 31, 2010	Catherine Valley, Member	Dec. 31, 2008
Ray Rowell, Secretary	Dec. 31, 2009		

Respectfully submitted,
Water Utility Committee

Leo C. Bernard

Leo Bernard
Chairman

HUDSON WATER DEPARTMENT

REPORT OF OPERATIONS for the Year Ending June 30, 2008

We are pleased to report that the past year of water works operations was very successful. We met all of our primary maintenance objectives and we started work on the repairs to gate valves and hydrants. The combined team of Town staff and Pennichuck Water Works employees has been very effective in completing the day-to-day requirements of the system and focusing on good customer service.

The Town of Hudson water supply system consists of three gravel-pack wells and two pumping stations. There is an emergency interconnection between the Town system and Pennichuck Water Works at the Taylor Falls Bridge to allow for supply from Pennichuck under emergency circumstances. All of the wells and pumping stations are owned by the Town and are located in the Town of Litchfield. The water supply systems are as follows:

<u>Name of well</u>	<u>Well yield per day (in gallons)</u>
Dame	930,000
Ducharme	700,000
Weinstein	1,000,000
Taylor Falls	1,000 gpm (back-up supply)

NOTE: Per NHDES, the combined daily well production at Dame / Ducharme cannot exceed 790,000 gallons per day.

Following is the pumpage report showing the pumpage by month for this past year and the three prior years.

The distribution system is comprised of approximately 90 miles of water main, ranging in size from one inch through 16 inches and is made of ductile iron, cast iron and PVC (plastic). The system has 1,600 main gate valves, 502 fire hydrants, two ground storage tanks and four booster pumping stations. There are 5,828 service lines and customer meters.

The water system is operated for the Town by Pennichuck Water Works, Inc. under an Operations and Maintenance (O&M) Contract. The contract requires Pennichuck to provide all personnel, equipment, spare parts and tools to perform the work. Pennichuck also provides its own insurance for workmen's compensation, public liability and property damage.

The O & M contract has several components. First, Pennichuck is committed to performing what is referred to as "planned maintenance". This is the non-emergency work that can be scheduled. It includes the following activities for each year:

1. Inspect and exercise one-half of all system gate valves. Valves are located, gate boxes are cleaned out, raised or lowered, if required, and the valve is turned to assure proper operation. Tie measurements are verified and recorded on a valve record.
2. Inspect and operate all Town-owned fire hydrants once each year. The hydrant is located and inspected to assure proper operation, to inspect for leakage and to make sure the barrel is properly drained. Hydrant records are updated.
3. Paint a pre-determined number of fire hydrants per year.
4. Conduct an annual main line flushing program to flush sediment and corrosion particles from the distribution pipelines. Pennichuck is required to provide advance notice to alert customers and to conduct the program at a time of minimal disruption to customers.
5. Collect and analyze water samples from the system in accordance with public health requirements.
6. Read all system meters on a monthly basis.
7. Test and repair meters in accordance with industry practice and standards.
8. Locate and mark out underground pipelines when requested by the Town.
9. Inspect and test all backflow devices for proper operation.
10. Perform service disconnects (shutoffs), at the Town's request, for enforcement of payment or for violations of the Town's rules pertaining to water service.
11. Monitor and control the water supply facilities and booster stations. Make periodic inspections, make necessary adjustments, inspect controls and instrumentation, provide routine lubrication, provide corrosion control, change record charts and perform other routine tasks.
12. Respond to requests for customer service in a timely and courteous manner. Requests include turning services on or off, checking for leaks, re-checking meter readings, checking water quality and responding to customer concerns.
13. Develop and update operational and emergency plans.

The other components of the Operation and Maintenance agreement provide for “unplanned maintenance” and engineering services. Pennichuck responds to emergency main breaks, hydrant accidents and service leaks; thaws and repairs frozen pipelines, hydrants and meters, and responds to complaints of rusty or dirty water by flushing pipelines through the hydrants as necessary. Pennichuck provides a variety of engineering services to the water system. Pennichuck provides guidance for the construction of new mains and services and provides on-site inspection to ensure that proper construction methods and materials are used. The water company provides a wide array of system record maintenance and the as-built records for new work performed on the system. Pennichuck conducts flow analysis and makes recommendations for system improvements.

In the past year, Pennichuck performed the following “planned” work:

Gate valve inspection	242
Hydrant inspections – Wet	470
Hydrant inspections – Dry	564
Hydrant painting	326
Test meters	88
Dig-Safe locating and marking	519
Backflow device testing	807
Shutoffs for Non-Payment	69
Meter reading	75,697
New meters set	49
New meter replacements	74

The following unscheduled or “unplanned” work was performed during the year:

[illegible]

Operational Notes 2007/2008

The Town of Hudson and Pennichuck Water Service Company Team continued to improve the Hudson Water System in 2007/2008. Customers in the Town of Hudson have come to expect high quality drinking water at reasonable rates. Utilizing power, labor and professionally applied water treatment efficiently and effectively, the Town of Hudson and Pennichuck Water Service Company are reaching these goals. Coupled with customer satisfaction, Hudson and Pennichuck have complied with the stringent requirements of the United States Environmental Protection Agency (EPA) and the New Hampshire Department of Environmental Services (NHDES). From a regulatory perspective, this past year has witnessed added analytical requirements for Arsenic, Lead and Copper and disinfection by-products negatively impacting water quality in the distribution system and individual service lines. After analytical review of these and other parameters, the Hudson/Pennichuck team is pleased report that no negative issues exist in the Town of Hudson Water Supply.

The professional operation of a water system requires constant monitoring and inspection of system components. Pennichuck continued this monitoring via hydrant, gate valve and booster station inspections. Distribution and Water Supply components in the Hudson water system continue to improve each year. As faulty components are indentified, a list is provided to officials in the Hudson Water Department. Corrective action is scheduled and the faulty component is repaired and/or replaced. Modifications to the Town of Hudson Supervisory Control and Data Acquisition (SCADA) system continue. The SCADA system is used to automatically control operation of water system components and monitor the components for repeatable results. System conditions and aberrations are transmitted to manned locations. Any abnormalities are responded to immediately. Improvements in the SCADA system communication methods were modernized in 2007/2008. Pennichuck and sub-contractor Reed Merrill improved the reliability of communication between unmanned and manned locations to ensure rapid response in emergency situations. SCADA system hardware and software were modernized.

Pennichuck Water Service Company assisted the Town of Hudson in establishing an Accounts Receivable collection program. The escalating cost of operating a modern, first rate water system requires customers to compensate the Town for metered volume consumed with payments provided on a timely basis. Unfortunately, there are a number of situations where discontinuing water service is the only method available to achieve this result. Pennichuck is providing professional guidance to the Town of Hudson in reducing the number of Accounts Receivable locations via the disconnect program. The program provides adequate notices prior to an actual non-payment disconnect.

The Town of Hudson and Pennichuck worked very closely on the reconstruction of Route 102. Pennichuck was very active in the project marking the location of water mains and service lines. On occasion, Pennichuck responded to the construction site to repair water line breaks resulting from the construction activity. The coordinated activity between the Town, Pennichuck and the construction sub-contractor resulted in minimal water service disruption. Water quality, fire protection and system pressure were never compromised during the construction project

Pennichuck Maintenance and Meter Department staff members initiated a formal “Periodic Testing” (PT) program for the Town of Hudson. A meter PT program will ensure the accuracy of water meters utilized in customer homes and industrial/commercial locations. As a meter monitors flow, the meter over time (several years) may lose accuracy. The loss of accuracy results in over or under-recording of flows. Based on years of service, the meters are periodically removed and tested on a Pennichuck meter test bench. Once the test has been completed, they are then returned to service, rebuilt or replaced.

The newly constructed booster station located on Wason Road has been incorporated in Pennichuck data gathering and monitoring programs. SCADA overview of the new station will provide enhanced reliability and efficient operation of the booster station. A new constructed 800,000 gallon water storage tank was placed in service in late 2007. The tank is located in south Hudson and receives water from the Wason Road booster. Like the booster station, the new tank has been added to the Hudson SCADA system and is monitored 24/7 for operating level data and potential emergency response.

Pennichuck wishes to express our sincere Thank You to the professionals representing the Town of Hudson Water System. We also thank the residents of Hudson and we look forward to continuing the work started by the Hudson/Pennichuck team.

W:\HUDSON\REPORT TO TOWN FOR 2008\Report for year end 6-30-08.doc

ZONING BOARD OF ADJUSTMENT (ZBA)

2007-2008 Annual Report

The quasi-judicial Zoning Board of Adjustment (ZBA) consists of ten members, each of whom is appointed by the Board of Selectmen for 3-year terms. Five of these members are "regular" members, expected to sit on all hearings brought before the ZBA. The other five are alternates, who attend the meetings and sit in place of regular members who either cannot attend a meeting or who step down from some particular case to avoid a conflict of interest. Traditionally, the "alternate" position is regarded as training for future "regular" members.

The Zoning Board meets on the fourth Thursday evening of each month (and, if a backlog of cases starts to build up, also on the second Thursday evening). All meetings are open to the public, and any interested citizen is welcome to attend at any time. Members of the ZBA also hold periodic joint meetings with the Hudson Planning Board and the Hudson Conservation Commission for the purpose of discussing issues of common interest, attend three law lectures sponsored by the Local Government Center (formerly the New Hampshire Municipal Association) in Manchester each fall, and also attend occasional state-wide or regional conferences produced by the NH Office of Energy & Planning and other organizations, as well as lecture presentations sponsored by the Greater Nashua Regional Planning Commission. When needed, the ZBA also participates in group sitewalks of properties pertaining to specific cases, to get a close-at-hand view of property conditions or issues.

The ZBA held 17 meetings this year (one more than last year), participating in 79 hearings (five less than last year) — including new applications, deferred cases, withdrawals, and requests for rehearings. The following table delineates these cases in chronological sequence, listing the property identification (tax map & lot number), applicant of record, address of the property involved, the nature of the request, the applicable zoning district, the applicable Hudson Town Code ordinance, the ZBA's decision, and the meeting date for each such case.

The Zoning Board is authorized by the State RSAs to hear four kinds of applications: requests for variances, requests for special exceptions, requests for equitable waivers, and appeals of zoning administrative decisions made by Town officials or the Planning Board. The ZBA also considers requests for rehearings and requests for expedited hearings. As part of the decision-making process, each sitting member fills out a form stipulating his/her judgment for each of the applicable requirements for each case, as determined by state statute or by case law decided by the New Hampshire Supreme Court on other cases in the past.

For any of these four types of cases, the Zoning Board schedules a hearing date (generally scheduling four or five cases per evening under the premise that each may take an hour or more), sends notice of that date and the applicant's intentions to all persons owning property that abuts or lies within 200 feet of the concerned property, and also advertises the meeting and scheduled cases in a local newspaper, as well as posting copies of that same notice in various public places throughout the town — Town Hall, the Hills Memorial Library, and the Post Office. For each hearing (some of which extend for two or more meetings because of the need to obtain more information), the ZBA members first listen to a presentation by the applicant (and/or authorized representatives) explaining why the request should be granted, then to any abutter or affected citizen who wishes to speak in support of the request, and then to any abutter or affected citizen who has reason to speak against the request or to provide any other input or just to ask questions. If there is opposition or any concerns are raised, this first round of testimony is followed by a rebuttal round, giving parties on both sides a chance to respond to statements made by the other side. The ZBA members then deliberate the matter, asking questions if further information is felt needed from either side, after which the members of the ZBA come to a collective decision by making and voting on a specific motion—generally either to approve (often with stipulations to make it more palatable) or to deny, with occasional instances of deferring the matter to a later date in order to obtain additional information or legal counsel, or to accept a request for withdrawal of the application.

Under the checks-and-balances system built up over the years, citizens who feel aggrieved by a decision then have a period of 30 days following the day of the hearing in which to file a request for rehearing, in which case the ZBA will consider that request at its next-following meeting and decide whether rehearing of the case is warranted. In the event that a rehearing is granted, the matter is then treated as an entirely new case, with everyone having a chance to start over on both sides. The ZBA does not grant rehearings lightly, however — doing so only when there is a demonstrated possibility that the Board has come to an unreasonable or illegal decision or because new evidence is available that conceivably might have led the Board to a different decision. This year, for example, the ZBA handled six requests to rehear previously decided cases—granting two, denying two, and declining to accept the application for the other two as being unwarranted. (One of those latter was felt to be moot because the ZBA had already allowed the thing being requested, because of a legal issue; the other

was from a home-owner who effectively was raising only the same arguments the Board had already rejected in a previous denial.)

Variances give relief from the literal restrictions of the Hudson Zoning Ordinance, as established by past votes of the Town's citizens. There actually are two kinds: a **Use Variance**, which allows the property owner to do something that normally is not allowed in the zoning district in which the subject property is located, and an **Area Variance**, which lets the property owner do something on property that does not meet the required parameters specified in the Zoning Ordinance—that is, with less than the required area, frontage, setback distance, etc. Some states do not allow use variances at all, but New Hampshire has treated both types the same until recently, when the New Hampshire Supreme Court decreed that there was a difference in the requirements for these two cases. For a **Use Variance**, state statutes and past legal decisions demand that at least three sitting members at the hearing find that an application satisfies *every one* of the following five requirements:

- (1) That the granting of the variance will not be contrary to the general public interest.
- (2) That the land in question has "special conditions" causing literal enforcement of the applicable Zoning Ordinance section(s) for the property in question to be an unnecessary hardship to the property owner.
- (3) That the intended use will not diminish the value of other properties in the neighborhood.
- (4) That substantial justice will be done to the applicant by granting the variance.
- (5) That the intended use will not be contrary to the spirit of the Town's Zoning Ordinance

The second of these requirements, sometimes referenced as the "hardship in the land," had always been the most difficult for applicants to meet, as it had traditionally been read (and defined by the Supreme Court) as implying that the applicant should not get a variance unless the property in question could not be used for any of the allowed uses for the zoning district in which the property was located. In 2001, the New Hampshire Supreme Court decided this was too restrictive and made the variance easier to obtain by ruling that "hardship" would be met by satisfying *all* of the following requirements:

- (a) Does the restriction interfere with the owner's reasonable use of the land?
- (b) Can relief be granted to the property without frustrating the purpose of the ordinance?
- (c) Will the granting of the requested variance create a public or private nuisance?

This year the ZBA held 17 hearings for Use Variance requests, involving a property owner's request to do something that is not allowed as a use in the Table of Permitted Uses for the zoning district in question. The ZBA granted eight requests, denied three, deferred three, and allowed three to be withdrawn.

As mentioned above, the New Hampshire Supreme Court has ruled that a different "hardship" rule applies for Area Variances, which are restricted on the grounds of dimensional requirements. For an **Area Variance**, the same requirements as (1), (3), (4), and (5) as listed above for the Use Variance pertain, but the second requirement has been redefined for Area Variances as follows:

- (2) Literal enforcement of the cited Zoning Ordinance section(s) would result in an unnecessary hardship for this specific property because of the following two situations:
 - (a) Special conditions of the property in question make a variance necessary in order to allow the applicant to construct the development *as designed*, so that the zoning restriction of the cited Hudson Zoning Ordinance section(s) interferes with the applicant's reasonable use of the property.
 - (b) The applicant cannot achieve the same benefit by some other reasonably feasible method that would not impose an undue financial burden

The ZBA held 23 hearings pertaining to **Area Variances**, granting 18, denying two, and deferring three. It must also be kept in mind that the ZBA evaluates each application on its own merits and that cases that fall in the same category may in fact have widely differing circumstances influencing the ZBA's decisions.

As previously noted, the Zoning Board also hears requests for **Equitable Waivers**, a recently legislated provision that had been asked for by this Board because of the existence of certain long-existing subdivisions in this community in which most of the buildings had been placed too close to the side line. This situation meant that banks would not allow mortgages without the obtainance of a variance, despite the fact that most such

homeowners could not meet the literal requirements for a variance without actually moving the building. Several strict requirements need to be met in order to get an Equitable Waiver, which was actually designed to help home owners whose homes had been built by predecessors and had been in place for 10 years or longer without complaint. The ZBA heard four Equitable Waiver requests this year, approving all four.

For **Special Exceptions**, none of the previously described variance requirements applies. Instead, the Hudson Zoning Ordinance itself defines the conditions under which special exceptions can be granted (for example, to allow certain uses in specific districts, to allow a home occupation business as a secondary use on residential property, to allow certain kinds of construction within the wetlands and/or the wetlands setback area, etc.). Until 1994, the Hudson Zoning Ordinance only allowed four different kinds of special exceptions; the revision of the Zoning Ordinance in that year established a much larger variety, and there are now 11 different kinds of special exceptions for applicable districts or uses. For these requests, a majority of the sitting members must agree that the intended use satisfies or will satisfy whatever requirements are defined in the Zoning Ordinance for the intended use.

The ZBA heard four requests for **Home Occupation Special Exceptions** this year—including one to make permanent a window-treatment business that the ZBA had allowed for a one-year trial period the previous year because of concerns about possible adverse impact on the neighbors; this year no neighbor came to complain and some who had protested before came in to acknowledge that the business had not been a problem. The other three, interestingly enough, all pertained to one applicant, who never came to a hearing, and the Board finally requested her to file a written request for withdrawal.

The ZBA this year held two hearings (whereas last year there were 15) regarding applications for an **Accessory Living Unit Special Exception** for semi-private living units in or attached to homes for members of extended families. Members of this Board were instrumental in creating this ordinance, which was designed to let members of extended families enjoy both privacy and dignity without creating full duplex-type housing units, which the ZBA regularly had denied in the past in those districts in which duplexes were not allowed. At the same time, the members of the ZBA are very aware of possible misuse of this allowance and remain alert to the need to prevent such units from becoming rental apartments after the need to help a family member is over, and several changes of the original ordinance have been passed to ensure that the intended purpose is met. The ZBA approved both of this year's requests, finding that both applications satisfied all requirements (and with one of them being hailed as an exceptionally well designed request).

A **Wetland Special Exception** is required for any work done in defined wetlands or within a 50-foot buffer (the Wetland Conservation District) surrounding such a wetland; such special exception permits are allowed only for certain specific purposes (*not* including a house or auxiliary building). An applicant first must get approval from the Hudson Conservation Commission and (if applicable) the Hudson Planning Board, the New Hampshire Department of Environmental Services, and perhaps even the U. S. Army Corps of Engineers, as well as sometimes the EPA. This arrangement means that such requests normally do not get to the ZBA unless they have already demonstrated convincing reasons for being accepted. The ZBA held 11 hearings on requests for Wetland Special Exceptions this year (one less than last year) — with one of these actually being a sitewalk on the property to get an on-the-ground evaluation of the property and its potential impact, because of concerns that had been raised by the Conservation Commission and the Planning Board. Of the remainder, the Board granted nine and deferred one.

Appeals of **Administrative Decisions** come about for one of three reasons — that a property owner disagrees that a variance or special exception is needed, that an abutter (or sometimes the Planning Board) disagrees that a granted Building Permit should have been allowed, or that a citizen believes the Planning Board or other agency made a decision on the basis of an improper zoning determination. For these cases, the ZBA decides either to uphold the administrative decision or to reverse that decision. The general premise for such hearings is that a majority of the sitting members must find that they would or would not have come to the same decision that is being appealed. The ZBA held 11 such hearings this year — upholding the zoning administrative decision in four cases, overturning it in one, deferring four, allowing one to withdraw, and declining to hear one because the ZBA felt that the request was merely an unwarranted attempt to avoid paying appropriate Planning Board charges.

The Zoning Ordinance is and must be a living document, and proposals for changes to it can be and often are put forward every year by the Planning Board, the Selectmen, and citizen petitions as new concepts and understandings arise. Similarly, the makeup of the ZBA and the nature of its decisions change through the years as new members become appointed to the ZBA or as continuing members develop value judgments based on experience and training. But all members of the ZBA presumably have Hudson's best interests at heart and serve you as best as they can, within their understanding of the requirements and responsibilities. This year's ZBA membership included a mechanical engineer, a software supplier manager for a major international company, a regional sales manager for a national manufacturer, a BAE project manager (who is also on the Planning Board), a packaging department supervisor, a commercial real estate broker and consultant, a national-chain store manager, and a retiree with a home-based business. The citizens of Hudson should take comfort in the fact that citizens of this caliber are willing to undertake the commitment to attend all meetings (most of which last until midnight or later), to do the required research and reviewing, and to stand up to the pressures of making decisions that often distress other citizens.

Respectfully submitted,

J. Bradford Seabury, Chairman

A large, stylized handwritten signature in black ink, which appears to read "J. Bradford Seabury". The signature is written in a cursive, flowing style with large loops and a long horizontal stroke at the bottom.

Cases Heard by Hudson Zoning Board of Adjustment During 2007-2008 Fiscal Year (Sheet 1 of 7)

Map & Lot Numbers	Applicant(s) of Record	Location of Property (Street Address)	Nature of Request Presented in Application to ZBA	District	Town Code	ZBA Decision	Date Heard
<u>168-51</u>	David R. Ward Revocable Trust & Nina M. Ward Revocable Trust	1 Madison Road	Area Variance to allow construction of a 6' x 24' deck within front yard setback	R-2	334-31A	Deferred 5-0	07-12-07
<u>168-51</u>	David R. Ward Revocable Trust & Nina M. Ward Revocable Trust	1 Madison Road	Area Variance to allow existing arbor & shed to remain in front yard setback	R-2	334-27	Deferred 5-0	07-12-07
<u>168-121</u>	CYMRAG Breaddwyd LLC., PO Box 342, Derry	238 Central Street	Area Variance to allow installation of a free-standing sign within front setback	R-2	334-60 (F)	Denied 4-1	07-12-07
<u>150-11-1</u>	May-Lynn Washburn	98A Greeley Street	Home Occupation Special Exception to allow establishment of esthetic services in the residence.	G	334-24	Deferred 5-0	07-12-07
<u>197-20</u>	Scott Zimmerman	22 Oban Drive	Area Variance to allow construction of a 6' x 20' addition within front yard setback	TR	334-27	Approved w/stip 4-1	07-12-07
32-118	Phillip A. DeRosa, Jr	1 Paget Drive	Request for expedited review			Need to apply	07-12-07
182-4	Robert Heywood, 1 Conant Road, Nashua	59 Central Street	Request for Rehearing (second) for Use Variance to allow 20' x 30' attached garage to be converted into fourth living unit, making non-conforming 3-family dwelling more non-conforming.	TR	334-29	Not to Rehear 5-0	07-12-07
211-40 (Deferred from 6/28/07)	Bonnie Lavallee	51 Burns Hill Road	Appeal from Administrative Decision dated February 13, 2007, which stated that a two-family dwelling was not a permitted use in R-1 Zoning District	R-1	334-21	Upheld 5-0	07-26-07
211-40 (Deferred from 6/28/07)	Bonnie Lavallee	51 Burns Hill Road	Use Variance to allow a two-family dwelling in the R-1 Zoning District	R-1	334-21	Deferred 4-1	07-26-07
144-29	Bridget Duguay	25 Lawrence Road	Use Variance to allow housing of a horse on property with less than 5 acres	R-2	334-21	Deferred 5-0	07-26-07
177-9	Michael and Lisa McElhinney	52 Kimball Hill Road	Wetland Special Exception to allow existing structure to remain within wetland buffer	G	334-35	Approved 5-0	07-26-07
177-9	Michael and Lisa McElhinney	52 Kimball Hill Road	Use Variance to allow existing structure within wetland buffer to be used as a two-car garage plus storage	G	334-21	Approved 5-0	07-26-07
150-14	Sunset Rock, LLC, 1471 Methuen Street, Dracut, MA	24 Barretts Hill Road	Area Variance to allow sub-division and lot line adjustment to create two lots	G-1	334-27.1	Approved 5-0	07-26-07
231-9	Dana & Janet Frenette	10 Dumont Road	Use Variance to allow change of existing non-conforming use from metal fabrication to a pet care training/grooming facility	R-2	334-29	Allowed Withdrawal 5-0	07-26-07

INDEPENDENT AUDITOR'S REPORT

To the Members of the Board of Selectmen
Town of Hudson
Hudson, New Hampshire

We have audited the accompanying financial statements of the Town of Hudson, as of and for the fiscal year ended June 30, 2008 as shown on pages 2 through 7. These financial statements are the responsibility of the Town of Hudson's management. Our responsibility is to express opinions on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinions.

Management has not implemented Governmental Accounting Standards Board (GASB) Statement No. 34, *Basic Financial Statements - and Management's Discussion and Analysis - for State and Local Governments*. Therefore these financial statements are presented following the principles that were in effect prior to GASB Statement No. 34. Management has not presented government-wide financial statements to display the financial position and changes in financial position of its governmental activities and business-type activities. The financial statements presented do not contain separate statements for governmental, proprietary, if applicable and fiduciary fund types, nor are major and nonmajor funds separately identified and classified. The financial statements presented report expendable and nonexpendable trust funds, some of which should be reported as special revenue and permanent funds under the new reporting model. The financial statements also present account groups which should not be reported as such, but the information contained therein should be included in the government-wide financial statements were they presented. Management has not presented a management's discussion and analysis as required. The amounts that would be reported in the missing statements and required supplementary information, and the effects of reclassifying and properly reporting the information presented are not reasonably determined.

In our opinion, because of the effects of the matters discussed in the preceding paragraph, the financial statements referred to above do not present fairly, in conformity with accounting principles generally accepted in the United States of America, the financial position of the Town of Hudson as of June 30, 2008, or the changes in its financial position or its cash flows, where applicable, for the year then ended.

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Town of Hudson's basic financial statements. The combining and individual fund schedules are presented for purposes of additional analysis and are not a required part of the basic financial statements of the Town of Hudson. For reasons stated in the third paragraph of this report, we expressed an opinion that the financial statements of the Town of Hudson do not fairly present financial position, results of operations, or cash flows in conformity with accounting principles generally accepted in the United States of America. Therefore, we do not express an opinion on the accompanying combining and individual fund schedules.

TOWN OF HUDSON, NEW HAMPSHIRE
NOTES TO THE FINANCIAL STATEMENTS
AS OF AND FOR THE FISCAL YEAR ENDED
JUNE 30, 2008

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The more significant of the government's accounting policies are described below.

1-A Reporting Entity

The Town of Hudson, New Hampshire (the Town), incorporated in 1746, is a municipal corporation governed by an elected 5-member Board of Selectmen. The reporting entity is comprised of the primary government and any other organizations that are included to ensure that the financial statements are not misleading.

Component units are legally separate organizations for which the Town is financially accountable. The Town is financially accountable for an organization if the Town appoints a voting majority of the organization's governing board and (1) the Town is able to significantly influence the programs or services performed or provided by the organization; or (2) the Town is legally entitled to or can otherwise access the organization's resources; the Town is legally obligated or has otherwise assumed the responsibility to finance the deficits of, or provide financial support to, the organization; or the Town is obligated for the debt of the organization. Based on the foregoing criteria, no other organizations are included in the Town's financial reporting entity.

1-B Basis of Presentation

The accounts of the Town are organized on the basis of funds and account groups, each of which is considered a separate accounting entity. The operations of each fund are accounted for with a separate set of self-balancing accounts that comprise its assets, liabilities, fund equity, revenues, and expenditures/expenses, as appropriate. The various funds are grouped by type in the financial statements. The following fund types and account groups are used by the Town:

Governmental Fund Types

General Fund - The general fund is the primary operating fund of the Town. All general tax revenues and other receipts that are not allocated by law or contractual agreement to another fund are accounted for in this fund. From the fund are paid the general operating expenditures, the fixed charges, and the capital improvement costs that are not paid through other funds.

Special Revenue Funds - Special revenue funds are used to account for the proceeds of specific revenue sources (other than expendable trust or major capital projects) requiring separate accounting because of legal or regulatory provisions or administrative action.

Capital Projects Funds - Transactions related to resources obtained and used for the acquisition, construction, or improvement of capital facilities are accounted for in capital projects funds.

Fiduciary Fund Types

Trust and Agency Funds - These funds account for assets held or established under a formal trust agreement or Town Meeting vote, or assets held by the Town as a trustee or agent for individuals, private organizations, or other units of government.

Account Groups

Account groups are not "funds." They are concerned only with the measurement of financial position. They are not involved with the measurement of results of operations. The Town uses the following account groups:

General Fixed Assets Account Group - This account group was established to account for all fixed assets of the Town.

General Long-Term Debt Account Group - This account group was established to account for all long-term debt of the Town.

TOWN OF HUDSON, NEW HAMPSHIRE
NOTES TO THE FINANCIAL STATEMENTS
AS OF AND FOR THE FISCAL YEAR ENDED
JUNE 30, 2008

1-C Measurement Focus/Basis of Accounting

Governmental, expendable trust and agency funds use the modified accrual basis of accounting. Under this method, revenues are recognized in the accounting period in which they become both available and measurable (flow of current financial resources measurement focus). Licenses and permits, fines and forfeits, and most miscellaneous revenues are recorded when received in cash. General taxes, intergovernmental revenues, charges for services, and investment earnings are recorded when earned (when they are measurable and available). Expenditures are recognized in the accounting period in which the fund liability is incurred, if measurable, except expenditures for prepayments, debt service, and other long-term obligations, which are recognized when due.

Nonexpendable trust funds are accounted for using the accrual basis of accounting. Using this basis of accounting, revenues are recognized when they are earned, and expenses are recognized when they are incurred (flow of economic resources measurement focus).

1-D Assets, Liabilities and Fund Equity

1-D-1 Cash, Cash Equivalents and Investments

Cash and Cash Equivalents - Cash and cash equivalents include amounts in demand deposits as well as short-term investments with a maturity date within three months of the date acquired by the Town.

New Hampshire statutes require that the Town treasurer have custody of all moneys belonging to the Town and pay out the same only upon orders of the Board of Selectmen. The treasurer shall deposit all moneys in participation units in the public deposit investment pool established pursuant to N.H. RSA 383:22 or in solvent banks in the state. Funds may be deposited in banks outside the state if such banks pledge or deliver to a third party custodial bank or the Federal Reserve Bank, collateral security for such deposits, United States government or government agency obligations, or obligations of the State of New Hampshire in value at least equal to the amount of the deposit in each case.

Investments - Whenever the treasurer has in custody an excess of funds which is not immediately needed for the purpose of expenditure, the treasurer shall, with the approval of the Board of Selectmen, invest the excess funds. New Hampshire law authorizes the Town to invest in the following types of obligations:

- Obligations of the United States government,
- The public deposit investment pool established pursuant to RSA 383:22,
- Savings bank deposits, or
- Certificates of deposit and repurchase agreements of banks incorporated under the laws of the State of New Hampshire or in banks recognized by the state treasurer.

Any person who directly or indirectly receives any such funds or moneys for deposit or for investment in securities of any kind shall, prior to acceptance of such funds, make available at the time of such deposit or investment an option to have such funds secured by collateral having a value at least equal to the amount of such funds. Such collateral shall be segregated for the exclusive benefit of the Town. Only securities defined by the bank commissioner as provided by rules adopted pursuant to RSA 386:57 shall be eligible to be pledged as collateral.

Investments are stated at fair value as of the balance sheet date which is based on quoted market prices.

1-D-2 Receivables

Tax revenue is recorded when a warrant for collection is committed to the tax collector. All taxes receivable are shown net of an allowance established for any taxes that were not lienied within statutory time limits, unredeemed amounts that are beyond the two-year statutory period for deeding, and certain other amounts deemed by management to have questionable collectibility.

TOWN OF HUDSON, NEW HAMPSHIRE
NOTES TO THE FINANCIAL STATEMENTS
AS OF AND FOR THE FISCAL YEAR ENDED
JUNE 30, 2008

As prescribed by law, the tax collector executes a lien on properties for all uncollected property taxes in the following year after taxes are due. The lien on these properties has priority over other liens and accrues interest at 18% per annum. If property is not redeemed within the 2-year redemption period, the property is tax deeded to the Town.

Various services charges (ambulance, police, water, sewer) are recorded as revenue for the period when service was provided. Such receivables are also reported net of allowances for amounts management deems to be uncollectible.

1-D-3 Interfund Balances and Activity

During the course of normal operations, the Town has transactions between funds, including expenditures and transfer of resources to provide services and fund capital outlay. The accompanying governmental and fiduciary fund financial statements reflect such transactions as transfers. To the extent that certain transactions have not been paid or received as of year-end, balances of interfund amounts receivable or payable have been recorded.

1-D-4 Prepaid Items

Certain payments to vendors reflect costs applicable to future accounting periods and are recorded as prepaid items.

1-D-5 General Fixed Assets

General fixed assets are those acquired for general governmental purposes. They are not capitalized in the funds used to acquire or construct them. Instead, these acquisitions are recorded as expenditures in the governmental funds at the time purchases or services are received and a liability is incurred. The related assets are reported in the general fixed assets account group.

All capital assets are valued at historical cost, or estimated historical cost, if actual historical cost is not available. Donated fixed assets are valued at their estimated fair value on the date donated. The Town capitalizes all buildings, public domain assets and other assets with an estimated useful life of more than five years and a cost of \$2,000 or more. Public domain ("infrastructure") assets consisting of certain improvements other than buildings, including roads, bridges, curbs and gutters, streets and sidewalks, drainage systems, and lighting systems, are not capitalized along with other fixed assets. No depreciation has been provided on fixed assets. The cost of normal maintenance and repairs that do not add to the value of an asset or extend the asset's life is not capitalized.

1-D-6 Compensated Absences

Employees may accumulate a limited amount of earned, but unused vested benefits which will be paid upon separation from the Town's service. In governmental fund types, the cost of vested benefits paid or expected to be liquidated with expendable available financial resources is reported as an expenditure and fund liability of the fund. Amounts of vested or accumulated leave benefits that are not expected to be liquidated with expendable available financial resources are reported in the general long-term debt account group. No expenditure is reported for these amounts.

1-D-7 Deferred Revenue

The government reports deferred revenue on its combined balance sheet. Deferred revenue arises when a potential revenue does not meet both the "measurable" and "available" criteria for recognition in the current period. Deferred revenue also arises when resources are received by the government before it has a legal claim to them, as when grant monies are received prior to the incurrence of qualifying expenditures. In subsequent periods, when revenue recognition criteria are met, or when the government has a legal claim to the resources, the liability for deferred revenue is removed from the combined balance sheet and revenue is recognized.

TOWN OF HUDSON, NEW HAMPSHIRE
NOTES TO THE FINANCIAL STATEMENTS
AS OF AND FOR THE FISCAL YEAR ENDED
JUNE 30, 2008

1-D-8 Accrued Liabilities and Long-Term Obligations

All payables and accrued liabilities are reported in the financial statements.

In general, governmental fund payables and accrued liabilities that, once incurred, are paid in a timely manner and in full from current financial resources, are reported as obligations of these funds. However, claims and judgments, and compensated absences that will be paid from governmental funds are reported as a liability in the fund financial statements only to the extent that they are "due for payment" during the current year.

The Town reports long-term debt of governmental funds at face value in the general long-term debt account group. Certain other governmental fund obligations not expected to be financed with current available financial resources are also reported in the general long-term debt account group.

1-D-9 Equity

Generally, fund balance represents the difference between the current assets and current liabilities. The Town reserves those portions of fund balance that are legally segregated for a specific future use or that do not represent available, spendable resources, and therefore are not available for appropriation or expenditure. Unreserved fund balance indicates that portion of fund balance that is available for appropriation in future periods. Designations are management's intent to set aside these resources for specific purposes.

The following reserves are used by the Town:

Reserved for Debt Service - represents unexpended bond proceeds to be used to retire the related debt.

Reserved for Encumbrances - is used to account for open purchase orders, contracts and other commitments at year-end for which goods and services have not been received.

Reserved for Endowments - represents the principal balance of the Town's nonexpendable trust funds which must be held for investment purposes only.

Reserved for Special Purposes - is used to account for the unencumbered balance of restricted funds. These consist of an amount in the general fund for grants and donations for specific purposes, the unexpended balance of the capital project fund, the Town's expendable trust funds, and the income portion of the Town's nonexpendable trust funds.

The following designations are used by the Town:

Designated for Contingency - is used to account for potential liabilities to developers from the water utility fund carried over from the acquisition of Consumers New Hampshire Water Company.

Designated for Special Purposes - is used to account for the unencumbered balances of special revenue funds.

1-D-10 Estimates

The preparation of financial statements requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results may differ from those estimates.

1-D-11 Memorandum Only - Total Columns

Total columns on the financial statements are captioned as "memorandum only" because they do not represent consolidated financial information and are presented only to facilitate financial analysis. The columns do not present information that reflects financial position, results of operations or cash flows in accordance with U.S. generally accepted accounting principles. Interfund eliminations have not been made in the aggregation of this data.

TOWN OF HUDSON, NEW HAMPSHIRE
NOTES TO THE FINANCIAL STATEMENTS
AS OF AND FOR THE FISCAL YEAR ENDED
JUNE 30, 2008

NOTE 2 - STEWARDSHIP, COMPLIANCE AND ACCOUNTABILITY

2-A Budgetary Information

General governmental revenues and expenditures accounted for in budgetary funds are controlled by a formal integrated budgetary accounting system in accordance with various legal requirements which govern the Town's operations. At its annual meeting, the Town adopts a budget for the current year for the general, water department utility, sewer department, Hills Memorial Library and conservation commission funds. Except as reconciled in Note 2-B, the budget was adopted on a basis consistent with U.S. generally accepted accounting principles.

Management may transfer appropriations between operating categories as deemed necessary, but expenditures may not legally exceed budgeted appropriations in total. All annual appropriations lapse at year-end unless encumbered.

Encumbrance accounting, under which purchase orders, contracts, and continuing appropriations (certain projects and specific items not fully expended at year-end) are recognized, is employed in the governmental funds. Encumbrances are not the equivalent of expenditures, and are therefore, reported as part of the fund balance at year-end, and are carried forward to supplement appropriations of the subsequent year.

State statutes require balanced budgets, but provide for the use of beginning unreserved fund balance to achieve that end. In the fiscal year 2008, \$1,550,000 of the beginning general fund and \$400,000 of beginning sewer department fund fund balances, were applied for this purpose.

(This area left blank intentionally)

TOWN OF HUDSON, NEW HAMPSHIRE
NOTES TO THE FINANCIAL STATEMENTS
AS OF AND FOR THE FISCAL YEAR ENDED
JUNE 30, 2008

2-B Budgetary Reconciliation

Amounts recorded as budgetary revenues and expenditures in the Combined Statement of Revenues, Expenditures and Changes in Fund Balances - Budget and Actual - General and Special Revenue Funds (Exhibit C) are presented on the basis budgeted by the Town. The amounts differ from those reported in the Combined Statement of Revenues, Expenditures and Changes in Fund Balances - All Governmental Fund Types and Expendable Trust Funds (Exhibit B) as follow:

	<u>General Fund</u>	<u>Special Revenue Funds</u>
Revenues and other financing sources:		
Per Exhibit C (budgetary basis)	\$ 20,986,761	\$ 7,145,544
Adjustments:		
Basis difference:		
Inception of capital leases	370,360	-
On-behalf retirement contributions made by the State of New Hampshire recognized as revenue on the GAAP basis, but not on the budgetary basis	439,435	-
Entity difference:		
Unbudgeted funds:		
Capital impact fees	-	70,842
Land use change	-	169,128
Police forfeiture	-	9,656
Per Exhibit B	<u>\$ 21,796,556</u>	<u>\$ 7,395,170</u>
Expenditures and other financing uses:		
Per Exhibit C (budgetary basis)	\$ 21,300,052	\$ 7,375,010
Adjustments:		
Basis difference:		
Inception of capital leases	370,360	-
Encumbrances, beginning	613,141	117,050
Encumbrances, ending	(454,234)	(131,193)
On-behalf retirement contributions made by the State of New Hampshire recognized as an expenditure on the GAAP basis, but not on the budgetary basis	439,435	-
Entity difference:		
Unbudgeted funds:		
Capital impact fees	-	117,049
Land use change	-	280,153
Police forfeiture	-	77,797
Per Exhibit B	<u>\$ 22,268,754</u>	<u>\$ 7,835,866</u>

2-C Excess of Expenditures Over Appropriations

The water department fund had an excess of expenditures over appropriations in the amount of \$109,340 for the year ended June 30, 2008. The overexpenditure was due to under budgeting for operating expenses and was funded by beginning fund balance.

2-D Capital Project Fund Deficit

There is an unreserved deficit of \$56,526 in the library building project fund at June 30, 2008, based on a reserve for encumbrances (obligations) of \$3,758,044. Management intends to use investment earnings to cover the deficit.

TOWN OF HUDSON, NEW HAMPSHIRE
NOTES TO THE FINANCIAL STATEMENTS
AS OF AND FOR THE FISCAL YEAR ENDED
JUNE 30, 2008

2-E Restatement of Fund Equity

The fund balance in the sewer department fund at July 1, 2007 was restated to record a reserve that had not been recorded in the prior year as follows:

Adjustment	\$ (37,065)
Fund balance, as previously reported	2,129,548
Fund balance, as restated	<u><u>\$ 2,092,483</u></u>

2-F Applicable Reporting Standard

In June 1999, the Governmental Accounting Standards Board (GASB) issued Statement No. 34, *Basic Financial Statements - and Management's Discussion and Analysis - for State and Local Governments*. When implemented, it requires new information and restructures much of the information that governments have presented in the past. Comparability with reports issued in all prior years will be affected. The Town was required to implement this standard beginning with the year ended June 30, 2003, but has not done so.

NOTE 3 - DETAILED NOTES ON ALL FUNDS AND ACCOUNT GROUPS

3-A Custodial Credit Risk for Deposits and Investment Risks

Custodial credit risk is the risk that in the event of a bank failure, a government's deposits may not be returned to it. The Town does not have a deposit policy for custodial credit risk. As of June 30, 2008, \$4,869,232 of the Town's bank balances of \$38,928,711 was exposed to custodial credit risk as uninsured and uncollateralized.

Included in the Town's cash equivalents at June 30, 2008, are short-term investments in repurchase agreements issued by a local banking institution. Under these agreements, the Town will be repaid principal plus interest on a specified date which is subsequent to year-end. The agreements are guaranteed/collateralized with securities held by the banking institution which exceed the amount of the agreements. To the extent that the banking institution may default on its commitment to these obligations, the Town is at risk of economic loss. Management considers this exposure to be minimal. At June 30, 2008, the Town held investments in the following repurchase agreements:

Fund	Amount	Interest Rate %	Maturity Date
General	\$ 15,453,186	1.90	July 1, 2008
Water	\$ 5,249,573	1.90	July 1, 2008

The repurchase agreements were collateralized with FNMS securities having a value of \$21,910,757 and GNRA securities having a value of \$1,020,096.

As of June 30, 2008, the Town had the following investments:

Certificates of deposit	\$ 3,307,996
Corporate bonds	1,005,579
Common stocks	2,424,820
New Hampshire Public Deposit Investment Pool	1,576,938
	<u><u>\$ 8,315,333</u></u>

Interest Rate Risk - The Town does not have a formal investment policy that limits investment maturities as a means of managing its exposure to fair value losses arising from increasing interest rates.

Custodial Credit Risk - The custodial credit risk for investments is the risk that, in the event of the failure of the counterparty (e.g. broker-dealer) to a transaction, a government will not be able to recover the value of its investment or collateral securities that are in the possession of another party. Of the Town's \$8,315,333 in investments, \$2,424,820 is subject to custodial credit risk because the securities are held by the counter party's trust department or agent, not in the Town's name. The Town does not have policies for custodial credit risk.

TOWN OF HUDSON, NEW HAMPSHIRE
NOTES TO THE FINANCIAL STATEMENTS
AS OF AND FOR THE FISCAL YEAR ENDED
JUNE 30, 2008

3-B Taxes Receivable

The property tax year is from April 1 to March 31 and all property taxes are assessed on the inventory taken in April of that year. The net assessed valuation as of April 1, 2007, upon which the 2007 property tax levy was based is:

For the New Hampshire education tax	\$ 2,759,200,615
For all other taxes	\$ 2,851,480,415

The Town subscribes to the semi-annual method of tax collection as provided for by RSA 76:15-a. Under this method, tax bills are due on or around July 1 and December 1 of each year, with interest accruing at a rate of 12% on bills outstanding after the due date. The first billing is considered an estimate only and is one half of the previous year's tax billing. The remaining balance of taxes due is billed in the fall after the New Hampshire Department of Revenue Administration has calculated and approved the Town's tax rate for the fiscal year.

In connection with the setting of the tax rate, Town officials with the approval of the Department of Revenue Administration, establish and raise through taxation an amount for abatements and refunds of property taxes, known as overlay. This amount is reported as a reduction in tax revenue and is adjusted by management for any tax allowances at year-end. The property taxes collected by the Town include taxes levied for the State of New Hampshire, Hudson School District and Hillsborough County, which are remitted as required by law. The ultimate responsibility for the collection of taxes rests with the Town.

The tax rates and amounts assessed for the year ended June 30, 2008, were as follow:

	Per \$1,000 of Assessed Valuation	Property Taxes Assessed
Municipal portion	\$4.44	\$ 12,652,167
School portion:		
State of New Hampshire	\$2.33	6,432,220
Local	\$7.23	20,610,625
County portion	\$1.01	2,890,696
Total property taxes assessed		<u>\$ 42,585,708</u>

Taxes receivable at June 30, 2008, are as follow:

General Fund

Less: allowance for estimated uncollectible	(75,401)
Net special revenue fund taxes receivable	<u>\$ 75,396</u>

TOWN OF HUDSON, NEW HAMPSHIRE
NOTES TO THE FINANCIAL STATEMENTS
AS OF AND FOR THE FISCAL YEAR ENDED
JUNE 30, 2008

3-C Other Receivables

Other receivables at June 30, 2008, consist of accounts (billings for water, sewer, ambulance and other user charges), special assessments and intergovernmental amounts arising from grants and gasoline sales to other entities.

Receivables are recorded on the Town's financial statements to the extent that the amounts are determined to be material and substantiated not only by supporting documentation, but also by a reasonable, systematic method of determining their existence, completeness, valuation, and collectibility.

Amounts receivable at June 30, 2008 are as follow:

	General Fund	Special Revenue Funds	Total
Accounts	\$ 929,090	\$ 539,162	\$ 1,468,252
Special assessments	-	783,228	783,228
Intergovernmental	18,882	-	18,882
Liens	103,839	-	103,839
Allowance for unavailable or uncollectible amounts	(861,416)	(759,012)	(1,620,428)
Net total receivables	<u>\$ 190,395</u>	<u>\$ 563,378</u>	<u>\$ 753,773</u>

3-D General Fixed Assets

A summary of changes in general fixed assets for the fiscal year ended June 30, 2008 is as follows:

	Balances, beginning	Additions	Balances, ending
Land	\$ 9,648,857	\$ 11,500	\$ 9,660,357
Land improvements	7,587,022	-	7,587,022
Buildings	9,997,394	9,894	10,007,288
Machinery and equipment	3,422,489	235,740	3,658,229
Vehicles	5,065,721	545,909	5,611,630

Totals	<u>\$ 38,468,249</u>	<u>\$ 803,043</u>	<u>\$ 39,271,292</u>

3-E Interfund Balances and Transfers

Interfund balances at June 30, 2008 consist of overdrafts in the pooled cash, budgetary transfers not yet made, and short-term interfund loans to be repaid within one year, as follow:

Receivable fund	Payable fund	Amount
General	Special revenue	\$ 343,491
	Capital projects	2,064,136
	Trust and agency	316,340
Special revenue	General	22,534
	Special revenue	514,902
	Trust and agency	1,382,127
Capital projects	Special revenue	2,375,285
		<u>\$ 7,018,815</u>

TOWN OF HUDSON, NEW HAMPSHIRE
NOTES TO THE FINANCIAL STATEMENTS
AS OF AND FOR THE FISCAL YEAR ENDED
JUNE 30, 2008

Interfund transfers during the year were comprised of voted appropriations and the distribution of trust income as follow:

	Transfers in:			
	General Fund	Special Revenue Funds	Trust Funds	Total
Transfers out:				
General fund	\$ -	\$ 848,114	\$ 282,935	\$ 1,131,049
Special revenue funds	196,789	83,364	625,500	905,653
Trust funds	270,000	601,499	-	871,499
Totals	<u>\$ 466,789</u>	<u>\$ 1,532,977</u>	<u>\$ 908,435</u>	<u>\$ 2,908,201</u>

3-F Intergovernmental Payable

The amount due to other governments at June 30, 2008 consists of expendable trust funds belonging to the Hudson School District in the amount of \$452,217.

3-G Deferred Revenue

Deferred revenue in the general fund at June 30, 2008 consists of property taxes billed, but not due until the subsequent year, and other specific grants and donations received prior to eligible expenditures having been made. Deferred revenue in the special revenue funds consists of water and sewer department fees and assessments not currently available.

General fund:		
Deferred tax revenue	\$ 21,129,810	
Other deferred revenue	<u>3,885</u>	
Total general fund		\$ 21,133,695
Water utility fund:		
Hookup fees not currently available	\$ 1,220,629

Totals	<u>\$ 571,543</u>	<u>\$ 62,086</u>	<u>\$ 633,629</u>

All debt is general obligation debt of the Town, which is backed by its full faith and credit, and will be repaid from general governmental revenues.

TOWN OF HUDSON, NEW HAMPSHIRE
NOTES TO THE FINANCIAL STATEMENTS
AS OF AND FOR THE FISCAL YEAR ENDED
JUNE 30, 2008

Accrued Landfill Postclosure Care Costs

Federal and State laws and regulations require that the Town continue to perform certain maintenance and monitoring functions at the closed landfill site. A liability totaling \$390,000, is being recognized in the general long-term debt account group based on these future postclosure care costs. The estimated total current cost of the landfill postclosure care is based on the amount that would be paid if all equipment, facilities, and services required to monitor and maintain the landfill were acquired as of June 30, 2008. However, the actual cost of postclosure care may be higher or lower due to inflation, changes in technology, or changes in landfill laws and regulations.

NOTE 4 - OTHER MATTERS

4-A Pensions

The Town of Hudson participates in the New Hampshire Retirement System (the System) which consists of a cost-sharing, multiple-employer contributory pension plan and trust established in 1967 by RSA 100-A:2 and is qualified as a tax-exempt organization under Sections 401(a) and 501(a) of the Internal Revenue Code. The plan is a contributory, defined benefit plan providing service, disability, death and vested retirement benefits to members and their beneficiaries. Provisions for benefits and contributions are established and can be amended by the New Hampshire Legislature. The System issues a publicly available financial report that may be obtained by writing the New Hampshire Retirement System, 54 Regional Drive, Concord, NH 03301.

The System is financed by contributions from both the employees and the Town. Member contribution rates are established and may be amended by the State legislature while employer contribution rates are set by the System trustees based on an actuarial valuation. All employees except police officers and firefighters are required to contribute 5% of gross earnings. Police officers and firefighters are required to contribute 9.3% of gross earnings. For the year ended June 30, 2008, the Town contributed 11.84% for police, 15.92% for fire and 8.74% for other employees. The contribution requirements for the Town of Hudson for the fiscal years 2006, 2007 and 2008 were \$911,013, \$946,314 and \$1,213,045 respectively, which were paid in full in each year.

The State of New Hampshire funds 35% of employer costs for police officers and firefighters employed by the Town. This amount, \$439,435 is reported as an "on-behalf" payment," as a revenue and expenditure on the combined statement of revenues, expenditures and changes in fund balances for all governmental fund types and expendable trust funds (Exhibit B).

4-B Risk Management

The Town is exposed to various risks of loss related to torts; theft of, damage to, or destruction of assets; errors or omissions; injuries to employees; or natural disasters. During fiscal year 2008, the Town was a member of the Local Government Center Property-Liability Trust, LLC and the New Hampshire Public Risk Management Exchange (Primex) Workers' Compensation Program. These entities are considered public entity risk pools, currently operating as common risk management and insurance programs for member towns and cities.

The Local Government Center Property-Liability Trust, LLC is a Trust organized to provide certain property and liability insurance coverages to member towns, cities and other qualified political subdivisions of New Hampshire. As a member of the Local Government Center Property-Liability Trust, LLC, the Town shares in contributing to the cost of, and receiving benefits from, a self-insured pooled risk management program. The membership and coverage run from July 1 to June 30. The program maintains a self-insured retention above which it purchases reinsurance and excess insurance. This policy covers property, auto physical damage, crime, general liability and public officials' liability subject to a \$1,000 deductible.

Contributions paid in 2008, to be recorded as an insurance expenditure, totaled \$172,223. There were no unpaid contributions for the year ended June 30, 2008. The trust agreement permits the Trust to make additional assessments to members should there be a deficiency in Trust assets to meet its liabilities. At this time, the Trust foresees no likelihood of any additional assessments for past years.

TOWN OF HUDSON, NEW HAMPSHIRE
NOTES TO THE FINANCIAL STATEMENTS
AS OF AND FOR THE FISCAL YEAR ENDED
JUNE 30, 2008

The Primex Workers' Compensation Program is a pooled risk management program under RSAs 5-B and 281-A. The workers' compensation policy provides statutory coverage for workers' compensation. Primex retained \$500,000 of each loss. The membership and coverage run from January 1 through December 31. The estimated net contribution from the Town of Hudson billed for the year ended December 31, 2008 was \$191,578, which was all paid as of June 30, 2008. The member participation agreement permits Primex to make additional assessments to members, should there be a deficiency in contributions for any member year, not to exceed the member's annual contribution. At this time, Primex foresees no likelihood of any additional assessment for this or any prior year.

4-C Contingent Liabilities

There are various claims and suits pending against the Town which arose in the normal course of the Town's activities. In the opinion of management, the ultimate disposition of these various claims and suits will not have a material effect on the financial position of the Town.

The Town has received federal and state grants for specific purposes that are subject to review and audit by the grantor agencies or their designee. These audits could result in a request for reimbursement from the grantor agency for costs disallowed under terms of the grant. Based on prior experience, the Town believes such disallowances, if any, will be immaterial.

When the Town purchased the assets of Consumers New Hampshire Water Company on April 10, 1998, it became bound to honor certain contractor agreements which had been entered into between Consumers New Hampshire Water Company and various developers. The terms of these agreements require the Town to make cash payments to the developers when new water services in the specified developments are connected to the Town's water system. These connections had not occurred prior to year-end, and there is no certainty as to when, if ever they might occur. The maximum potential liability, should all specified connections be made, is estimated to be \$291,975. This amount has been designed for contingency in the water utility fund.

4-D Cafeteria Benefit Plan

Effective January 1991, the Town implemented a cafeteria benefit plan pursuant to Section 125 of the IRS code. Under this plan, eligible employees may direct a contribution, made by the Town, into any combination of the following benefit categories:

1. Out of pocket medical spending account; or
2. Dependent care spending account

Under no circumstances may an employee direct more than \$1,000 annually into the medical or \$5,000 annually into the dependent care spending account.

INDEPENDENT AUDITOR'S COMMUNICATION OF CONTROL DEFICIENCIES AND OTHER MATTERS

To the Members of the Board of Selectmen
Town of Hudson
Hudson, New Hampshire

In planning and reporting our audit of the financial statements of the Town of Hudson as of and for the fiscal year ended June 30, 2008, in accordance with auditing standards generally accepted in the United States of America, we considered the Town of Hudson's internal control over financial reporting (internal control) as a basis for designing our auditing procedures for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Town of Hudson's internal control. Accordingly, we do not express an opinion on the effectiveness of the Town of Hudson's internal control.

Our consideration of internal control was for the limited purpose described in the preceding paragraph and would not necessarily identify all deficiencies in internal control that might be significant deficiencies or material weaknesses. However, as discussed below, we identified certain deficiencies in internal control that we consider to be material weaknesses, and another deficiency that we consider to be a significant deficiency.

A control deficiency exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect misstatements on a timely basis. A significant deficiency is a control deficiency, or combination of control deficiencies, that adversely affects the Town's ability to initiate, authorize, record, process, or report financial data reliably in accordance with generally accepted accounting principles such that there is more than a remote likelihood that a misstatement of the Town of Hudson's financial statements that is more than inconsequential will not be prevented or detected by the Town's internal control. We believe that the following deficiency constitutes a significant deficiency.

Preparation of Financial Statements

Due to the limited resources (time, personnel) available in the Town, the Board of Selectmen has requested that our firm prepare the financial statements and footnote disclosures for them to review and approve. This does not violate professional independence standards as management takes responsibility for the statements and is the most cost effective option for the Town.

Since there is more than a remote likelihood that a misstatement of the financial statements that is more than inconsequential will not be prevented or detected by management's view of the financial statements, we consider this to be a significant deficiency in internal control. We recommend that the Board of Selectmen annually evaluate whether it is cost effective to allocate resources to prepare the financial statements and disclosures.

A material weakness is a significant deficiency, or combination of significant deficiencies, that results in more than a remote likelihood that a material misstatement of the financial statements will not be prevented or detected by the Town of Hudson's internal control. We believe that the following deficiencies constitutes material weaknesses.

Town of Hudson
Independent Auditor's Communication of Control Deficiencies and Other Matters

Lack of Segregation of Duties Over Water Billings

Observation: We noted that one individual is responsible for the water billings, part-time collections and adjustments to individual accounts due to billing errors.

Implication: The lack of segregation of duties enhances the opportunity for errors and fraud.

Recommendation: We are cognizant of the lack of sufficient personnel to allow for segregation of duties in some instances. In this case, with the lack of segregation of duties, we recommend that all abatements be approved by someone in the finance office and the water utility commissioners. Likewise, oversight of the billings and collection process by the finance department is recommended.

We also want to discuss the following other issues that we do not consider to be significant deficiencies.

Past Due Water Accounts

Observation: In the past, we have commented to management concerning the large amount of past due balances in the water accounts. There apparently was a less than aggressive turn-off policy for unpaid balances. Also, many of the old accounts were inherited with the purchase of the water works in 1998.

Implication: During the fiscal year, the Town abated \$85,000 of old unpaid balances which were deemed to be uncollectible. There still remains an additional balance equal to this amount that is more than 120 days old. We commend management for the recent aggressive approach to collection of unpaid bills which includes a new turn-off policy which should eliminate future, large, unpaid balances.

Recommendation: We recommend that management continue to monitor the water rents receivable to insure timely collection of revenue.

Computer Controls

Observation: We noted that the Town does not have a formal process in place for notification of personnel changes. This includes changes in position or responsibility, new hires and employee severance.

Implication: Notification of separation from the Town is particularly important so that employee access to accounts and sensitive data can be severed in a timely manner in order to protect the integrity of the information system. For new hires, timely notification would ensure that IT personnel are given ample time and information to set up new accounts and permission for all information systems that are necessary for a new employee.

Recommendation: The Town of Hudson should adopt formal policies for notifying all departments, including the IT department of personnel changes. The process must ensure that the integrity of the information system is protected at all times. For example, before an employee is terminated, the IT department should be notified so that proper security measures may be implemented.

Observation: The computer room is currently shared with a number of departments to allow for large printing jobs in addition to accessibility for maintenance and service vendors.

Implication: The security of servers and crucial information systems is at risk.

Recommendation: Changes that are within the control of the IT department have been made in the past year to minimize security risks. However, the Town may wish to review the present computer room facilities to determine if any alternate arrangements are practical.

Town of Hudson

Independent Auditor's Communication of Control Deficiencies and Other Matters

Tax Collector Reporting to Registry of Deeds

Observation: We reviewed reports submitted to the Registry of Deeds for the redemption of taxes for the period from October 1 through December 31, 2007. Only 50 percent were filed in a timely manner.

Implication: The New Hampshire Revised Statutes Annotated (RSA) 80:70 provides that the Register of Deeds is to be notified of redemptions within 30 days of receipt. The tax collector was not in compliance with this statute. In defense of the tax collector, the office was short one employee, while at the same time initiating a new software program.

Recommendation: We recommend that the tax collector take steps to assure compliance with the State statute covering reporting redemptions to the Registry of Deeds.

Non-Compliance with Applicable Reporting Standard

Observation: We have commented in the past concerning the failure of the Town to comply with the Governmental Accounting Standards Board (GASB) Statement No. 34, *Basic Financial Statements - and Management's Discussion and Analysis - for State and Local Governments*. This statement took effect for the Town of Hudson beginning with the fiscal year ended June 30, 2003.

Implication: As a result of not complying with GASB Statement No. 34, the Town has received an adverse opinion on its financial statements each year. This opinion does not necessarily mean that the figures presented are not correct, but that they are not presented in accordance with generally accepted accounting principles.

Recommendation: We recommend that the Town take action to implement GASB Statement No. 34 as required by generally accepted accounting principles.

This communication is intended solely for the information and use of management, the board of selectmen, others within the organization, and state and federal agencies, and is not intended to be and should not be used by anyone other than these specified parties.

Town Warrant 2009

Hudson,
New Hampshire

BUDGET OF THE TOWN WITH A MUNICIPAL BUDGET COMMITTEE

OF: Town of Hudson, NH

**BUDGET FORM FOR TOWNS WHICH HAVE ADOPTED
THE PROVISIONS OF RSA 32:14 THROUGH 32:24**

Appropriations and Estimates of Revenue for the Ensuing Year July 1, 2009 to June 30, 2010

IMPORTANT:

Please read RSA 32:5 applicable to all municipalities.

1. Use this form to list the operating budget and all special and individual warrant articles in the appropriate recommended and not recommended area. All proposed appropriations must be on this form.
2. Hold at least one public hearing on this budget.
3. When completed, a copy of the budget must be posted with the warrant. Another copy must be placed on file with the town clerk, and a copy sent to the Department of Revenue Administration at the address below within 20 days after the meeting.

This form was posted with the warrant on (Date): _____

BUDGET COMMITTEE

Please sign in ink.

****SPECIAL WARRANT ARTICLES****

Special warrant articles are defined in RSA 32:3,VI, as appropriations: 1) in petitioned warrant articles; 2) appropriations raised by bonds or notes; 3) appropriations to a separate fund created pursuant to law, such as capital reserve funds or trusts funds; or 4) an appropriation designated on the warrant as a special article or as a nonlapsing or nontransferable article.

Maximum Allowable Increase to Budget Committee's Recommended Budget per RSA 32:18: \$2,550,151.
(See Supplemental Schedule With 10% Calculation)

**INSTRUCTIONS FOR FORM MS-7
BUDGET OF THE TOWN-MBA
PREPARATION AND POSTING OF THE BUDGET**

The budget committee is responsible for the preparation of the budget and delivery to the selectmen for posting.

<u>Pages 2 - 5</u> Operating Budget	Use these pages for the proposed operating budget. In column 4, put last year's appropriations as voted and approved by the DRA. In column 5, enter last year's actual expenditures. If you are on the optional fiscal year, enter the actual expenditures for the year for the most recently completed fiscal year and indicate which fiscal year. List in columns 6 & 7, under the appropriate headings, the selectmen's recommended and not recommended appropriations and the budget committee's budget, both recommended and not recommended in column 8 & 9. Use page 6 for proposed appropriations other than for operating budget.
<i>RSA 32 requires all appropriations be posted.</i>	The operating budget and all special and individual warrant articles must be posted.
<u>Page 6</u> Special Warrant Articles	Special warrant articles are defined in RSA 32:3, VI, as: 1) petitioned warrant articles; 2) an article whose appropriation is raised by bonds or notes; 3) an article which calls for an appropriation to a separate fund created pursuant to law, such as capital reserve funds or trust funds; and 4) any article designated on the warrant as a nonlapsing or nontransferable article. Be sure to list the account number and warrant article number and add additional pages if necessary.
<u>Page 6</u> Individual Warrant Articles	"Individual" warrant articles are not necessarily the same as "special warrant articles". Examples of individual warrant articles could be ratification of negotiated cost items for labor agreements, leases, or items of a one time nature. Be sure to list the account number and warrant article number.
<u>Pages 7 - 8</u> Revenues	Insert last year's estimated and actual revenue in columns 4 and 5. Enter this year's estimate of revenue in the "Estimated Revenue", column 6. The "Warr. Art. #", column 3, is for the related warrant article, if any.
10% Limitations	Complete the supplemental schedule for calculating the 10% limitation and show the maximum allowable increase on page 6.
Posting & Report Distribution	A hearing must be held on the budget and a signed copy of this budget must be posted with the warrant. Within 20 days after the meeting, send a signed copy to the Department of Revenue Administration at the address below.
Default Budget RSA 32:5, VII (b)	If you have adopted SB2, you will also need to complete and post a default budget form showing how the default budget was calculated. This task may be delegated to the budget committee if so voted under RSA 40:14-b.

This form is available on our website: www.nh.gov/revenue/forms/msforms.htm

BUDGET COMMITTEE SUPPLEMENTAL SCHEDULE

(For Calculating 10% Maximum Increase)

(RSA 32:18, 19, & 32:21)

VERSION #1: Use if you have no Collective Bargaining Cost Items or RSA 32:21 Water Costs

GOVERNMENTAL UNIT: Town of Hudson, NH FISCAL YEAR ENDED June 30, 2010

	RECOMMENDED AMOUNT
1. Total RECOMMENDED by Budget Comm. (See Posted Budget MS7, 27, or 37)	\$27,467,435.
LESS EXCLUSIONS:	\$ 1,075,000.
2. Principal: Long-Term Bonds & Notes	
3. Interest: Long-Term Bonds & Notes	\$ 890,930.
4. Capital Outlays Funded From Long-Term Bonds & Notes per RSA 33:8 & 33:7-b.	----0----
5. Mandatory Assessments	----0----
6. Total exclusions (Sum of rows 2 - 5)	<\$1,965,930.>
7. Amount recommended less recommended exclusion amounts (line 1 less line 6)	\$25,501,505.
8. Line 7 times 10%	\$ 2,550,151.
9. Maximum Allowable Appropriations (lines 1 + 8)	\$30,017,586.

Line 8 is the maximum allowable increase to budget committee's recommended budget. Please enter this amount on the bottom of the posted budget form, MS7, 27, or 37.

Please attach a copy of this completed supplemental schedule to the back of the budget form.

DEFAULT BUDGET OF THE TOWN

OF: Hudson, NH

For the Fiscal Year From July 1, 2009 to June 30, 2010

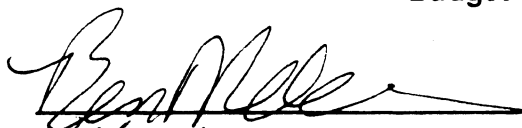

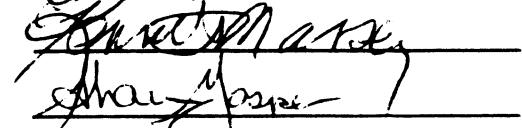

RSA 40:13, IX (b) "Default budget" as used in this subdivision means the amount of the same appropriations as contained in the operating budget authorized for the previous year, reduced and increased, as the case may be, by debt service, contracts, and other obligations previously incurred or mandated by law, and reduced by one-time expenditures contained in the operating budget. For the purposes of this paragraph, one-time expenditures shall be appropriations not likely to recur in the succeeding budget, as determined by the governing body, unless the provisions of RSA 40:14-b are adopted, of the local political subdivision.

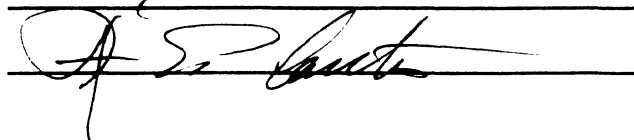

1. Use this form to list the default budget calculation in the appropriate columns.
2. Post this form or any amended version with proposed operating budget (MS-6 or MS-7) and the warrant.
3. Per RSA 40:13, XI, (a), the default budget shall be disclosed at the first budget hearing.

**2009 Town Meeting Warrant
Hudson, New Hampshire**

To the inhabitants of the Town of Hudson, in the County of Hillsborough, State of New Hampshire, qualified to vote in Town affairs. You are hereby notified to meet at Hudson Community Center, 12 Lions Avenue, commencing at 9:00 a.m. on Saturday, February 7, 2009 for the transaction of all business, other than voting by official ballot. This first session of the Annual Town Meeting shall consist of explanation, discussion and debate of each warrant article. Warrant articles may be amended at the first session, subject to the restrictions set forth in NH RSA 40:13, IV.

You are hereby further notified that the second session of the Annual Meeting shall be held at Hudson Community Center, 12 Lions Avenue, between the hours of 7:00 a.m. and 8:00 p.m. on Tuesday, March 10, 2009, to elect Town officers and to vote by official ballot on all articles set forth in this Warrant, as may be amended by act of the first session meeting.

Article 1 Election of Town Officers

To choose all necessary Town Officers for the coming year.

Zoning Amendments

Article 2 Are you in favor of the adoption of Amendment No. 1 as proposed by the Planning Board for the Town Zoning Ordinance as follows?

Amend Article VII, Dimensional Requirements, §334-27, Table of Minimum Dimensional Requirements, by specifically permitting a single family home without town water and sewer on a lot size of 43,560 square feet in the R-2 District, along with certain additional, minor editorial changes. (Unanimously approved by the Planning Board.)

Article 3 Are you in favor of the adoption of Amendment No. 2 as proposed by the Planning Board for the Town Zoning Ordinance as follows?

Amend Article XII, Signs; to provide that signs in rights of way need a permit; specifically permitting only National or state flags; permitting use of Electronic Message type signs to inform the public about construction and traffic related sites; providing new definitions for Electronic Changing Signs, Exterior and Interior Illuminated Signs, Inflatable or Balloon Signs, LED Signs and Portable Signs; limiting signs in Residential Districts to Home Occupation Signs, Subdivision Signs and Residential Real Estate Signs; prohibiting inflatable or balloon signs in any district; and prohibiting signs that emit sounds, odor, smoke, mist, laser, holograms or signs that use stereopticon or motion pictures. (Unanimously approved by the Planning Board.)

Article 4 Are you in favor of the adoption of Amendment No. 3 as proposed the Planning Board for the Town Zoning Ordinance as follows?

Amend Article VI, Special Exceptions, §334-24, Home Occupations, to provide additional requirements for granting a Special Exception for a Home Occupation by the ZBA to include; an affidavit from the owner affirming that only residents of the home will work in the Home Occupation; that the approval for a Home Occupation expires with change of ownership of the premises; that the Home Occupation use must be one typically done in a home environment; that onsite retail sales are prohibited; that no more than 50% of the finished floor space be used in the Home Occupation and permitting the Zoning Administrator to revoke a Home Occupation Special Exception if conditions of approval are not maintained. (Unanimously approved by the Planning Board.)

Petitioned Zoning Amendments

Article 5 Are you in favor of the adoption of Amendment No. 4 as proposed by Petition for Rezoning as follows?

Amend the Official Zoning Map of the Town of Hudson by rezoning those parcels of land known as Tax Map 228, Lots 052, 053 and 054 (inclusive), and the land which constitutes Lowell Road and abuts the aforementioned properties (Lots 052, 053 and 054) from being in the Residential-Two (R-2) to being in the Business (B) District. Said parcels are located at the intersection of Rena Avenue and Lowell Road. (Disapproved by the Planning Board by a vote of 5-2.)

Article 6 Are you in favor of the adoption of Amendment No. 5 as proposed by Petition for Rezoning as follows?

Amend the Official Zoning Map of the Town of Hudson by rezoning from Residential-One (R-1) to Residential-Two (R-2) the parcel having an address of 51 Burns Hill Road, Map 211/Lot 40. Said parcel abuts a R-2 zoning district, and is generally located across the street and to the immediate south of the Glen Drive and Burns Hill Road intersection. (Disapproved by the Planning Board by a vote of 6-1.)

Article 7 **Are you in favor of the adoption of Amendment No. 6 as proposed by Petition to amend the Zoning Ordinance as follows?**
Amend Article XII, Signs, to permit electronic time, temperature and date message centers in only the Business District. (Unanimously disapproved by the Planning Board.)

Article 8 **Are you in favor of the adoption of Amendment No. 7 as proposed by Petition to amend the Zoning Ordinance as follows?**
Amend Article XII, Signs, to permit electronic changing signs and LED signs in only the Business (B) District provided messages change no more than once per hour and the signs have automatic controlled lighting and dimming capabilities. (Unanimously disapproved by the Planning Board.)

Selectmen's Articles

Article 9 **Wage and Benefit Increase for Non-Union Personnel**
Shall the Town of Hudson vote to raise and appropriate the sum of \$25,192 which represents a 3% increase in wages and benefits for the following non-union positions: Town Administrator, Police Chief, Fire Chief, Assistant Town Administrator, Road Agent, IT Director, Finance Director, Recreation Director, and Executive Assistant? (This appropriation is in addition to Article 12, the Operating Budget.) (Recommended by the Board of Selectmen, 5-0.) (Recommended by the Budget Committee by a vote of 6-2.)

Article 10 **Wage and Benefit Increase for Town Clerk/Tax Collector**
Shall the Town of Hudson vote to raise and appropriate the sum of \$1,835, which represents a 3% increase in wages and benefits for the Town Clerk/Tax Collector? (This appropriation is in addition to Article 12, the Operating Budget.) (Recommended by the Board of Selectmen, 5-0.) (Recommended by the Budget Committee, 7-2.)

Article 11 **Wage and Benefit Increase for Full Time Library Employees**
Shall the Town of Hudson vote to raise and appropriate the sum of \$11,958 which represents a 3% increase in wages and benefits for the full time employees of the Hills Memorial Library? (This appropriation is in addition to Article 12, the Operating Budget.) (Recommended by the Board of Selectmen, 5-0.) (Recommended by the Budget Committee, 7-2.)

Article 12 **Operating Budget**
Shall the Town of Hudson vote to raise and appropriate, as an operating budget, not including appropriations by special warrant articles and other appropriations voted separately, the amount set forth on the budget posted with the Warrant or as amended by vote of the first session, for the purposes set forth therein, totaling \$26,935,059? Should this article be defeated, the default budget shall be \$26,886,556 which is the same as last year, with certain adjustments required by previous action of the Town of Hudson or by law; or the governing body may hold one special meeting, in accordance with RSA 40:13, X and XVI, to take up the issue of a revised operating budget only. (Recommended by the Board of Selectmen, 5-0.) (Recommended by the Budget Committee, 8-3.)

Article 13 **Part-Time Senior Services Director**
Shall the Town of Hudson vote to raise and appropriate the sum of \$23,391 which represents the cost of wages, benefits and office supplies necessary to hire a part-time Senior Services Director? (This appropriation is in addition to Article 12, the Operating Budget.) (Recommended by the Board of Selectmen, 5-0.) (Recommended by the Budget Committee, 11-0.)

Article 14 **Replacement Ambulance**
Shall the Town of Hudson vote to raise and appropriate the sum of \$155,000 to purchase a new ambulance, and to authorize the withdrawal of \$155,000 from the Ambulance Capital Reserve Fund for this purpose? This account was created for the purpose of purchasing new replacement ambulances for the Town and has been used to replace other units already. No funds are requested from general taxation, as there will be sufficient funds available in this account to make the purchase as of July 1, 2009. (This appropriation is in addition to Article 12, the Operating Budget.) (Recommended by the Board of Selectmen, 5-0.) (Recommended by the Budget Committee, 9-0.)

Article 15 **Vac Con (Drain Suction) Truck Replacement**
Shall the Town of Hudson vote to authorize the Board of Selectmen to enter into a five year lease purchase agreement for \$240,000 for the purpose of lease purchasing a VacCon (drain suction) truck and to authorize the withdrawal of \$120,000 plus accumulated interest from the VacCon Capital Reserve Fund, and to raise and appropriate \$25,000 for the first year of the lease purchase? This lease purchase contains a fiscal funding escape clause. (Majority vote required.) (This appropriation is in addition to Article 12, the Operating Budget.) (Recommended by the Board of Selectmen, 5-0.) (Recommended by the Budget Committee, 5-4.)

Article 16

Future Senior Center Capital Reserve Fund

Shall the Town of Hudson vote to establish a Capital Reserve Fund under the provisions of RSA 35:1 for the purposes of purchasing, building, leasing or renting a facility for a Senior Center to be known as the "Senior Center Capital Reserve Fund" and to raise and appropriate the sum of \$50,000 to be placed in said fund? (This appropriation is in addition to Article 12, the Operating Budget.) (Recommended by the Board of Selectmen, 5-0.) (Recommended by the Budget Committee, 10-0.)

Article 17

Fire Station Land Assessment

Shall the Town of Hudson vote to raise and appropriate the sum of \$25,000 to conduct an assessment of certain parcels of land within the NH Route 102 corridor to determine whether those parcels would be suitable for the location of a future fire station facility? This assessment will include the identification of environmental and topographical features of the land, the ability of the parcel of land to accommodate water, sewer and drainage systems, and the ability of the land to accommodate an emergency vehicle entrance and exit roadway system. This assessment will also include an evaluation of the estimated costs for improving each such parcel to support a future fire station facility. (This appropriation is in addition to Article 12, the Operating Budget.) (Recommended by the Board of Selectmen, 4-1.) (Recommended by the Budget Committee, 6-4.)

Petitioned Article

Article 18

To direct the Selectmen of the Town of Hudson to cap any increase of their annual budget to any projected increase in revenue above the last annual budget and in no case to increase the annual budget more than the rate of inflation, as defined by the National Consumer Price Index—Urban/Rural (CPI-U/R) as averaged over the 12 months preceding the vote on the new annual budget. (Not recommended by the Board of Selectmen, 5-0.)

GIVEN UNDER OUR HANDS AND SEALS AT SAID HUDSON ON THE 15th DAY OF JANUARY, 2009.

A TRUE COPY ATTEST:

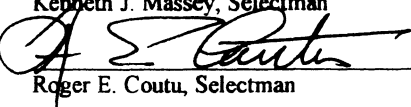

HUDSON BOARD OF SELECTMEN

Benjamin J. Nadeau, Chairman

Richard J. Maddox, Vice-Chairman

Shawn N. Jasper, Selectman
